THE CONVENTION CITIES OTHER THAN BALTIMORE AND CHICAGO.

Of the various Western cities St. Louis is nearest Chicago in the number of national political conventions it has entertained. The number is four. The Democrats met there in 1876, 1835 and 1904, and the Republicans in 1896. Cincinnati has had three national conventions, the Democratic in 1856 and 1880, and the Republican in 1876. Death of Miss Maggie Mallett.

From Monday's Daily.

It is with sadness that we announce the death of Miss Margaret Anderson Mallett, which occurred at 12:30 o'clock on Sunday morning at her late residence on Rowan street.

Her iliness was announced on Mon day last, and her many inquiring friends were told that it was pneumonin that her doctor and loved ones had to combat. The battle was short and painful, and the end came at the beginning of a new Lord's day, which, though beautiful and peaceful, brought sorrowful news to a host of anxious

Miss Mallett was the second daughter of Charles Beatty and Margaret Wright Mallett. She was born in Fayetteville on June 6th, 1850, in the Cape Fear Bank building. Her grandfather, John W. Wright, was cashier of this bank for 32 years.

She is survived by one brother, John W. Mallett, of Albany, Ga., and two sisters, Mrs. E. J. Hale and Miss Alice H. Mallett, both of Fayetteville.

Miss Maggie Mallett has been respected and revered by all in this community, and loved devotedly by a large number of friends, who knew her well and who knew the value of her selfsacrificing life-the trueness of her friendship and the genuiness of her on payment of costs. love. There are many who have preceeded her, whose lives were cheered and aided by her kindly ministrations. There are many who survive her who will sorely miss her cheerful and wholesome view of life-her practical advice and generous assistance. Hers was a life of giving, both of good words and good deeds. Some one has sald we can only hold in our cold dead hands that we have given away. Those who knew her best know her faith was based on the saving power of our Lord, and not on "our own works or deservings," and yet they know that good works "are pleasing and acceptable to God in Christ," and they rejoice for the good example she has set and believe she enters "the rest that remaineth for the people of God," bear ing full sheaves with her, of ripe, golden grain garnered in the harvesting for her Lord-the fruitage of a

This list of contents show that the pamphlet is one that is full of interesting matter, and that in it much of valuable hstory concerning the Scotch-Irish settlements. With a programme made from the material in this pamphlet "North Carolina Day" ed and falled; judgment nisi.sci. fa. in the schools will be one full of inspiration.

"North Carolina Day" in the public schools was provided for by an act of the legislature of 1901, and October 12th was the day set apart in this act unless the State Superintendent designates some other time. Superdict guilty; sentenced to 10 months on intendent Joyner has changed the date in lieu of international revenue to the last Friday before Christmas for Merida Melvin, carrying concealed this year, and every succeeding year, weapon, plead guilty and fined \$10 and as many of the schools are not in session in October.

Following the chronological order of the State's history, the subjects of the "North Carolina Day" programmes have been as follows: In 1901, The First Anglo-Saxon Settlement in America; in 1902, The Albemarle Section; in 1903. The Lower Cape Fear Section: in 1904, The Pamlico Section; in 1905 The Upper Cape Fear Section. Last year it was deemed proper to turn aside from the State's history to devote the day to the study of the life. character, and valuable services of the late Dr. Charles D. McIver. This year the "Scotch-Irish Settlements in North Carolina" was settled as the subject for "North Carolina Day."

If a reward was offered for the closest man in North Carolina, a man living in this vicinity, says a Lumberton correspondent, would be the winner. The writer was at the Seaboard passenger station one morning this week when the man referred to came in and called for a ticket. The Walter McNeill, larceny; guilty, and agent promptly complied with the request and as he put the ticket down to the would-be purchaser stated that the price was \$1.20. The man said he knew better, that he had figured had patience enough to figure out the fare and showed the man that it was \$1.19 3-4 cents. He actually refused izen of African ancestry, has had no to pay the \$1.20 and boarded the train end of earthly troubles on account of a saying he would go for \$1.19 or walk

OBITUARY. Early Monday morning, Nov. 11th. 1907, after a brief illness, little Edna

Gertrude, the only daughter of Mr. and Mrs. Charles Johnson, of Hope Mills, was relieved of her suffering by the touch of the Angel of Death. Born in Hope Mills, March 25th, 1903, she early showed her fondness for God's service and was a member of the Sunday school of the Episcopa church of that village. Sunday afternoon, before her death, she was received into the Kingdom of God by holy baptism. Tuesday afternoon, after the beautiful burial service was said in Christ church by the rector, in the presence of a number of sorrowing friends of the family, her mortal remains were laid to rest in the village cemetery, there to await "the general

life of the world to come."

Ten Per Cent. More Money. A telegram from New York says: Appropriement of a \$50,000,000 Pa nama bond issue and the offering of \$100,000,000 of 3 per cent. treasury certificates to the public caused a boom in the stock markets of London and New York this morning. The new treasury certificates have complicated the situation, and the most conservative bankers are in doubt as to the wisdom of what has been done. All agree that the situation will be helped materially for time being, but it is the aftermath that they are fearing.

By the President's action the circu lation of the United States has been increased about 10 per cent. in one day. Such a violent inflation is cer tain to cause wild speculation and extensive liquidation is therefore expressed on the rise which promises to fall. In London advances in Americans were about equal to those of New York.

On the curb market the mining shares were up 1, an average of per cent, of their par value. The new government 3 per cent. one-year certificates were traded on the curb between par and half and 101.

The premium on currency dropped to 11/2 per cent.

In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the Bowels. One physician said I would not live until Spring, and for four long years I existed on a little boiled milk, soda biscuits, doctors' prescriptions and Dyspepsia remedies that flooded the market. I could not digest anything I ate, and in the Spring 1902 I picked up one of your Almanacs as a poor emaciated Dyspepsia wrack will grasp at anything, and that Almanac happened to be my life saver.
