**Are Better Shoes**

**M. M. SHEPHERD**

**WHY BUILDING AND LOAN SHOULD INTEREST YOU**

It is good for the man of means or the man on small salary because it pays good interest and is the best means of saving a stipulated amount each week, the weekly payments being 25 cents on each \$100 share of stock subscribed for.

A stockholder can borrow money, build a home and pay for it weekly instead of paying the money to some landlord.

We have during our history of ten years helped to build about 150 homes.

During this period five series of stock have matured and we have paid out in cash or cancelled mortgages about \$81,000.

We have about 2,200 shares now in force, subscribed for by people in all walks of life, even some of our wealthiest people.

If it is worth while to others, why wouldn't it be worth while to you?

Come in and talk it over with us.

**The 16th Series opens Saturday, March 8th**
