PARISIAN FASHIONS IN NEW YORK.

To say that New York is Paris in minia ture is to say that it is very gay, that it women are well dressed, that there is plenty of out-door amusement and very little real happiness.

This is what is beginning to be said o New York, and in a measure it is true. There are a great many traveled people in New York now who wish to be extremely Parisian. The force of total depravity can no firther go. This vote shows that the presnt Congress is lost to all sense of shame and all considerations of decency. The members of the Senate did not dare to put themselves upon the record by the yeas and nays; but that was merely a matter of parall widence to the contrary, we are bound to believe that all wh for this infamous resolution, which not only raises the salaries of members of Congress for the future, but has a retrospective bearing, and gives them five thousand instead of

three thousand dollars for the session about to close.

History may be searched in vain for a parallel to the corruption, extravagance, robbery and profligacy of this Congress. It is a vast job or aggregation of jobs. It controlled by jobbers, and every measure that it passes is more or less a job.

In many countries such proceedings as those of the present Congress would be folkets lowed by an armed revolution. Here it will cause a revolution also, but in a differtheir places with honest men. HOW HE TURNED IT OFF .- The N. York Leader thus relates an exploit of Mr. Hind, political meeting the speakers and the actor:

He was playing in a piece, somewhere out West, where a brigand, confined in prison, files off his fetters with a tool supplied him by an accomplice; climbs to the top of a wall, gets one leg over, and is then shot by three dreadful soldiers, who rush in just when his escape seems certain.

This scene is very exciting. As the brig and works at his fetters the audience begin to sympathize with him, and when he gets them off and painfully mounts the wall. they think it a pity that he should not secure his liberty when he has so nearly attained it.

One night Hind was appearing, as I said, in this part. He filed his fetters to slow music. He climbed the wall. He threw soldiers to shoot him, as any respectable brigand would have done under the circumstances

The soldiers rushed out, aimed their musyets at the ceiling, as soldiers usually do, and pulled the triggers, but the guns would not fire.

Hind sat patiently until the prompter had supplied the soldiers with another set of guns. But it was of no use. The guns would not shoot. A third set were procured, but with no better result. The prompter's boy had neglected to load the mus-

Hind, like our Adams, decided that something must be done. Paying no further attention to the soldiers, he stiffened himself, fell heavily from the wall, rolled over to the foot-lights, raised himself upon his elbow. stared at the audience, choked a little and exclaimed: "Good heavens! I have 'swallowed the file!"

After this sublime exclamation all that

ONE OF GOUGH'S STORIES .- At a audience were very much disturbed by a man who constantly called for Mr. Henry. Whenever a new speaker came on, this man bawled out, "Mr Henry! Henry! I call for Mr Henry! After several interruptions of this kind at each speech, a young man ascended the platform, and was soon airing his eloquence in a magnificent style, striking out powerfully in his gestures, when the old cry was heard for Mr. Henry.

Mr. Gough adds, that in telling this story to a man who could never be made to see the "point" of a joke, after studying a few minutes the man asked him: 'Well, Mr Gough, what did he tell him to 'holler' for?'

SHOCKING BARBARITY--A private letter gives some details of the case of child-murder in Medina, N. Y., (already reported,) in which a clergyman named Joel Lindsley whipped his little boy to death because he would not say his prayers. The jury, after examining the corpse, said 'they never saw such a sight before, and asked Joel what he whipped the child with. He said a shingle, sometimes with the flat side and then with the edge; but, oh, such a sight! his little fingers were all in strings, the nails gone and the bones broken, his legs all a jelly, and the bottoms of his feet blistered, and pieces of flesh gone out of them, his shoulders and neck and the sides of his head all black. They looked around and found a tub full of bloody clothes to soak; and the verdict was murder."

remained for him to do was to give the usual kicks and lurches, die in the good old legitimate style, and so end the piece and receive the congratulations of his friends. I never look at Hind without thinking of this story. It ought to have made him immortal. An actor who could furnish such a finale is capable of anything.

Miss McLush rarely walks. When she does, it is with the deliberate majesty of a Dido. Her small, plump feet melt to the ground like snow-flakes, and her figure sways to the indolent motion of her limbs with a glorious grace and yieldingness quite themselves created. Elected as union men, indescribable. She was idling slowly up the Mall one evening just at twilight, with a servant at a short distance behind her, who, to while away the time between his steps, was employing himself in throwing spoke as follows: stones at the cows feeding upon the Common. A gentleman, with a natural admiration for her splendid person, addressed her. He might have done a more eccentric thing. Without troubling herself to look at him, she turned to her servant and requested him, with a yawn of desperate ennui, to knock that fellow down! John obeyed his orders; and, as his mistress resumed her lounge, picked up a newhandful of pebbles, and tossing one at the cow, loitered lazily after. SAD AND BEAUTIFUL.-Ex-Gov. Vance, of North Carolina, in a recent address before the literary societies of the North Carolina University,

"No monuments of victory are for us, no national jubilee can we celebrate, no songs of triumph can our maidens sing, or garlands of glory weave; there is no welcoming of returning conquerors, nor crecting of triumphal arches for us, to console us for our great suffering. We are all alone with our great defeat and that heavy sorrow which, never flitting, still is sitting, in our household;' and all that we have left for our comfort is the sad yet tender light which plays around the memoy of those who died to make it otherwise."

A WISE ENACTMENT .- By the new act to amend the postal laws it is provided that postmasters shall return to the writers, free of cost, all letters not delivered or called for, when requested so to do by the person mailing them. Persons mailing letters may write on them a request to the postmaster to return the letter to them if not delivered in any number of days they may choose to mention, and it is made the duty of the postmaster to do so.

THE BEST YET .- The American, (N. Y.) Times tells the best story yet concerning recent freaks of the lightning: A person, whose name it did not learn, was sitting inan open shop door, when, apparently, two flashes met directly over his head, and passed down his body, nearly stripping him of his clothes, and
