

A BIG ENTERPRISE IN SIGHT. A Meeting of Northern Capitalists and Citizens Last Night.

There was a meeting in the parlors of the Hotel Lafayette Friday evening, the outcome of which will probably mean a great deal to Fayetteville, another mile post along the route, which is fast leading towards the goal of Fayetteville's ambition—to be the great manufacturing centre of the South.

The following northern capitalists and practical print goods men were present: Messrs. E. Davis, John Thorp, Adam Catterall, Fletcher Cook and Frank McKnight. Dr. H. W. Lilly presided over the meeting, and among the Fayetteville people present were W. D. McNeill, C. J. Cooper, J. O. Ellington, S. H. MacRae, Dr. G. B. Patterson, Drs. J. V. McGougan and J. A. McKethan, H. R. Horne, Herbert Lutterloh, F. H. Stedman, W. E. Kindley, W. F. Blount, Jno. C. Gorham, D. T. Oates, Jacob Schwab, Jas. D. McNeill and L. B. Hale.

The site for the mill was practically agreed on, and the name of the corporation will probably be the Victory Manufacturing Company. The northern capitalists present made a splendid impression on our people, and were most frank in the statement of their purpose in entering into the project.

In the wake of this factory will probably follow a great print works and other large enterprises. It is proposed to use electric power, which the Cape Fear Power Company promise to deliver in Fayetteville within the next sixty days.

Messrs. Davis, Cook, Thorp, Catterall and McKnight were driven over Fayetteville and suburbs this morning, and their comments were very flattering. The northern capitalists present made a splendid impression on our people, and were most frank in the statement of their purpose in entering into the project.

Orphan Children's Concert. The Oxford Orphan Asylum Singing Class will begin a concert tour of North Carolina Monday, May 7th, and, until near the first of July, will travel mostly in the eastern section of our State. The second, or western, tour will begin about the last of July and will continue until the middle of September.

The Class is composed of ten girls, four boys, the teacher and a gentleman in charge. Our people have learned to expect an entertainment of unusual attractiveness and excellence given by the bright, well-trained girls and boys of this noble institution. No cause appeals more strongly to us than the cause of the orphan child. A children's concert of real merit, in the interest of a most worthy cause naturally and rightly elicits our hearty sympathy and support.

Already the Singing Class has received from Masonic Lodges in North Carolina many most cordial invitations. It is quite probable that it will be practicable to include more than eighty of the towns and cities of our State in the itinerary, which is arranged for the Class several weeks before the beginning of the tours.

The active, hearty co-operation of all of our people is earnestly sought and, we believe, will continue to be secured. We express the sincere hope that the tours of the boys and girls this spring and summer will result in greatest success and blessing.

THE REUNION AT NEW ORLEANS. A Great Parade.

For two days the Confederate reunion had devoted itself to business. Yesterday was given over to the glorification of the cause that died long since, but still lives on.

Thursday's great parade in honor of the Confederacy was set in motion by a signal gun from the cruiser Columbia. The day was ideal in all respects for the event. An escort of mounted police came first and then Major General Albert Estopinal, the chief marshal of the parade, with a glittering staff in gray and gold. After this clattering group of horsemen came General Stephen D. Lee, the commander-in-chief of the United Confederate Veterans and the members of his staff. The ladies of the Confederate Southern Memorial Association and Daughters of the Confederacy, in carriages, were next. The old soldiers were next in line, the trans-Mississippi department, under command of General W. L. Cabell, having the right of the line, and followed by the Tennessee department under General Clement A. Evans and the army of Northern Virginia under General C. Irvine Walker.

A MARTIAL FIGURE. General Lee, mounted upon a superb gray horse, was an especial object of admiration, and merely as a picture he deserved all that he received. His great popularity, added to his handsome appearance, produced a continuous chorus of cheers as he rode along, hat in hand.

A NEW FAD FOR FAYETTEVILLE. Funeral Procession Photographed.

A funeral procession, consisting of a hearse, two carriages and a buggy, wound its way into Fayetteville shortly before noon to-day, coming from Hope Mills, and came to a halt in front of Paton's photograph gallery. In the first carriage were six mourners, in the second five, and the buggy contained three. There was much ado about the arrangement of the vehicles so as to have the best effect, and the picture was taken.

This novel business over, the procession took up its march again, going toward the river. The parties were all white, but they would not give the name of the deceased member.

This fad is a good companion to one recently inaugurated in New York, where a person sings at his own funeral by means of a phonograph.

How Japs Keep Strong. Observer Readers Can Learn Something of Value from This. Such a thing as a weakening is hardly known in Japan. The wonderful endurance of the Japanese soldiers and sailors in the recent war has been the marvel of all nations. Both men and women are well, happy and strong.

The reason for this, so careful investigators tell us, is that the Japanese from childhood up know how to keep well through care of the digestive system. If they have trouble with indigestion, heartburn, wind on the stomach, loss of appetite, sleeplessness, headaches, rheumatic pains, back-aches, or any of the other troubles caused by a weak stomach, they treat themselves with some of the principal remedies that compose McDiarmid's Stomach Remedy that has already a large sale in Fayetteville at Sedberry's Pharmacy.

So uniformly successful has the remedy been in curing all stomach troubles where it is used in accordance with simple directions given with each box, that Sedberry's Pharmacy give a signed guarantee with every 50 cent package to refund the money if McDiarmid's fails to benefit.

Living indoors so much during the winter months creates a sort of stuffy, want-of-ozone condition in the blood and system generally. Clean up and get ready for spring. Take a few Early Bitters. These famous little pills cleanse the liver, stomach and bowels and give the blood a chance to purify itself. They relieve headaches, sallow complexion, etc. Sold by Armfield & Greenwood.

BABY'S VOICE. Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe! Angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of childbirth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain. Sold at \$1.00 per bottle by druggists. Our book of prices free to all women sent free. An Improvement in Iron and Steel Roofing--- PROTECTED ROOFING. HAS it not been your experience in the use of Common Iron (or Steel) Roofing that any deterioration or so-called "rotting" was traceable to rusting from the underside? You have wondered how this could be corrected, and the heading of this probably leads you to ask "WHAT IS THE IMPROVEMENT?" THE HYDROMAN ROOFING COMPANY, pioneer manufacturers of metal roofings, have observed closely and have recognized the difficulties you have contended with in using Common Iron Roofings. In their efforts to overcome such objectionable features these makers have invented PROTECTED ROOFING--- which is the best iron roofing it is possible to make, with an AIR PROOF ROSIN SIZED PROTECTED COATING CEMENTED TO THE UNDERSIDE OF THE METAL. This protective coating is cemented to the finished painted sheets, THUS PREVENTING ANY CIRCULATION OF AIR REACHING THE UNDERSIDE OF THE METAL, and is therefore STRICTLY THE IMPROVEMENT CLAIMED. Its uniform application supplies an airtight protector, WHICH PROVIDES ABSOLUTE PROTECTION TO THE UNDERSIDE OF THE METAL AGAINST INJURY FROM CONDENSATION, FUMES AND GASES---consequently ASSURING MANY YEARS OF ADDITIONAL LIFE TO THE ROOFING OR SIDING. This protective coating prevents dripping during frosty weather, when frost is melting; it deadens sound, and being a non-conductor of heat and coal makes the building cool in summer and warmer in winter. We are selling agents for PROTECTED ROOFING, and will be glad to show you the actual goods in stock. Our special arrangement with the manufacturers enables us to offer these goods to you at prices lower than you will expect to buy an article of such MERIT and HIGH QUALITY.
