

H. J. HALE, Editor and Proprietor. H. J. HALE, Jr., General Business Manager.

FOR PRESIDENT: Judge Alton B. Parker, of New York. FOR VICE-PRESIDENT: Henry G. Davis, of West Virginia.

State Democratic Ticket.

- For Governor: ROBERT B. GLENN. For Lieutenant Governor: FRANCIS D. WINSTON. Associate Justices of Supreme Court: W. A. HOKE, GEORGE H. BROWN, JR. State Auditor: B. F. DIXON. State Treasurer: B. R. LACY. Secretary of State: J. BRYAN GRIMES. Superintendent of Public Instruction: J. Y. JOYNER. Commissioner of Labor and Printing: H. B. VARNER. Corporation Commissioner: S. L. ROGERS. Commissioner of Agriculture: S. L. PATTERSON. For Congress: GILBERT B. PATTERSON. Sixth Congressional District.

CHAIRMAN SIMMONS PUTS HIS OPPOSITION "IN A HOLE"

"Headquarters State Democratic Executive Committee, Raleigh, N. C., August 20, 1904. Hon. Thomas S. Rollins, Chairman Republican State Executive Committee, Asheville, N. C. My Dear Sir:—Your letter of Aug. 15th, declining the challenge for a joint debate between the candidates on the State ticket of our respective parties for political offices conveyed in my letter to you of July 27th, except between the opposing candidates for one of the minor places on that ticket, has been received. I note that your letter puts your declination of my challenge upon the ground that some of the candidates of your party oppose a joint debate, and from the text of your letter it appears that this opposition extends to all your candidates on the State ticket except one. I assume as a matter of course that the candidates of your party, who are under the jurisdiction of your committee, whatever may be their personal inclination, would obey the decision of your committee as to a joint discussion, as the candidates of my party are ready to obey the decision of my committee upon that question, and I must, therefore, accept your refusal of my challenge as an acquiescence by you and your committee in the opposition of your candidates on the State ticket to a joint discussion. "In view of the fact that your party held its State convention first and that your platform was drawn up and charges against the administration of the State's affairs during the past four years by the Democratic party, it is surprising, to say the least, that the candidates nominated by your party for executive and administrative positions in the State government should oppose a joint discussion before the people of this State, and that you should propose to limit the joint discussion to the opposing candidates on that ticket whose sole duty will be to preside over the debate. "You refer to certain arrangements which you say have been made between certain candidates for Congress for a joint discussion, and to an unaccepted challenge made by the Democratic candidates for election at-large, and express a willingness to meet me to arrange appointments for those discussions. Under the plan of organization of my party, and I presume the same is true of yours, the State executive committee has no jurisdiction over appointments for Congressional candidates, that power being vested in the district committee. It has never been the practice of our State committee to make or interfere with those appointments and unaccepted interference now would doubtless give offense to those candidates and to the district committee. Under the circumstances, there does not seem to be any occasion for further communication between us with reference to these matters."

ANOTHER COXBY CAMPAIGN.

Raleigh News and Observer. In 1896, when the great majority of American voters were resolved to elect Bryan to the Presidency, Mark Hanna coaxed "Coxey old boy" to travel about the country advocating all sorts of socialistic crazy things and also declaring for Bryan. Then he caused all the newspapers that he could direct to write up Coxey's fantastic views and couple his name and his vapourings with Bryan and Bryan's advocacy of the Chicago platform doctrine. It cost money, but in 1896 the Republicans had "money to burn." It is evident that the Republicans in 1904 will use any Populists who want to make some money sending them through the country ostensibly preaching Populist doctrine. But really abusing Judge Parker and the Democratic party. The early fulminations of certain so-called Populist orators shows that there is to be a repetition of the Coxey game of 1896.

Opening of A. & R. College. The Agricultural and Mechanical College at Raleigh will open Thursday, September 1st. Entrance examinations will be held Tuesday and Wednesday, August 30 and 31, at 9 a. m. Examinations to remove conditions will be held Tuesday, Wednesday and Thursday, September 6, 7 and 8, at 10 a. m. Students may be removed from the college at any time after September 1st.

GOVERNMENT POSITION IN REGARD TO NEGRO EDUCATION.

Gov. Glenn's Position in regard to Negro Education. Raleigh, August 22. SO MUCH has been said of Governor Glenn's ideas and position, in regard to negro education, that the following will be read with unusual interest. It is an outline of a speech delivered by him in Raleigh, a few nights ago, and defines his position with regard to negro education and the present system of education in North Carolina: "YOU CAN'T TEACH A HOUND TO SET BIRDS."

Yes, education is a good thing for everybody, but it should be dispensed discreetly. Every person should not be educated—that respective positions in life should be considered. Yes, you can educate even a dog and he will be the better for it. "But you cannot teach a hound puppy to set birds."

I believe in education and I stand fast-footed on the educational plank of the Democratic platform adopted by the Democratic State convention at Greensboro. But I have a right to my views as to the character of education that should be furnished respectively to the white children and the negro children of North Carolina.

I have said that you cannot teach a hound dog to set birds. Neither do I believe that a negro should be "educated" into thinking himself as good as or a little better than a white man. The same character of education is not good for him as a general rule, that is good for the majority of white children.

Let us not teach him to think he should become a great lawyer or doctor, or other "professional" man, when there is no field for such a talent if he had it. Practically teach him to do well some good mechanical work that he is fitted by nature and environment to perform successfully, and thereby fit him to make a good living for himself and family.

The "educated" negro, who struts about our streets, with a Prince Albert coat and silk hat and eye glasses, for a brief season, and then lands where he has to swap the costume for one of stripes, is a big failure—and the system of so-called education which he received (imprinting false ideas of his importance and opportunities) is largely, chiefly responsible for the failure.

I believe also in practical education for a great many white boys and girls. The honored and honorable trades should by no means be turned over to the negroes. No labor, when honestly done, is lowering to the true manhood of the white man in North Carolina.

I do not say that the negro should have only what they pay (relatively) in taxes to support schools for them. That would be too hard on them. They are weak and we are strong; they need our help and it would be unmanly in us to deny them any assistance at all.

But it costs less to support negro teachers, the negro school can be run cheaper, and I do not favor giving them proportionately as much (one-third, there being one negro to two white persons in North Carolina,) as is given to the white schools.

Teach the negro boy to work, to be honest, to be a better servant, and you do him a better service than by instructing him in the higher studies of the colleges and the schools. Uprightly raise the negro's aspirations and you are apt to make him idle, to put him into habits of vagrancy, into the jails and the penitentiary.

JUDGE CLARK'S WONDERFUL WORK.

Raleigh News and Observer. In the course of a talk Chief Justice Walter Clark said that the State records, the greatest work ever attempted by North Carolina, was nearly completed. Volumes 23 and 24 will contain the laws from 1863 to 1871, both public and private. Of each of these volumes 250 extra copies will be printed for the benefit of lawyers who may desire to purchase. Volume 25 will contain the session of 1870, containing 33,000 names and the index thereto. These names were secured from the United States archives by a special act of Congress. Of course the main use of the public will make of this will be in tracing the names of their ancestors. Volume 26 will contain the general index. It will have an index of all the other volumes except the census volumes. Volumes 24 and 25 will contain the laws of volumes 23 and 24, as lawyers will probably buy those two volumes. The index of volume 24 will also be embraced in the general index, but not the index of volume 25 since the latter contains 53,000 names, as already stated. Judge Clark thinks will be completed during the coming autumn. He has been engaged on this great work 12 years. It is due him to say that he has not received a cent of pay, direct or indirect. Few States have so admirable a publication. New York, Pennsylvania, Massachusetts and one or two more perhaps excel it. The indexes referred to are being prepared by Dr. Stephen B. Weeks at Santa Fe, New Mexico.

Judge Clark's work has been simply wonderful. He was six years at work on the Regimental Histories. No other State has so splendidly told the story of the service of its sons in the Civil War. It required four years to compile the material for this great work and two years more to print it. During the printing no fewer than 12 of the officers who had prepared material for it died. Judge Clark wrote with his own hand no fewer than 4,000 letters regarding this work. He also paid the postage and the cost of compiling the index, amounting to \$300. It is for this reason that the work was done at so comparatively a low price. It could not now be duplicated. Some of the veterans have secured proofs of the several hundred pictures of soldiers in these volumes and at least one veteran has placed the set in a public library.

The work on the Woman's College is being carried forward as rapidly as possible. Messrs. Hook & Sawyer are preparing plans for the buildings, which will be models of beauty and convenience. The location of this college is one of the best to be found about the city of Durham and is in easy reach of the library and laboratories of Trinity College.

Prof. S. D. Cole left yesterday for Montgomery county, where Mrs. S. D. Cole and daughter went a few days ago to spend some time with relatives. Mrs. Cole was called there to see a little daughter who had the misfortune to fall out doors a few days ago and break both bones in her right arm. The protracted meeting still continues at Big Rockfish Presbyterian church under the charge of Revs. Messrs. Monroe and Black.

The remains of Mrs. J. M. Lee are being taken to the home of her daughter in Rockingham, N. C. Mr. and Mrs. J. M. Lee were married here a few months ago. They left this place some time ago and went to Rockingham and took a position in the mills there. Mrs. Lee was Miss Lona Roberts, of Robeson county, and was about 19 years old. She will be buried at Big Rockfish, of Charlotte, who has been here superintending the building of the graded school building, has been summoned home to see a sick member of his family.

Miss Lona Parker, of Parkton, spent some time with Miss M. L. McArthur. Whitmore, S. C., Aug. 21, 1904. Mr. Editor: Once more we welcome the bright sunshine after some twenty-six days of continuous rain. Every one welcomes "Old Sol" as they would their best friend. The farmers are pulling their fodder now before another rainy spell sets in. The cotton is looking fine and opening fast. If nothing prevents our girls will have to start up by last of this month. One farmer said that where he raised on a year of bales of cotton last year he will raise eight bales this. Every one seems well satisfied with crops.

Whitmore is gay with the prettiest girls of the State. The following young ladies from Newberry, S. C. are visiting their aunt, Misses Maud and Lois Fant, and Bessie and Pauline Gilder. Miss Sarah Spearman, of Newberry, is visiting Miss W. H. Razor, on Henderson avenue. Miss Amanda Hodges, of Batesburg, S. C. is visiting her cousins, the Misses Henderson, on the same place.

The first sermon of the season was delivered last Friday night at Razor Hall by Mr. Thad Coleman and Miss Hodges. Twelve couples attended. The machinery for the Whitmore handkerchief factory has come. Whitmore is progressing; new buildings are going up everywhere; good crops are being raised, and the writer wishes them success. No better roads can be found than those of Cumberland county anywhere. Mr. W. H. Razor is having a new tin roof put on his store. Mr. W. D. McNeill, general manager of the Aragon Mills, spent yesterday with Mr. J. S. Bay.

Five buildings were burned at Lynchburg, Va.; loss \$40,000. President Roosevelt has gone to Oyester Bay to remain one month. T. W. Wood & Sons' New Fall Catalog. Issued August 1st, is the most helpful and valuable publication of its kind issued in America. It tells all about both Farm and Garden SEEDS which can be planted to advantage and profit in the Fall. Mailed free to Farmers and Gardeners, upon request. Write for it. T. W. Wood & Sons, Seedsmen, RICHMOND, VIRGINIA.

TRINITY COLLEGE NOTES.

Durham, August 19. The forty sixth year of Trinity College will begin Wednesday, September 7. The correspondence in the office during the summer has been heavier than during any previous summer. The prospects for attendance during the coming year are exceedingly gratifying. Everything is being set in order for what promises to be the largest opening for the past several years. Dr. J. J. Wolfe will have charge of the department of Biology in place of Dr. J. I. Homaker, who resigned during the spring term. Dr. Wolfe is a native of South Carolina, studied in Chicago University, and took his Doctor's degree in June at Harvard University.

The Executive Committee have organized a Department of Law which will begin September 7th. Mr. Samuel F. Mordecai, of Raleigh, has been elected Senior Professor of Law, and Mr. R. P. Reads, of Durham, has been elected Associate Professor. The Executive Committee has not yet filed the other two chairs in the department, but will do so in a short while. It is regarded by the friends of the college as the most notable and significant movement the college has inaugurated within recent years. This will be the only law school within the State that is so located at a county seat, and students will have special advantages in the study of courts and acquaintance with the judges and leading lawyers of the State.

The work on the Woman's College is being carried forward as rapidly as possible. Messrs. Hook & Sawyer are preparing plans for the buildings, which will be models of beauty and convenience. The location of this college is one of the best to be found about the city of Durham and is in easy reach of the library and laboratories of Trinity College.

Prof. S. D. Cole left yesterday for Montgomery county, where Mrs. S. D. Cole and daughter went a few days ago to spend some time with relatives. Mrs. Cole was called there to see a little daughter who had the misfortune to fall out doors a few days ago and break both bones in her right arm. The protracted meeting still continues at Big Rockfish Presbyterian church under the charge of Revs. Messrs. Monroe and Black.

The remains of Mrs. J. M. Lee are being taken to the home of her daughter in Rockingham, N. C. Mr. and Mrs. J. M. Lee were married here a few months ago. They left this place some time ago and went to Rockingham and took a position in the mills there. Mrs. Lee was Miss Lona Roberts, of Robeson county, and was about 19 years old. She will be buried at Big Rockfish, of Charlotte, who has been here superintending the building of the graded school building, has been summoned home to see a sick member of his family.

Miss Lona Parker, of Parkton, spent some time with Miss M. L. McArthur. Whitmore, S. C., Aug. 21, 1904. Mr. Editor: Once more we welcome the bright sunshine after some twenty-six days of continuous rain. Every one welcomes "Old Sol" as they would their best friend. The farmers are pulling their fodder now before another rainy spell sets in. The cotton is looking fine and opening fast. If nothing prevents our girls will have to start up by last of this month. BEAVER DAM NEWS.

Beaver Dam, Aug. 17, 1904. After a few days of dry weather or rather we have had today another heavy rain which will do still further damage to cotton, already hurt very seriously by the recent heavy rains. Cotton is undoubtedly cut short one third by the wet season, while on the other hand corn is the best it has been for a number of years.

We are glad to note that Mrs. Daniel Hales is able to move about again after a very long attack of sickness. Rev. A. R. Stephens, of Antrimville, filed his regular appointment at Beaver Dam Church last Saturday and Sunday. Mr. and Mrs. D. E. Beard spent Sunday on Beaver Dam visiting their daughter, Mrs. S. G. Bullard. Mr. G. L. Odum and Miss Bettie, his daughter, spent Sunday in our section visiting with the Rev. Mr. Stephens.

Miss Lena Harris and brother, Mr. Harris also spent Sunday in our section. There will be a Sunday school convention at Sharon church Saturday before the first Sunday in September. Mr. Jacob Cooper of Salemburg, spent Sunday in far away Beaver Dam with his best girl. Mr. Leslie Fisher and Mrs. Abbie Fisher, of Aligator Creek, Fla., are visiting friends in our section this week.

We are sorry to learn that Mr. M. O. Ballard is sick at the Highsmith Sanitarium. We hope for his speedy recovery. As the county convention is approaching near we ought to begin to think who will represent us in the next legislature and who will collect our taxes, issue marriage licenses, keep the county's safe and treasure and be county commissioners. All these things are important to us as citizens of Cumberland county. There are a number of good men waiting to serve the dear people and will make good officers. So, let's make no mistake in the matter of selecting good men for the various offices. We hope the county convention will do so well as the national, state and congressional. These conventions did just the right thing, we think, in each case. No better tickets have been nominated in years for us to vote for. If the county convention will do as well we can throw up our hat very with perfect satisfaction.

Suppose we list the same old board of county commissioners to start with. Let us nominate each of them. JACK. Columbia and the "City of Fayetteville." Fayetteville people will be interested in the clipping below from the Columbia State, and if, as the Wilmington Dispatch thinks, the boat spoken of is the City of Fayetteville, some action should be taken to induce her owners to keep her here:

The navigation committee and the board of directors of the Chamber of Commerce will hold a joint meeting Monday afternoon at 7 o'clock for the purpose of organizing what will probably be known as the Congaree River Navigation Company, the purpose of which will be to encourage and promote river navigation between Columbia and Georgetown and operate and build inland river boats. The prime object of the company will be to put a boat on the river to take the place of the burned Highlander early in September, in order that the line may be in smooth working order in plenty of time for the fall and winter business. The boat has been picked out and everything is ready for the deal to be closed.

Associated with the company will be Mr. W. B. Cook and his associates of Fayetteville and Wilmington, who will provide the boat and operate the line. These are experienced boat men, who have been greatly encouraged by what their representatives have seen of Columbia and by the promise of business the local merchants have made them. Other members of the company will be prominent merchants of Columbia who are also members of the Chamber of Commerce. The new company will be capital \$250,000.

The capacity of the boat which has been selected to take the place of the Highlander is 125 tons, while the Highlander's capacity was only 100 tons. Practically all of the Columbia merchants have promised the proposed line all of the business it is practicable now for them to give, and the indications are that there will be business enough to maintain the line without subsidy from the start.

Speaking of the importance of re-establishing the boat line with as little delay as possible, Secretary Clark, of the Chamber of Commerce, said yesterday: "I know of at least five new and important wholesale concerns that would have been established here by this time had not the Highlander burned."

PURE BLOOD—SOUND HEALTH. Plain Reasons Why Hanson's Liquid Sulphur is so Effective. Many prevalent disorders show an acid condition of the blood. Hanson's LIQUID SULPHUR being used, corrects such ailments and is of special value in the cure of acne, itchy eruptions, pimples, prickly heat, eczema, cancer and sores in scalp, eyelids, nose, mouth and throat. No effective skin tonic is HANSON'S LIQUID SULPHUR. Hanson's greatest remedy that need in bathing, it gives vigor to the system and affords a sense of healthful tonic.

THE QUESTION OF PRIMARIES.

The Raleigh Post of yesterday says: Seventy-five barrels of corn whiskey going begging, not a soul offering to buy it. This is the distressing story Deputy J. P. E. Adams told yesterday, for he is the man seeking to dispose of the stuff for Uncle Sam. "Why don't you sell it to the dispensary," he was asked. "Because the liquor is too good," he replied. "I offered it to the dispensary and it was declined on that ground."

"Too good, did you say?" "Yes, the dispensary people said that if they sold this high grade corn whiskey then the customers would demand it when they came back and would not be satisfied with the cheap-grade stuff." "They did offer to take it if we would reduce it to 80 proof and sell it to them by the proof instead of the wine gallon, but of course we would not do that," the deputy added.

Last week one man in a near by prohibition town bought two barrels of liquor here which the government had seized. The officers of Uncle Sam make no inquires as to what the buyers will do with the stuff, no matter how strong the presumption of a blind tiger is. One man in a suburb of Raleigh bought a barrel of corn liquor last week and the authorities suspect that he did not get the supply for home consumption.

Five persons were killed at Minden, Mo., by the explosion of a car of dynamite. Florida has had the ballot primary, and there it has wrought disaster, enabling a man to secure the nomination for the high office of Governor, who, thoughtful people down there declare, is a truly unfitted for the position. I am free to confess that two months ago I was favorably disposed to the ballot primary, having only cursorily examined its features; but, knowing its impotence, I held my judgment in abeyance, and gave to the most intelligent study of which I am capable. The above unmistakable warnings from those who have passed through the experience, with other considerations, convince me that a ballot primary would be very unfortunate for the Democracy of Cumberland, and I sincerely hope that the proposition will be defeated in the county.

I think that I am honest and disinterested in these views. In no event could I be induced to become a candidate for any office, and I have no objection to serve other than the welfare and success of the Democratic party. J. H. MYROVER. Fayetteville, August 20.

The Confederate Reunion will take place here on Saturday, September 10th. No dinner will be served to the public, but the old veterans will be cared for by the ladies, and a basket dinner and concert featuring homes will meet the demands of the public. Mr. J. C. Adams returned Tuesday from Jackson Springs. His many friends wish for him a speedy recovery. Mr. John W. McLaughlin spent last week at Jackson Springs.

Dr. Clark and Mr. Clark, of Clarkton, visited at Dr. Graham's last week. Mr. Neil A. McDonald and A. P. Dickson, Jr., of Timberland, spent Sunday with relatives here. Rev. L. A. McLaurin spent several days with his father at McCall, S. C., last week. Mr. John K. Sinclair, of Georgia, is visiting his old home near here. Mr. Sinclair has been very successful in his adopted home, and has amassed quite a fortune.

Mrs. Huntsberger, of Miss. is visiting her uncle, Mr. M. D. Bethune. Ed. Cook and his associates of Fayetteville and Wilmington, who will provide the boat and operate the line. These are experienced boat men, who have been greatly encouraged by what their representatives have seen of Columbia and by the promise of business the local merchants have made them. Other members of the company will be prominent merchants of Columbia who are also members of the Chamber of Commerce. The new company will be capital \$250,000.

The capacity of the boat which has been selected to take the place of the Highlander is 125 tons, while the Highlander's capacity was only 100 tons. Practically all of the Columbia merchants have promised the proposed line all of the business it is practicable now for them to give, and the indications are that there will be business enough to maintain the line without subsidy from the start.

Speaking of the importance of re-establishing the boat line with as little delay as possible, Secretary Clark, of the Chamber of Commerce, said yesterday: "I know of at least five new and important wholesale concerns that would have been established here by this time had not the Highlander burned."
