That German Laughter

Germany has laughed at the American soldier and some good Americans have approached the subject with fear and trembling but there will be another laugh coming when our boys face the Germans and it won't be a German laugh either.

When the war started they laughed at England's pitiful little army but that laugh has changed to a very sober grin if not a serious frown and especially so, when the Canadians are faced. The Canadian contingents are made up of many typical Americans and when Germany meets the real American soldier, fighting under old glory it is safe to say that she never faced a more gallant soldier, stubborn enemy or active antagonist. What the Canadians have been to the English Army, the Americans will be to the allied armies. Old Goliath laughed at David tried to laugh last and so will the Americans triumph over the brutal German if they are kept out of the trenches until properly trained.

No use to hurry the longer we wait, the better prepared we will be and the shorter the task to be performed.

Of course we may have some setbacks. Who can expect otherwise? But American pluck, ingenuity and activity will eventually overcome the slow moving and besotted brute the Kaiser has turned his soldiers into.

A few years before the present war, David Starr Jordan, the pacifist was predicting that there would never be another great war... Some people have queer ideas of what are the essentials for a U. S. Senator. The Gov. of Texas who just been impeached for high crimes and misdemeanors and the mayor of Chicago who has been threatened with impeachment have both declared themselves candidates for the senate. Guess they would join Pres. Wilson's cabinet of wilful men.

Gov. Ricketts is doing the right thing in organizing the State Militia for protection and here's a volunteer if needed. If these senator and representatives whose vote are in the interest of the Kaiser are not acting suspiciously then pray tell us what suspicion is.

All true Americans will agree with Mr. Roosevelt when he says that La. alerts is a disgrace to the U. S. Senate.

Washington Sep. 29—Some of the women who were ornaments to society last winter are not expected to return for the social season just opening. The reason is that many of them were friends and social confidants of Count Johann von Bernstorff the German ambassador.

The names of the women are on the list of persons and firms which the department of justice is still holding in connection with the investigation of the reported German slash fund of several million dollars which is supposed to have had its ramifications in many courts.

The wet city of Los Angeles Cal is in need of a new city jail. The Chief of police admitted that the great bulk of the crimes committed in Los Angeles is directly or indirectly due or traceable to drinking. The City Attorney then advised the Council to remove the need of a new jail by adopting prohibition.

Reaping a wife, with tobacco as currency, in the old days of Virginia

For cigarettes, Virginia-Carolina tobacco is the best

The sunny South—where cigarettes were born
The first cigarette ever made was Virginia-Carolina tobacco. All the mellow charm of Southern sunshine itself is in Virginia-Carolina tobacco. And no other tobacco has that "dash" and "go" to its taste that Virginia-Carolina tobacco has.

Piedmont
The Cigarette of Quality

NOTE: 100 million pounds. That's how much Virginia-Carolina tobacco was made into cigarettes last year—over 4 times as much as any other tobacco. And Piedmont is the biggest-selling Virginia-Carolina cigarette in the world.
