MAY LEAD TO GRAVER CONSEQUENCES.

If our government does not find some way of ridding the country of Capt. Boy-Ed and other like criminals we had just as well prepare for more startling developments and graver consequences.

With 3,000 spies in this country bound by secret oaths and without any regard for our government or her people the most dangerous conditions confront this nation that has ever troubled any country in the time of peace.

If we were dealing with a law-abiding people we could afford to stand for national civility, but when dealing with the most dangerous body of crooks and spies that ever infested any country, law and justice should be the ruling guide instead of comity.

Millions of property and many lives have been sacrificed on account of Austro-German methods in this country and it is high time to let them know that this a free country for American citizens and the citizens of other countries who propose to become law-abiding and God-serving people who believe in true democracy and humane laws.

PISTOL TOTTING.

A recent letter to the editor of the News calling attention to the sale of pistols to small negro boys is even more serious than one would at first think.

It is said that large numbers of negro men and boys are carrying pistols and this accounts for the frequent number of homicides occurring in this section.

If you will go to the hardware stores and just see the number of negroes buying pistols and cartridges you will be surprised and reach the conclusion that something ought to be done to curtail the sale and pistol toting habit. It is simply fearful and our law-makers should study the question with a view to finding some remedy to prohibit or decrease the crime.

Unfortunately it is not all confined to negroes, but too many whites are in the habit of carrying their pistol without cause.

The judges ought to adopt the plan of sending all caught to the roads for a good long term until the habit is cured.

OUR LIST IS NOT HIDDEN.

If you should see a statement claiming to have "More subscribers in the territory doing its leading in Fayetteville" than the Index, just ask to see the gentleman's list and his own statement. That's the way to get at it. Mr. Advertiser, if you are interested in knowing the truth, we help anybody to make the test and publish the facts.

Our list is not hidden and we make no statements that would bear the light of investigation. The idea of things is that no man or paper should claim what he has not and when it does it should be exposed. Turn on the light. The truth cannot be hurt any.

LOOK FOR THE CARRIERS!

The carriers will probably call on you this afternoon for a dime, and it will make the carriers' position very humble and down every morning to deliver your News and take your letter and bills, if you will just meet them with a smile and a dime. We had rather you say them than us. They deliver the paper and are entitled to it.

If, however, you prefer to pay a dollar for three months, we have no objection to your doing so.

BASKETBALL TO BE TAMED

The new basketball rules are intended to eliminate the former roughness for forcing the players to play like bull and not the man.

There are no radical changes in the rules that will govern the 1915-1916 playing, other than a stiffening of the laws regarding holding, charging and blocking by increasing the old penalties and adding a few new ones.

The News is being sent to practically every home in the city and for this reason it is one of the best advertising mediums in the county.

The Index has a general circulation in Cumberland and all the surrounding counties. The two papers cover Fayetteville and the Cape Fear section like the dew of the morning, giving our advertisers three times as much circulation as any other paper in the Cape Fear section, making the best advertising medium in the entire section.

If you want to reach the people place your advertising in The Cape Fear News and the Fayetteville Index, the papers that have the circulation and the readers.

If you are from Missouri, ask to be shown. We make no statements that we cannot back up and our list is not hidden, but can be seen and read.

The combination offered by The Index and The News is unequalled as an advertising medium in this section. Try them if you want your advertising to pay. Mark your copy for both papers and send it to this office by noon the day before it is to appear.

The News is published every morning except Monday and copy ought to be in the office at noon of the previous day.

The Index copy should be in the office not later than Monday to insure publication. We want to publish The Index Tuesday evening and if our advertisers will remember this and send in their copy they will get better service as well as do us a favor. It will help the reader to get his paper on time, give the advertiser better service and be to advantage to us.

We haven't a man to go after the advertising every time, so please mark amount of space, number of times the ad. is to appear and send it early so that we will have time to set it up.

Remember that the News is the only paper delivered in Fayetteville early Sunday morning and arrange your advertising Saturday morning for Sunday's News. It will pay you to do so.

ANNUAL MEETING OF THE CHAMBER OF COMMERCE

The Chamber of Commerce will hold its annual meeting on Monday night, November 29th, at 8 o'clock, in its room, No. 105 Hay street. At this meeting reports for the year will be read and the annual election of officers will take place. It is earnestly hoped that the members generally will take an interest in this meeting and attend same. At this time also plans for the coming year will be made and many matters of importance are to be discussed; among these matters, which will claim the attention of the Chamber is that of the farm demonstration work in Cumberland county. As the Chamber of Commerce was instrumental in starting this work and in helping to pay the expenses during the first year, it is very desirable that the Chamber lend its aid to a continuance of the work. We trust the entire membership of the Chamber will be present as we wish to start off a new year with a special of interest not only to the membership, but in the work and aims of the organization.

CRAB HAD A PINT OF BOTTLED-IN-BOND IN HIS CLAWS

Kinston, Nov. 25.—Baker Potter is positive and others confirm his statement that he captured a crab near Vandemere which had a pint bottle of bottled-in-bond whiskey in its claws, said a report from Washington yesterday. The cork was partly eaten out, it was said. Potter was dragging for oysters and the crab and the bottle came up with the oyster and mud. It was reasonable that the crab should clutch at the bottle, possibly in an attempt to avoid capture, but it sounds rather fishy that any one should be careless enough to drop a pint of whiskey on a board in Pamlico sound, say boatmen who refuse to "swallow" the story.

Ed Emmett Assaulted

Mr. Ed Emmett is wearing a high on his left jaw that he says he received the other night when some one held him up and tried to rob him.

The incident was a knife and made a very ugly case. It is not an accident that Mr. Emmett claims the Biblical injunction to turn the other cheek is nothing to show that the offender commits a felony by using the second law. The only course of action is to turn the other cheek, says Mr. Emmett.
