A Pleasant Trip

Cashier C. S. Fullbright of the Citizens National Bank, left here with his family on the 17th of October, for a visit to relatives and friends. He first went to Winder, Ga., where his brother, Thad. C. Fullbright, is located. From there he went to Atlanta, and took in the Southeastern Fair; then to Cornell, Ga., to visit a sister; then to Ivy Log, Ga., where his mother resides; from there he came home, stopping at Sylva, N. C., to visit relatives and friends, arriving here on Tuesday night the 31st. He made the trip in his automobile, and reports an enjoyable time. His many friends are glad to see him back again.

We are spending about \$35,000 the year for the support of public free schools in Henderson county. It is the duty of the authorities to see that our money is properly expended, and the head of every family should see that the children get value for every penny of that money.

Dr. Guy E. Dixon, we are sorry to learn, has been confined to his home for several days by sickness. He is suffering from blood-poison. His many friends hope to see him out again soon.

Local contractors state that there is a great deal of building going on in the county, indicating that times are prosperous. While there are no skyscrapers in course of construction, there is a good substantial growth in the number of residences being built over the country.

Women kiss when they meet, men shake hands, and animals rub noses. But what will the devil and Villa do when they meet?

Boy Hurt

On last Thursday, Elbert, a little son of James Jones who resides on the road between this place and Flat Rock, was at the latter place when an automobile came along, the occupants of which permitted him to ride on the running-board of the machine toward his home, at the same time cautioning him to hold on to the machine until they reached the house, when they would stop and let him off. But the boy did not wait, and in attempting to step off was thrown into the drain by the roadside and rendered unconscious. A physician was hurriedly summoned and found that the young fellow was badly shaken up, but when last heard from it was thought that he would fully recover.
