DAILY WARSAW MAIL. - We learn from the Daily Dispatch that the business men of Wilmington are making earnest efforts to secure a daily mail from this place to Warsaw on the Wilmington & Weldon Railroad. If the people there feel the necessity of exerting themselves in this matter, we should in a much higher degree, who have ten fold greater interest in it. Let us co-operate with them in their endeavors, and by a strong and forcible representation of our condition, and an earnest petition for relief to the Post Office Department, we may obtain some facilities of which we are at present deprived.

PERSONAL. - His Honor, Mayor McLean of Fayetteville, who has been absent for some time from this place, as a delegate to the great National Union Convention, has returned, and gives us much hope and encouragement from the views which he expresses, of the benefic ent results which will be accomplished by the address and resolutions of this important conservative assembly. He says that the friendly and corand he expresses the belief that as much good was brought about by the interchange of sentiment and opinion as by the utterance of the doctrines and prin-

WESTERN MAIL. - We are glad to be able to inform our readers that a contract for running a mail route between Jonesboro, on the Western Rail-road, and High Point, has recently been let by the Government, and the mail is now being regularly conveyed twice a week between the two places. We sincerely trust that this is only one of many announcements which we will soon be enabled to make, of increased postal facilities throughout the State. The advantage accruing to us from this new arrangement is already being experien ced in the addition of names to our subscription list.

THE MCLEAN FIRE COMPANY .- This, we are glad to say, has become an established organization, and gives promise of being a permanent and effective one. At a called meeting of the members of this company, on Tuesday evening last at eight o'clock, Jno. H. Robinson Foreman, finding articles and by-laws were read and adopted, fixing the name and style of the association, designating the officers, prescribing the duties of prices for foreign cereals have a declining members and the mode of electing them, imposing tendency. Provisions are unaltered. fines for offences and omissions of duty, and binding a'l to respect and obedience of the rules and regulations of the constitution as submitted to them. We hope now that every encouragement will be extended to this organization, for it is of vital interest to every citizen of the town, and with the hearty support which it desirves, will be productive of much usefulness for, the future. But we can say one thing: if cold water is thrown on it, as some seem disposed to do, there will be precious little thrown hereafter on any fire in these

We think it would be a good plan hereafter, on the alarm of fire, for the persons ringing the bells to have some indications agreed upon by which it would be known, by the number of strokes given a tone interval. in what ward the fire had broken out. Delay and uncertainty would be obviated by this, and the fire company could thus more promptly reach the spot which needed its services.

We intend to keep "hammering" upon this theme, until the fire department is made as effectual as our present circumstances will permit it to be, or-until we are fully convinced that no one pays any attention to what we say. Then we will stop.

NEW AND IMPORTANT ENTERPRISE.—Yesterday afternoon we had the pleasure of seeing some new bolls of cotton from the plantation of Messrs Love & Overbaugh, in the Cross Creek section, and comprising what was called the old Kershaw estate. The proprietors have about twenty-five acres planted in cotton, the working-men. and will probably make fifteen or twenty bales. New bolls were picked from the plantation a week ago, and by good judges have been pronounced very full and excellent staple. It has been time and again asserted try have been devoted to this experiment, and it will undoubtedly bear its satisfactory and profitable fruits. If the production of cotton is practicable with our people in this county, they could not do better than devote their time and attention to it. The time has been when it was the true policy of the agriculturists of North Carolina to cultivate their lands, not with reference to the immediate and direct accumulation of capital, but to the general and permanent development of the resources of the soil. But such is not the case now. We want money, ready money, to reestablish ourselves as planters, farmers, tradesmen. and manufacturers, and that is the crop for our needs which will most surely and readily command capital in exchange for the raw material. We hope that this undertaking of Messrs Love & Overbaugh will prove to be entirely successful. We learn that Mr. K. J. Braddy, also, on the east side of Cape Fear river, has planted a large part of his land in cotton.

general and refreshing rain throughout this county and \$1021. section of the State. The recent drought has been even more severe than the one occuring about the same time last year, and in consequence of it every sort of Susiness has been dull and languishing with us. A rise in the river and the resumption of the regular boat travel will, we hope, infuse some life into trade.

A very interesting contribution-"WANTED TO GET BACK INTO THE UNION"-has been deferred until terday. next week, both on account of press of matter and for the reason that we wish to make some reflections in connection with it.

The proceedings of the recent Civil Meeting of the Fayetteville Independent Company are unavoidably crowded out to-day.

> The treaty was officially signed by the BACONplenipotentiaries on behalf of their respective governments on same day.

Among the provisions of the treaty is one that the troops now at different points shall evacuate their positions and retire to their respective homes, within three weeks

Paris, Aug. 25, M. An immense demand has sprung up in this city for U. S. 5-20's, and heavy orders for supplies have been telegraphed to American agents of various banking-houses in this city.

Liverpool, Aug. 25, M. The Cunard steamship Scotia sailed this morning for New York. She has a number of passengers, and takes £110,000 in specie on American account.

Queenstown, Aug. 25, M. The steamship China, from Boston, via Halifax, has arrived.

London, Aug. 24. The war has ended, but the feeling in Austria is "peace for the present, but war in future," to re-establish her supremacy in Germany.

Prague, Aug. 24. The most perfect concord exists among dial feeling between the representatives of the two the plenipotentiaries assembled here, and sections was weakened or interrupted in no instance, the treaty of peace, though not signed, is a certainty, and news of it is hourly expec-

> Liverpool, Aug. 25, P. M. The cotton market rules steady; quotations are unaltered. The sales reached 8,000 bales, Middling Uplands closing at 133d. The breadstuff market is dull, owing to the favorable prospects for the crops;

London, Aug. 25, P. M. The money market is firm. Consols closed at 88%. Five-twenties 70%.

Vienna, Austria, Aug. 25, P. M. It is officially announced that the Emperor Francis Joseph has granted a new constitution and ministry to Hungary.

Paris, Aug. 25, P. M. Before the treaty of peace was signed between Prussia, Austria, Italy and Bayaria. Austria unreservedly ceded Venetia to Italy.

Baltimore, Aug. 25. P. M. The committee appointed by the Labor Convention, at Baltimore, waited on the President to-day. Mr Hinchliffe, the spokesman, disclaimed having connection with any party in a political sense, or that the movement was for political power. He urged that eight hours per day for labor should be legalized; that the public lands; should be distributed so as to be reached by the laborers instead of capitalists, and that the working-men be protected against convict labor. He asked the President's assistance to accomplish these measures for Monday

In reply the President said: He was opposed to the present system of convict labor, on account of its unjust discrimination and degrading influences; he desired to see the least number consistent with the interest of all, and the laboring men could rely upon his influence when it could be given in their behalf; they had his sympathy and best feeling in their cause, and he day last at 30a31c. for middling, 321c. for good mid-

A NEW AND GRAND EPOCH

Dr. Maggier is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiels Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffice to place the bowels in perfect order, tone the stomach. create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medi-cines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact it is here announced that Maggiel's Balve. In fact it is here announced that Maggiel's Billious, Dispeptic and Diarrhea Pills cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin Maggiel's Salve is infallible. Sold by J. MAGGIEL, 11 Pine St.

New York, and all Druggists, at 25 cents per box.
