HENDERSONVILLE, N. C., THURSDAY, AUGUST 9, 1906.

VOL. XV, NO. 84

## MR. A. CANNON RETURNS.

### Was Called to Raleigh on Important Business Connected With Board of Agriculture.

Hon. A. Cannon, of Horse Shoe, who is a member of the executive committee of the North Carolina Board of Agriculture, returned from Raleigh last Saturday. The object of his visit is fully told in the following from the Raleigh Evening Times:

"A complete sewerage system is to be installed at the A. and M. College, the work to begin at the earliest possible moment so that the system can be ready for service as soon after the opening of the college as possible. The sum of \$7,500 now in the state treasury has been set aside for this purpose.

An order to this effect was made this morning during a conference in which Governor Glenn, the members of the council of state, the executive committee of the board of college trustees and a special sewerage committee of the college participated. The state treasurer is to arrange for advancing the money required and Governor Glenn will call on the next General Assembly to make a special appropriation to meet the obligation."

The following is the resolution adopted during the conference:

"Resolved by the Executive Committee of the North Carolina Agricultural and Mechanical College, and the Council of State in joint meeting that an amount not exceeding the sum of seven thousand five hundred (\$7,500) dollars, out of the general fund appropriated for the support and maintenance of said college, be used for the construction of an adequate sewerage system for the college.

"It is further resolved, that the college authorities be requested to immediately contract for the work, and push the same to as speedy a completion as possible, to the end that said system be ready for use at the commencement of the next college term."

### Executive Committee Acts.

After the conference in the governor's office for the adoption of the above resolution there was a meeting of the executive committee of the college trustees in the office of Commissioner of Agriculture S. L. Patterson.

At this meeting a special committee consisting of Commissioner Patterson, Prof. W. L. Hill and Prof. Riddick of the college was appointed to have directly under their supervision the work of constructing the sewer system. This committee will also receive propositions from private parties in the vicinity to connect with the college sewer. It is expected that a number of private subscribers can be secured in this way and thereby materially reduce the cost of the system to the state.

The executive committee of the college issues the following statement to the public, it being signed by S. L. Patterson, commissioner, R. W. Scott, A. Cannon and J. S. Stokes: "The trustees desire to assure the people of the state that everything possible to make the sanitary conditions at the college perfect will be done at once. Neither expense nor trouble will be spared in taking every precaution for the health of the students. It is believed that the completion of the sewer system, which has long been needed, will put the institution in a thoroughly good sanitary condition.

"In view of some reports as to cases of fever supposed to be contracted during the session of the Summer School at the college, the board wishes to say that it has no desire to conceal any facts from the public. Several persons out of the eight hundred who attended the Summer School have since been sick with typhoid fever. But in view of the fact that so few cases out of the large number in attendance occurred and that the general health of the college community has been as good as usual, the board feels that it is not probable that the fever was contracted there. This belief is emphasized by the fact that typhoid fever has been unusually prevalent in many parts of the state during this summer, and that it is practically impossible for a large number of people to be assembled without some fever-infected person being in the number. Two of those who have since been sick were unwell when they reached the Summer School.

"An inspection of the college seems to show that there is nothing unsanitary there, unless it is the absence of a modern sewer system and this, as already stated, will be provided at once."

A world of truth in a few words: "Nearly all other cough cures are constipating, especially those containing opiates. Kennedy's Laxative Honey and Tar moves the bowels. Contains no opiates." You can get it at F. V. Hunter's.

## GOVERNOR GLENN HAS A WORD.

### Denies Mistreatment by Tammany Hall Party at Coney Island.

Governor Glenn this afternoon asserted that reports of his treatment by the Tammany Hall party at Coney Island, July 4, 1905, was not true, as published by a New York paper.

He was approached by parties there relative to pardoning Convict Hawley, the New York gold brick man, and on refusing to consider the application, was so rudely treated he left the banquet room, being followed by the Lieutenant Governor of Louisiana and his party of New York friends.

No pistols were displayed and no violence was used, but there were some threats. The reception accorded the governor was planned by Mrs. Hawley, the convict's wife, who hoped thereby to win consideration, but those pressing her claims, while under the influence of whiskey, became rude, thus injuring her cause.

Governor Glenn was first disposed to be indignant, but does not think now that Tammany Hall had anything to do with the design. He regrets that the matter got into the papers, he having declined many times to be interviewed, and will not now give details.—Raleigh Cor. Charlotte Observer.

The contest for the speakership of the House of Representatives of the next legislature promises to be very interesting. It is an open secret that Messrs. Walter Murphy, of Rowan; Ed. J. Justice, of Guilford, and W. C. Dowd, of Mecklenburg, will be candidates. Mr. Murphy and Mr. Justice are at work. Mr. Murphy is a young lawyer who has served several terms in the legislature. He revels in affairs political, and belongs to the better class of wire-pullers. He has served his country well as a legislator. Being well informed, a good mixer and a ready debater, he has won considerable reputation at Raleigh. He is a clever parliamentarian. As a rough-and-tumble debater he is quick-witted and resourceful.

Mr. E. J. Justice is one of the leading young lawyers of the state. He has won an good reputation as a successful advocate. His supporters declare that he is a fit man for the place. He has a clear, ringing voice and self-control.

Mr. Dowd represented Mecklenburg in the state senate. He is a graduate of Wake Forest College. It is generally believed among his Mecklenburg friends that he will enter the race for the speakership. No one is yet actively engaged in proclaiming his interests, for the primaries have not been held yet.

A lively fight is anticipated when all of the candidates are out. Several gentlemen, who would run, will not yet admit that they are candidates.—Charlotte Observer.

## Farmers Institute.

A Farmers Institute will be held in Hendersonville Wednesday, Aug. 15. The object of a Farmers Institute is to bring together the farmers in order that they may discuss the subjects relating to their business, such as the best methods of using fertilizers on various crops, the preparation and cultivation of the soil, stock-raising and stock-feeding, diseases of stock, grain and grain-growing; trucking, fruit growing, improvement of worn soils, &c.

The speakers will be, F. L. Stevens and F. C. Reimer, N. C. College of Agriculture; R. W. Scott, Sr., of Alamance county, and A. L. French of Rockingham county.

All farmers and those interested in farming are invited and urged to come and ask questions and join in the discussions.

Morning session will open at 10 o'clock sharp, and afternoon session at 1:30.

There is nothing so pleasant as that bright, cheerful, at-peace-with-the-world feeling when you sit down to your breakfast. There is nothing so conducive to good work and good results. The healthy man with a healthy mind and body is a better fellow, a better workman, a better citizen than the man or woman who is handicapped by some disability, however slight. A slight disorder of the stomach will debase your body, your thoughts and your disposition. Get away from the morbidness and the blues. Keep your stomach in tune and both your brains and body will respond. Little indiscretions of overeating can be easily corrected and you will be surprised to see how much better man you are. Try a little Kodol For Dyspepsia after your meals. Sold by F. V. Hunter.

Don't drag along with a dull, bilious, heavy feel. You need a pill. Use DeWitt's Little Early Risers, the famous little pills. Do not sicken or gripe, but results are sure. Sold by F. V. Hunter.

## A BIG MINING CAMP.

### Judge H. G. Ewart Tells of His Observation in the Western Country.

To a Gazette-News reporter, Judge Ewart, who has just returned from the west, said:

"Southern Nevada is destined to become the greatest mining camp of the world. I spent three weeks at Goldfield, Tonopah, Rhyolite, Bull-Frog, and other great mining camps. I went there prepared to discount the wonderful stories I had read of this section, but do not now hesitate to say that there has been no exaggeration. Two years ago Goldfield was a desert; the abode of the coyote, and venomous 'side-wheelers;' today it is a modern, up-to-date city of 10,000 population.

Bull Frog, or Rhyolite as it is now called, is the greatest of all the mining camps. It sprang into existence two years ago, and now has a population of nearly 5,000. In two more years it will have a population of 20,000 and will be known as the metropolis of southern Nevada. Three different lines of railway are being built into Rhyolite as fast as men and money can do it. This will greatly reduce the cost of living, now exceedingly high, and will place the city in 12 hours of Los Angeles, Cal., making it possible for its residents to have upon their tables fresh figs and strawberries, and the choicest sea-food every day in the year. Rhyolite is located in a horseshoe, and for miles around it are found many of the greatest producing gold mines in the world. Here is found the 'Montgomery Shoshone,' which sold three years ago as a prospect for \$300, and less than four months ago was bought by Charles M. Schwab, the Pittsburg steel magnate, and his associates for four million dollars. Mining experts declare that it will rival the famous Virginia Comstock lode, which has produced over six hundred million of the precious metal. Its stock has advanced from 15c to \$18 per share. In close proximity are scores of other great mines, all in active operation. All night long the blasting goes on, sounding as if a great artillery duel was in progress. I met many mining engineers and miners from Alaska, South Africa and other great gold camps, and all, without exception, declare the Bull Frog, or Rhyolite, camp to be the greatest in the world. The camp is called 'Bull Frog' because of the mottled appearance of the surface rock found in this locality. It was first discovered by 'Sholty Hains,' a prospector who sold his half interest in his claim for \$18,000, blowing in \$12,000 in three nights in the gambling saloons and dance halls which abound in all these mining camps.

The state licenses gambling establishments. These with the saloons, dance halls and vaudeville theaters, never close, day or night, and at three or four o'clock in the early morning you will find them crowded to the limit. But it is a jolly, good-natured crowd, and of all the hundreds that I saw I never noticed once an intoxicated man, a gun or a policeman. Goldfield has only had one homicide in 18 months.

None of the mining towns are incorporated, their affairs being controlled by the board of county commissioners. For 200 miles rich strikes are being made every day, and it is a conservative estimate to make when it is said that southern Nevada will, in the next two years, add eight hundred millions to the world's supply of gold!

I crossed the Amargoson desert, from whose barren and arid wastes can be seen with the naked eye, 30 miles away, the snow-capped peaks of the Charleston range, 14,000 feet above sea level. I was also in the Funeral range, where is located the 'Bull-Frog Comstock mine,' declared by experts to be exactly the same formation as the famous 'Montgomery-Shoshone' only eight miles away, and where surface specimens show high values in both gold and silver. This valuable property is owned by Kansas City capitalists, and a limited amount of its stock is to be put upon the market.

Directly south of the Funeral range, stretch for 125 miles the terrible Death Valley, 440 feet below sea level, and where lie the bleached bones of scores of adventurous prospectors who have perished from the awful 'desert thirst' in their search for the yellow metal.

On my trip I visited Frisco and Los Angeles. To my mind Frisco is a doomed city. The earthquake must have been terrific. In many parts of the city there are great depressions, and on one street a six story frame hotel sank into the ground, barely leaving two stories above the street. Forty-two thousand homeless people are still living in tents in the public parks and must live there during the winter months.

The city is still under military control. Slight seismic disturbances still occur, Los Angeles, already a magnificent city, has greatly benefited by Frisco's misfortune, over 100,000 of its population having gone to Los Angeles. I had the pleasure of meeting in this city Gen. Johnston Jones, formerly of Asheville, and who is now a leading member of the Los Angeles bar.

From this city I ran down to Catalina Islands, and with Dr. S. M. Major of Kansas City, Mo., broke the record for this season, catching in four hours 178 pounds of 'yellow tails,' or sea-salmon, and barracudas. It was great sport. I shall return to Kansas City about the fifteenth of August. The Great Western Oil company with which I was connected has proven a phenomenal success. Its stock has advanced from 10 cents to 50 cents and will undoubtedly reach par by January first and will pay \$100,000 in dividends to its lucky stockholders.

In this state it is not necessary to serve a five days' notice for eviction of a cold. Use the original laxative cough syrup, Kennedy's Laxative Honey and Tar. No opiates. Sold by F. V. Hunter.

## SAD AND TRAGIC DEATH.

### Young Lady Formerly of Asheville Meets Death in Washington While out Horse-back Riding.

News has been received here of the tragic death of Miss Jennie Lovie Goodlake in the mouth of Silver Creek canyon, one mile from Keller, in the state of Washington. Miss Goodlake met her death on the afternoon of Sunday, July 8, shortly after 5 o'clock. The announcement of the death of Miss Goodlake will come as a shock to many people in Asheville and Biltmore who knew the young woman. Miss Goodlake was born in Huntsville, Washington Territory, on March 12, 1884. Subsequently the young woman removed to Biltmore with her parents where she resided for several years and attended the Vanderbilt school in Biltmore village. She was a popular young girl and made many warm friends while residing in this section. She later removed to Washington and was living at Wilbur, Washington, when she met her death in a most tragic and peculiar manner. The following account of the accident that caused her death has been received here:

"Miss Goodlake and Miss Garwood started for a horseback ride about 5 p.m. Sunday evening for the purpose of meeting a fishing party up the river. There are two means of egress from Keller up the San Poil river north, one that is known as the upper road, that is, on the east side of the river at the upper end of Keller avenue at the north end of town. In order to avoid fording the river the ladies took the upper road. About fifty feet this side of a small bridge over Silver Creek there is a very bad piece of road caused by seepage from a spring. It is usually very dry. When they reached this mudhole Miss Garwood went through first urging her horse with a quirt. Miss Goodlake started to follow and when about half way through complained of her horse being stuck in the mud and appealed to Miss Garwood for assistance. Miss Garwood turned her horse and started to her assistance. At this juncture the little horse began to struggle and got his feet crossed in the mud, lost his balance and keeled over the bank pinning the unfortunate girl beneath him and between two logs. She pitifully appealed for assistance and Miss Garwood sprang from her horse and raised the animal off her but was unable to extricate her from beneath the horse. She died in a few moments. The force of the fall broke her back just below the neck. With the kindly assistance of Mr. Ragsdale and Joseph Montgomery the body was removed from beneath the horse and taken into town where those who knew and loved her well performed the many kind offices necessary."—Gazette-News.

## No Dimes Being Coined.

The following item from The Detroit Free Press, of Detroit, Mich., has the following interesting story about an old friend of the people:

"No dimes are now being coined, because the Philadelphia mint is closed for repairs. This is the only mint which coins dimes. Comparatively few dimes are being presented for redemption at the sub-treasury, because a coin rolling company has been redeeming them from railroads and retail merchants.

"Hence the treasury is unable to meet the demands for dimes made upon it, and the coin rolling company has practically established a corner in them at what amounts to a premium.

"Next month, however, the Philadelphia mint will be reopened and an extra force will be put to work coining dimes about August 1st, and will be kept at it until the country has an adequate supply."

The city is still under military control. Slight seismic disturbances still occur, Los Angeles, already a magnificent city, has greatly benefited by Frisco's misfortune, over 100,000 of its population having gone to Los Angeles. I had the pleasure of meeting in this city Gen. Johnston Jones, formerly of Asheville, and who is now a leading member of the Los Angeles bar.

From this city I ran down to Catalina Islands, and with Dr. S. M. Major of Kansas City, Mo., broke the record for this season, catching in four hours 178 pounds of 'yellow tails,' or sea-salmon, and barracudas. It was great sport. I shall return to Kansas City about the fifteenth of August. The Great Western Oil company with which I was connected has proven a phenomenal success. Its stock has advanced from 10 cents to 50 cents and will undoubtedly reach par by January first and will pay \$100,000 in dividends to its lucky stockholders.

In this state it is not necessary to serve a five days' notice for eviction of a cold. Use the original laxative cough syrup, Kennedy's Laxative Honey and Tar. No opiates. Sold by F. V. Hunter.

## FATHER OF PASTOR LOVE.

### Was a Highly Esteemed Citizen of Raleigh and Successful Business Man.

The Raleigh newspapers speak kindly of Mr. E. H. Love, whose death suddenly occurred last week. Deceased was the father of Pastor A. R. Love, of the Hendersonville Baptist church, who was advised by wire and left immediately to witness the last sad rites:

Mr. E. H. Love, after a long illness of four years died yesterday morning at 3:40 o'clock. He was in his sixty-second year, and was one of the oldest members of the Central Methodist church, in which he held the office of steward. He leaves a wife, Mrs. Martha Love, who was Miss Martha Jones, and four children, these being Mrs. Victor Darnell, of Washington, D. C.; Mrs. J. M. Edwards, of Raleigh; Miss Alice Love, of Hendersonville. All his children were at his bedside at his death except his son.

The funeral service will be held this afternoon from the residence, 511 Oakwood avenue, and will be conducted by Rev. Mr. Robertson, pastor of Central Methodist church, assisted by Rev. J. C. Massee, pastor of the Baptist Tabernacles. The interment will be in Oakwood cemetery.—News and Observer July 31.

### The Funeral.

Mr. E. H. Love, who passed from life unto death Monday, was laid to rest Tuesday afternoon at 5 o'clock, the funeral services being from the residence, 511 Oakwood Ave., conducted by Rev. W. C. Robinson of the Central Methodist church, assisted by Rev. J. C. Massee.

Mrs. Horace Dowell sang sweetly at the grave the Christians Good-night.

The pall bearers were, honorary: Mr. W. N. Snellings and Mr. E. B. Thomas. Active: Messrs. N. B. Broughton, J. H. Smith, A. E. Glenn, D. A. Pearce, W. P. Rose and Chas. A. Goodwin.

A good man has gone from us, and even though he will be missed, his gentle, sweet Christian life will live on. As a father and husband he was thoughtful, never tiring in his efforts to make life ideal. He was successful as a business man. His life was appreciated most by those who knew him best.

"Blessed are the pure in heart, for they shall see God."—Raleigh Evening Times.

The funeral services of Mr. E. H. Love, who died on Monday morning, were conducted from his residence at No. 511 Oakwood Ave., yesterday afternoon, Rev. C. W. Robinson officiating, assisted by Rev. J. C. Massey. The following acted as pall bearers: Honorary: Mr. E. B. Thomas and Mr. W. N. Snellings. Active: Messrs. W. P. Rose, A. E. Glenn, Chas. A. Goodwin, J. H. Smith, D. A. Pearce and J. B. Broughton. Mrs. Horace Dowell sang sweetly at the grave "The Christian's Good-night."

The large number of friends present evidenced the high esteem in which he was held. Mr. Love was a man whose influence was felt by all who came in contact with him, the simplicity and Christ-likeness of his character being appreciated most by those who knew him best. He was a faithful and devoted husband and a loving father who will be sadly missed but whose influence will live forever.—News and Observer Aug. 1.

The many Hendersonville friends of Pastor Love sympathize deeply and tenderly with him in this great sorrow.

We are glad to learn of the constant improvement in the teaching force and equipment at the University. Work has been going on all summer getting things in readiness for the opening session. New chemical laboratory has been completed and is now open for work. The old laboratory has been fitted out at a cost of several thousand dollars for work in the medical department. The dissecting hall has also been added and greatly improved. The Zoological and Botanical laboratories have been added to and thoroughly equipped. A new professor of Pathology and a new professor of Anatomy have been added. A graduate of Harvard has been appointed as instructor in the French department and other assistants and instructors have been added to various departments. The largest summer law class in the history of the University has been had at work all the summer, and the prospects of the opening of the new session are very flattering. The faculty of the University now numbers 74 and its equipment is valued at about \$300,000.00, so that the University can offer as many advantages as can be had at the best Southern institutions.

## Heard on Main Street

In reckoning up the advertising this city receives, due credit should be given the hotels. The Blue Ridge Inn recently had a quarter-page in the Gazette-News, and the Hotel Gates is an extensive advertiser in the Charlotte Observer, the Citizen and other papers.

A bear was seen near Fletcher, one day last week, by a traveling preacher, whose word is not to be doubted. It has been suggested that Hal Ripley capture bruin and take him up to his 22,000 acre game preserve.

Asheville claims to now have the largest crowd of summer visitors in her history. Hendersonville has a few, herself, and they are coming in at the rate of over 150 a day. The transfer company are handling over 75 trunks each day, and they do not get all the baggage. The accommodations of the city will be tested soon, as never before. There are undoubtedly more people here now than at any previous time in the city's history, and the excursion period is not yet here.

The business men of Asheville are agitating the question of a Chautauqua. The business men of Hendersonville have demonstrated their faith in Chautauquas, and when Asheville gets ready no doubt some arrangement may be made with the Hendersonville Board of Trade by which the former gentlemen may have the services of that celebrated committee who so successfully swept up and down Main street, getting heavy stock subscriptions from all who did not flee the town on seeing them.

"The Southern Progress" a handsome 22-page magazine, made its initial bow to the public last month. J. W. White, of Jacksonville, is editor, and Thomas C. Mills, of Tryon, business manager. It is 'devoted to North Carolina and the South,' and must do much towards attracting attention to this favored section.

There is no better place in the South than right here in Hendersonville in which to study the latest decrees of Dame Fashion. Main street is a living fashion plate of the latest styles, and anywhere from 4 o'clock in the evening on, the street is bright and beautiful with the many pretty girls and charming matrons who come to Hendersonville for the summer.

Many summer visitors here called at this office and complained of the post-office people because they do not get their home papers, which they say they have forwarded to this city while here. The local postoffice is doing a big business these days, but people away from home miss their local paper with its home news, and the complaints have been numerous of late.

## Republican Convention.

The republicans met last Saturday and nominated the following ticket:

For representative—W. C. Rector, Esq.  
For clerk of Superior court—C. M. Pace.  
For register of deeds—B. F. Staton.  
For sheriff and treasurer—J. L. Freeman.

For coroner—Dr. W. R. Kirk.  
For surveyor—Jack Drake.  
For county commissioners—Frank Jones, J. M. Waldrop and G. N. Sentell.  
The convention was called to order by R. H. Staton, county chairman, at 1 o'clock. Charles French Toms was elected chairman, and T. W. Valentine and J. H. Tinley were elected secretaries.

Mr. Staton received the nomination on the fifth ballot, Mr. Frank Clark receiving the next highest vote.

Mr. Freeman was nominated on the first ballot, Mr. Rhodes withdrawing from the race early in the day.

The convention was very largely attended, the court room being full of delegates.
