### County Election.

Henderson county has again gone republican, but by a decreased majority, all along the line. The successful candidates claim the following majorities respectively, but official returns will reduce this estimate very materially.

Britt for Congress 463; State ticket 460; Freeman for Sheriff 250; Judge Pace, for clerk 300; Rector for legislature 400; Staton for register, 166; the commissioners, 300 each; Dr. Kirk for coroner, 450; Drake for surveyor, 450; Justice for solicitor, 400. Official returns will appear next week.

Waynesville, Nov. 6.—At 8 o'clock tonight indications are that Chairman W. T. Lee's prediction of an 800 or 900 Crawford majority in Haywood will be realized. Waynesville—north and south—gives Crawford an official majority of 471. Pigeon gives him a majority of 56. It looks as though Haywood will give Crawford 800 majority. Gudger carried Haywood two years ago by 553.

Reports from a number of precincts in Jackson county indicates a democratic majority of between 100 and 150.

### Objects to Lake.

EDITOR HUSTLER,

Dear Sir:—Though at present in the state of New York I am a citizen of Hendersonville where I have built up a pleasant home on West Academy St. I learn that there is a project in contemplation to dam up the "Ochlawaha" and form a lake over the marsh lands in proximity to that stream.

Now I am not a chronic growler nor an "old timer" or mossbank, who would oppose, or stand in the way of any enterprise which is feasible, and has for its object the promotion of the interests or beautifying the surroundings of our fine and attractive little city. But I have my doubts and fears as to the practicability of effecting this scheme or project, except at an enormous expense and of doubtful results, even at best.

In the first place, such a lake, to be satisfactory, must be deep enough to drown out the growth of all trees, bushes, water plants, eel grass, reeds and rushes, pond lilies, etc., and this I fear would require the construction of a great and extensive dam of large proportions and at an enormous expense; as a weak affair which would be breaking away occasionally, would be indeed an expensive nuisance and be very unsatisfactory. Then besides all this, is it possible or practicable to cover all the present marsh or bottom lands so as to not form additional marsh lands at the head and sides of the lake which would defeat or more than overbalance all the good accomplished? I fear it would be a vast frog pond. Do not let us be deceived by "Toxaway," as the situation there is very different. Lake Toxaway is formed in a deep valley; surrounded by mountain and hill lands; thus forming precipitous, dry, and well defined shores; whereby with a short dam the most beautiful lake I ever beheld is formed; though I was reared in the famous lake country of Western New York, between the Seneca and Cayuga lakes.

Now I do not to be misunderstood as opposing this scheme, but have my fears that after a careful survey of the situation by practical engineers, the project will not be found feasible. Better to build sidewalks and pave streets, which are a sure thing.

### Solid Delegation.

Raleigh, Nov. 6.—At midnight the returns indicate a rather light vote in the state, but the democrats are rejoicing in the belief that they will henceforth have a solid democratic delegation in congress. It is taken for granted that the majority against Blackburn will reach a thousand, while the belief obtains that Mr. Crawford has prevailed over Mr. Britt in the Tenth to the extent of eight hundred majority. The democratic state ticket has been elected by goodly majorities.

### Meeting of Hospital Association.

The Charlotte Observer says: "The Hendersonville Hustler wears a huge red head on its latest issue, proclaiming through this that the outlook in the tenth congressional district is extremely encouraging. We are glad to get the good news, but disprove of the manner of heralding it. Though the Observer sets great store by red heads they must be in the right place. It has a pain at the sight of a red-headed newspaper."

We feel so good we just naturally had to do something to express it, and thought a little red ink was about the proper thing.

### Letter to N. C. Lydd.

Dear Sir: A pound of good meat and no bone is worth more than a half-pound of meat and a half-pound of bone; but there are, as you say, a great many people who won't pay more than a certain price by the pound. Give 'em bone; that's right; give 'em plenty of bone!

There are people who won't pay more than \$1.50 a gallon for paint; give 'em bone!

There's no better school than experience; cost us high, but the lesson is never forgotten.

Let a man paint two houses alike, same size, one Devco, the other that \$1.50 paint. He buys 10 gallons of each, and pays \$3 a day for labor—\$3 a day is \$3 a gallon, easier reckoning. He has to buy two gallons more of the \$1.50 paint; and has two gallons left of Devco; 12 gallons \$1.50, \$18; 8 gallons \$1.75, \$14; \$4 more for "cheap" paint. He pays \$3 a gallon for painting: 8

gallons \$24; 12 gallons \$36, \$12 more or painting "cheap" paint.

He'll buy the less-gallons paint after that. If people are slow to learn, it's because they keep on buying bone-meat. Give 'em plenty of bone.

Yours truly
