LIBERTY FIRE

Everybody is invited to attend a "Liberty Fire" this evening (Tuesday) on Main street, this city.

Do any of our readers know anything about the history of a belled buzzard that has been seen and the bell heard to tinkle, on three different occasions, by a farmer who resides about four miles West of the city? The little brass bell, and even the small chain around the neck, are plainly visible when the buzzard is sailing near the earth.

Another car load of cabinets and fixtures, made especially for the Patterson department store, is expected to arrive this week from Grand Rapids, Mich. The manufacturers will send a special representative here to install them about the 30th of this month. The store will be beautifully and conveniently arranged throughout. Mr. Patterson hopes to move into it about Nov. 15.

Asheville played a strong game in the last period and at one time threatened to score but was held for downs on the fifteen yard line. Allen and Carson were the most consistent ground gainers for the winners, while Brown at quarter displayed great generalship in calling plays. The Blue Ridge boys played well and gave evidence of careful coaching.

THE GOVERNOR'S URGENT APPEAL

State of North Carolina
Governor's Office,
Raleigh, N. C., Oct. 19, 1917.
Sheriff M. Allard Case,
Hendersonville, N. C.

My dear Sheriff:

The amount of Liberty Bonds apportioned for your county is \$140,840.00. The plan of campaign contemplates the sale of one-third of this amount in fifty and one hundred dollar bonds. This is the particular part of the work that you are asked to perform.

I want to again thank you for your unselfish and patriotic interest in this matter. The response made by the sheriffs has stirred the whole State. Everybody is talking about how magnificently you all rose to the emergency of the hour. I want to again express to you my personal gratitude and the gratitude of the State of North Carolina. Do not waver in well doing, and you will write the name of North Carolina high in the esteem of the whole nation.

Sincerely yours,
T. W. BICKETT, Governor.

To The People of Henderson County

Good citizens of Henderson county your patriotic duty is calling. The second Liberty Loan Bonds must be raised. \$140,840.00 is our proportional part, and if dollars will save the blood of the young manhood of our county and country and as well make life comfortable for the 130 young men who are now at Fort Caswell and Camp Jackson in training to cross the briny deep to make safe the world for democracy. We must admit that our allotment is cheap in comparison with the life of the one hundred and thirty of our boys.

I know the good people of Henderson county will respond cheerfully in this hour of our country's great need, but only seven days remain for us to show to the kaiser and his followers that we are a united nation to establish a world's peace. I am,

Sincerely yours,
M. ALLARD CASE,
Sheriff of Henderson County.

SERIOUS ACCIDENT

Last Tuesday morning Mr. W. H. Plank who lives about three miles north of town, met with a very painful accident. He and Mr. H. C. Curtiss were hauling up hay when Mr. Plank's foot slipped through the hay rack and he fell in such a position as to badly break his ankle. The presence of Mr. Curtiss, who promptly released him probably saved his life.

Let's co-operate in the interest of ourselves and Hendersonville.

WEEK'S NEWS BRIEFLY TOLD

The submarines have at last succeeded in making a hit on a American transport taking a total of 70 lives.

From news dispatches it appears that all is not smooth between Germany and Austria.

New generations will have to replace the present population of Germany before the world will care to have much to do with that country.

The drafted men in New England should be sent to Southern Florida. There can be but little drilling in the bitter weather of a New England winter.

Another zeplin raid on England nets the murders the lives of a few more women and children. The raiders, however, met their deserved fate before reaching home all three of the machines having been destroyed in France on their return from England.

While the German fleet is after the Russians in the Baltic would be a good time for the British and American fleets to take a cruise also in the Baltic. Without aid from some source the Russian fleet will perhaps be totally destroyed. Her vessels are not equal to those of the German fleet, nor has she a sufficient number of ships even if her guns were of equal size.

When the war is over it is to be hoped the United States will have placed herself in a position not to need dyes, medicines, phosphate or anything else made or found in Germany. Ours is a big enough, rich enough and intelligent enough country to be self sustaining and our experience in this war should show us the wisdom of making every effort not to be dependent for anything on any foreign country.

And they say that the German's are most all Christians.

Patriotic Speaking

Hon. Thomas Settles and Judge Thomas A. Jones of Asheville will address the citizens of Henderson county, at the Oprea House Wednesday, October 24 at 8:30 p. m. The subject will be "How to help your husband, son, brother and friend in the training camps and at the front". Let every one come out and hear these men. The ladies are also invited.

We had a most interesting letter from Joe Hollingsworth, which arrived too late for publication last week. He says to see all those boys drilling and the big guns certainly looks like war. Mr. Hollingsworth saw a pile of hay there for the camp horses which was one acre square and the bales were piled fifty feet high.
