Time the impression deeper makes, As streams their channels deeper wear Twenty-htree years later, with an honest conviction and the army and navy at his back. Abe Lincoln issued emancipation proclamation free ing four millions slaves, but to-day, forty-four years after date, we have at least sixty millions of slaves two thirds of them white; and taxation without representation, is the order the day, and the end is not yet. W.II it be necessary to resort to violence? Will a file of soldiers, led by some Cromwell, drive the public planderer from his entrenchments? Behind predatory wealth these scoundals fear Wm. J. Bryan's doctrine, because it is sound; in fact, they can't endure it. The great apostle to the gentile; foretold it, and, for the same cause, they fear Teddy Roosevelt and Wm. R. Hearst. But these robbers devil like they fear and tremble, but they hate righteousness, and are casting about for a conservative devil to direct their forces. Their last hope seems to be Grover Cleveland. His record standing by and defending predatory wealth is without a parallel in the world's history. It is the duty of God-fearing men and women of our land to sound the alarm and bring their powers of right reason to bear upon those who are lending themselves to these cormorants, when laws are being enacted for the government of the people. Under the guise of legality, the toiling masses are being systematically shorn of their just proportions in the division of profits, realized from the toll and endure the pain incident to material progress, and laws so shaped work injustice and bring hardships on those least able to bear it At the head of these stands the tariff; we don't care what kind of a tariff o by what name it is known, protective otherwise, it is a tax, an unjus tax, because it robs many for the b n efit of a few, and no sane, hones reasoner would risk his reputation for truth in asserting to thecontrary. Now the advocates of such a tax may plead insanity. If so, or ignorance if they please, otherwise we hold them re sponsibe for dishonest intentions. Al other evils known as monopolies or trusts had their origin in the tarif system and have been grafted onto the parent stock, and are trying to keep concealed through organized channels or societies with which our country is cursed to-day Br."an and Roosevelt both openly es pouse the cause of publicity in all mat the Government's business It should be an open book to every cit izen of the United States, likewise in matters of State, independent or Fed eral supervision, and no secret society ought to be tolerated by either State or Federal Government, the object of which was to influence either church or state in matters of general govern ment. that which is loosed on earth will be loosed in heaven. We would like to go sight-seeing over about Richmond and Petersburg and take in the Jamestown Exposition etc., etc., but we can't go. It would cost us \$50 to make the trip, and we have not got that fifty. The Govern-ment sent us over there forty-five years ago, free transportation and rations thrown in. They thought they needed us there then, but they don't need us now. They would like to have our money now, but we have not got it, therefore they will not get it.
