"LOOK NOT THROUGH A GLASS DARKLY .. '

The people of North Carolina as a rule are honest by nature, practice and habits, and look with suspicion on those leaders of the Third party who took part and aided in the nomination of Elias Carr, a farmer for Governor, at Raleigh, May 18th, later on participating in another State convention that nominated a lawyer, or doctor, for the same place. A little strange isn't it? Now, for sometime the hue and cry has been to nominate a farmer for Governor, and the Democratic party, responsive to every mandate of the people and always ready and willing to subsevre their interests, heard their voice and conformed to their petitions. Was it wrong? if not then the Third party is wrong, for it did not nominate a farmer for scarcely anything. Why! there is no doubt to them a good reason, viz: Because these self-constituted leaders knew that they could not "jayhawk" the horny-handed sons of toil in North Carolina around by the nose into "ways that are dark and tricks that are vain." Acting in their sovereign capacity they would have exercised their rights as freemen, scorned and repudiated such chicanery and unscruously acts as the leaders had plotted to carry out. Are the farmers of North Carolina, then, ready to follow such phantoms as this new issue and come at the "beck and eall" of those who were afraid or unwilling to trust them or one of their number, as illustrated by their failure to place matters, gentlemen, in our calmer moments and not "through a glass darkly."

THE THIRD CONGRESSIONAL DISTRICT.

Congressman Grady and Elector Shaw began their canvass of the district in earnest at Newkirk's bridge last Tuesday and were greeted with a good crowd. These fire-tried democrats have made several speeches in the campaign already, with telling effect. Mr. Grady is a well furnished man, thoroughly posted on financial, economical and political problems and those who hear him cannot fail to be enlightened, as well as convinced of the righteousness of the cause he so ably espouses and the ultimate relief to the people by and through democratic success at the polls in November, with the consequent enactment of laws to which the party stands pledged to-day by its

Correct, brother Jernigan, Mr. Grady is an unpretentious and scholarly gentleman and a friend of the people, as his course in congress has demonstrated to the satisfaction of his large constituency, who are determined that he shall be re-elected in November; while Mr. Shaw is a man of the people, zealous and bold in defence of their rights and a fearless and strong advocate of Mr. Cleveland and democracy.

D. M. Hardy who Nominated Dr. Exum Tells the Doctor Why He Can't Support Him.

My Dear Sir: After looking carefully over the field, I find every argument against the Democratic party false. I looked carefully through the "political tickler" and I find that the Republican party is responsible for all the bad laws, and only occasionally has a Democratvoted for any of the bad laws. The Republican party passed all the bad acts of financial legislation which we have had since 1890, namely those acts explained in the "seven financial conspiracies" so truthfully by Mrs. Emery, and when these measures went through Congress every branch was Republican. One of the leading facts our reformers now advocate is that this legislation has been more harmful than even the iniquitous protective tariff law of which the Republican party is also the author and advocate. When Mrs. Emery's eloquence shook the faith of the western Republicans in their party, I am of the opinion that the enjoinment should go to the Democratic

party which has so earnestly opposed these conditions that now crush the laborer and farmer If the reformers now divide on the verge of of victory, is it not suicide-and especially so when they are to look to the Republican party elsewhere to fill any part of her memorandum for assistance, and that party the acknowledged | for anything in the author of all the evils of which we complain? destiny of our State under the existing political condition of affairs. The Republicans are now taking a census of the voters to find out our strength in the following way: First; To know how many People's party men we have that have been Democrats. Second: How many will return to the Democratic fold in case they give us a three cornered fight. Now if they are assured of a victory to fight their own battle, they rejoice at our division and will take advantage of the same. But as the last resort they will support our peoples party ticket and a victory with their support will be a blank victory for reform and only leave us at their mercy in 1896. Hence the very same lion that pulls our load in 1892 will turn on us and devour us in 1895. And I see that victory for kindness to call on me. us now is a victory for the Republican party in 1896, with the strong probablility of their coming in the field in the 11th hour this year even and carrying the State by reason of the People's party.
