Washington, Nov. 30 .- Tammany will hold the balance of power in the House of Representatives during the coming Congress. The discovery of this fact by political observers has opened vast fields for speculation over developments likely to come from this interesting situation

The line-up in the House will be 229 Democrats, 196 Republicans, 6 Progressives, 1 Independent and 1 Socialist. This will give the Demoerata a majority of just 25. A defection of 13 Democrats with the opposi tion standing solidly together would be sufficient to defeat any measure.

Tammany, with Brooklyn allies, will have 16 members. This will give it a margin of 3 over the required number for the balance of power. Political sages see in this situation reason for believing that an era of peace may be at hand between the Tiger and the Wilson administration. The crusading days against Tammany will be interrupted by a long armistice, it is

BRITON SHOULD KILL AS MANY GER MANS AS POSSIBLE

Dr. Derby Says It is a Trying Time and That Young

> Clergymen Are Needed

London, Nov. 30 .- The Rev. Percival MacKenzie, moderator of the Synod of the Scottish Church in England, a young minister who is expecting shortly to enlist as a soldier in the British army, has headed a revolt on the injunctions of the church leaders that it is no part of a clergyman's duty to take an active part in the fighting line. Mr. MacKenzie believes t is the duty of every Briton to kill ds many Germans as possible

His reasons for this attitude, which s opposed to that of most of the dignitaries of the church are set out in strong letter which he has sent to the newspapers as follows:

"The hour of the church's trial has ome. Lord Derby, although he knew erfectly well what views 'the digniaries' held, wrote to the young clergy and told them that their country needed them. This is the trying of

the church. (This refers to the appeal which Lord Derby sent out to every eligible nan in England asking him to enlist. Many of the young clergy who reeived the appeal wish to joint, but the church leaders some time age practically squashed their hopes by enlisting by stating that it was part of a clergyman's duties to fight, and their vows forbade them to-take active part in battle.)

"If there ever could be devised one ingle way in which young churchmen could repudiate the charge of eing weak effeminate, triflers with ife, Lord Derby's letter opened up hat way. The whole country is lookng on to see what its public lecturers ire going to do, not say. The world has been hearing about the value of herifice for the last 1900 years, and he world is of the opinion that the me for example has come

For the last few decades Protestantantism has shown a fatal inability accommodate its teaching to moden life. From the pulpit the age has ADVANTAKE TO MARINE received instead of sympathy, ungenerous criticism, often condemnation. The world has moved on, but the church has not accompanied it. Deprecating and denouncing, the

a church work and throw himself

the work of making himself fit to kill Germans, though he is aware that y so doing he will be ending his career as a clergyman. He is the rgyman who some time ago turned his vestry into an ammunition factory, and men and women of his conregation in London are helping him
