To the Editor: -Your correspondent answer to our question as to who he was for the Governor, he quickly replied that he was for "Will Kitchin" and believed that he would get the nomination, Continuing, Mr. Holt

Now, I have known Mr. Kitchin for yearsall the years of his political life. I know what he has stood for and advocated, and I know the personality of the man. In all things his life is He is a fearless and able and open adhe stands for as dangerous, mad or opposed to progress. Then one thing must inspire respect and confidence in all is the fact that at all times we know where to find him. A more earnest advocate or a more open adversary never existed. I know and admire the man for this. I am thoroughly convinced that not for the office of Governor or any other office,

"In my opinion the best interests of the State and certainly the best interests demand his nomination for Governor."

These words of Mr. Holt will have great weight, as he is one of the leading business men of the State, and no man is better qualified to judge of what effect Mr. Kitchin's election as Governor would have on business progress, as Mr. Holt is one of the most prominent and successful manufacturers and business men of the State. DEMONSTRATION FARM WORK.

The following extracts from a letter of Hon. H. L. Godwin to Mr. C. R. Assuring you of my best wishes, I

H. L. GODWIN. Mr. Hudson was here this week and after travelling over the county a day or two, expressed great surprise at the poor methods pursued on many of the farms he visited. Another thing, he said, the young corn and cotton were not receiving the early and proper kind of cultivation which are so necessary to the best success in here, located on the Corner of Don- farming. This is another important enterprise for this section; and one move in the industrial world always calls for another, so we may look for other enterprises in the near future.
