In another column is an advertise- ment of the Tarrymoore hotel, at Wrightsville Beach, N. C. The writer has recently visited there and was a guest at the Tarrymoore. The hotel was kept cleanly and the table fare good. Mr. W. J. Moore, the genial proprietor, gives his undivided atten- tion to its care and the comfort of the guests, assisted by a staff of clever and obliging clerks. Mr. Moore is re- ceiving liberal patronage and it is well deserved. Picnic at Ardiussa. There is a large crowd of young peo- ple from Raeford having a picnic at McNeill's bridge to-day. This is an ideal place for a picnic and these Rae- ford folk went there this morning with everything necessary to make the oc casion an enjoyable one. The fine wa- ter, shady groves and beautiful scen- ery with the charming drives need only the young people buoyant with life as they mingle together to give one an in-	of them all. The sheriff, accompanied by depu- ties J. C. Culbreth and Fred Williams, left town early this morning and at 10 o'clock they came upon their quar- ry. In Carver's Creek township, eight miles from Fayetteville, and within shouting distance of Cedar Falls Bap- tist church, they found a still in full operation. It was situated on a little knol in the centre of a swamp through which ran a clear small stream. As the officers approached the moonshine outfit, a white man looked up from his occupation of firing the furnace, saw them and took to the woods. He paid no attention to the shouts of halt and made good his escape. The still was a small ten gallon afy fair of home manufacture. The ket- tle was made of a ten gallon tin lard can, the cap of a small tin can, and the "worm" of twenty feet of iron gas pipe, which was run through two bar- rels of water. In a barrel nearby was found the mash, an analysis of which would certainly stump the best of chemists, but which contained some molasses and some sour cider. The still was in full blast and as the charge in the kettle had not been run off, the officers kept the fire going until the half gallon of spirits they	Fire Department	of Commerce have been interested to induce the owners of the plant at Buckhorn Falls to transmit electrical- ly to Raleigh power generated there, and only recently they have succeed- ed.
