AWFUL EFFECT OF ECZEMA.

sword.-John Fletcher. So. 4'07

Covered With Yellow Sores-Grew Worse-Parents Discouraged-Cuticura Drove Sores Away.

"Our little girl, one year and a haif old, was taken with eczema or that was what the doctor said it was. We called in the family doctor and he gave some tablets and said she would be all right in a few days. The eczema grew worse and we called in doctor No. 2. He said she was teething; as soon as the teeth were through she would be all right. But she still grew worse. Doctor No. 3 said it was eczema. By this time she was nothing but a yellow, greenish sore. Well, he said he could help her, so we let him try it about a week. One morning we discovered e little yellow pimple on one of her eyes. Of course we phoned for doctor No. 3. te came over and looked her over and said that he could not do anything more for her, that we had better take her to some eye specialist, since it was an ulcer. So we went to Oswego to doctor No. 4, and he said the eyesight was gone, but that he could help it. We thought we would try doctor No. 5. Well, that proved the same, only he charged \$10 more than doctor No. 4. We were nearly discouraged. I saw one of the Cuticura advertisements in the paper and thought we would try the Cuticura Treatment, so I went and purchased a set of Cuticura Remedies, which cost me \$1, and in three days our daughter, who had been sick about eight months, showed great improvement, and in one week all sores had disappeared. Of course it could not restore the eyesight, but if we had used Cuticura time I am confident that it would have saved the eye. We think there is no remsdy so good for any skin trouble or immurity of the blood as Cuticura, Mr. and Mrs. Frank Abbott, R. F. D. No. 9, Ful-son, Oswego Co., N. Y., August 17, 1806."

Sour grapes often intexicate men with a sense of their own importance.

Deafness Cannot Be Cured by local applications as they cannot reach the eased portion of the ear. There is only one way to cure dualness, and that is by consti-susional remedies. Dealness is caused by an inflamed condition of the muceus lining of the Eustachian Tube. When this tube is in-Samed you have a rumbling sound or imperfeet hearing, and when it is entirely closed Deafness is the result, and unless the inflamstion can be taken on; and stored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any ease of Deafness (caused by catarrh) that can-not be cured by flail's Catarrh Oure, Send for circulars free. F.J. Chuney & Co., Tolede, O. Sold by Draggists, 75c.

Sympathy is the solace of the poor,

but for the rich there is consolation. -Lord Beaconsfield.

Thoroughly Reliable.

If ever there was a reliable and safe remedy it is that old and famous porous plaster—Allcook's. It has been in use for sixty years, and is as popular to-day as ever, and we doubt if there is a civilized community on the face of the globe where this wonderful pain reliever cannot be found. In the selection of the ingredients and in their manufacture the greatest care is taken to keep each plaster up to the highest standard of excellence, and so pure and simple are the ingredients that even

a child can use them. Allcock's are the original and genuine perous plasters and are sold by druggists an every part of the civilized world.

NEW YORK WEALTHIEST STATE.

But Pennsylvania Leads in Value of Railroad Property.

Surpassed only in the value of railroad property by Pennsylvania, the State of New York was shown to exceed all other States in the extent of her material possessions by a report issued by the Census Bureau covering the work of an examinotion made to tabulate the "estimated true value of all property and of specified classes of property in the United States." The work has long been in progress, and covers the period up to the close of 1904, with comparisons of the figures of 1990, a regular census year. This comparison shows an increase in the total wealth of the country from the 1900 figures of \$88,517,306,-775 to the 1904 record breaking total of \$107,104,192,410.

Taking up the several classifications the following figures appear for the States of Pennsylvania, New York

and New Jersey: Real property and improvements-New York, \$9,151,979,081; New Jersey, \$1,9000,273,091; Pennsylvbania, \$6,591,-

055,583. Live stock-New York, \$189,622,408; New Jersey, \$32,319,327; Pennsylvania, \$160,190,227.

Farm implements and machinery-New York, \$58,806,960; New Jersey. \$9,796,532; Pennsylvania, \$54,175,943. Manufacturing machinery, tools and implements - New York, \$468,774, 714; New Jersey, \$180,212,427; Penn-

sylvania, \$515,945,638. Gold and Silver, coin and bullion -New York, \$412,832,428; New Jersey, \$40,863,293; Pennsylvania, \$168,383,-

Railroads and equipments - New York, \$898, 222,000; New Jersey, \$333,568,000; Pennsylvania, \$1,420,-

608,000. Street railways, telegraphs, telephones, Pullman and private cars, shipping canals, water works, electric light and power companies-New York, \$1,151,475,505; New Jersey, \$204,130,498; Pennsylvania, \$570,452,-

All other wealth, miscellaneous-New York, \$2,419,290,137; New Jersey, \$534,456,805; Pennsylvania, \$1,992,-809.119.-Philadelphia Record.

MILK AND CREAM FOR MARKET.

Our dairy consists of pure bred Jerseys, and we use our best endeavors to keep them free from filth. The card and brush, and sawdust for bedding, are in constant use. The manure is dropped into the basement directly underneath, on which swine are kept to prevent heating.

The stable is well lighted and ventilated, and our cows have always been free from disease. We have never lost one except from accident, and since they have been dehorned accidents are very much less frequent. We water but once a day, at 11 a. m., several rods away at a fountain that seldem freezes, supplied from a warm spring of pure running water except in rough weather. Then they are watered in the barn from a deep well. At no time are they left to shiver in the cold, and they appear to enjoy the exercise. We feed only at morning and evening. The first feed in the morning is ensilage. then mixed hay after milking. In the evening, also after milking, we feed hay, oat hay or hungarian after grain with most satisfactory results, as they have ample time to masticate and digest the same.

We still use the deep setting process for raising cream and allow twenty-four hours, and if faithfully done there will be no butter fat en the skimmitk. We knew by this season's trial that there is more money in selling milk at five cents and cream at twenty cents per quart than at twenty-five cents per pound of butter fat, all being taken from the door. We are feeding cottonseed meal all the year round, even at \$1.75 per hundred, with other approved brands, according to the requirements of the animal. For tying, we use one-half inch rod twelve inches long, with hoops and rings on each end to drop over the stanchion, a piece of chain on top of suitable length with rings between links, and another piece on the lower end without rings with a snap in the end for fastening, and made to correspond with size of animal to be tied. I have stalls for two, one tied on each side, with partings between. With such chains they cannot molest each other.-C. E. Chadbourne, Cumberland County, Me.

WHITE BREAD Makes Trouble For People With Weak Intestinal Digestion.

A lady in a Wis town employed a physician, who instructed her not to eat white bread for two years. She tells the details of her sickness, and

she certainly was a sick woman. "In the year 1887 I gave out from over work, and until 1901 I remained an invalid in bed a great part of the time. Had different doctors, but nothing seemed to help. I suffered from cerabro-spinal congestion, female trouble and serious stomach and bowel trouble. My husband called a new doctor, and after having gone without any food for 10 days the doctor ordered Grape-Nuts for me. I could eat the new food from the very first mouthful. The doctor kept me on Grape-Nuts, and the only medicine was a little glycerine to heal

the alimentary canal. "When I was up again doctor told me to eat Grape-Nuts twice a day and no white bread for two years. I got well in good time, and have gained in strength so I can do my own work

again. "My brain has been helped so much, and I know that the Grape-Nuts food did this, too. I found I had been made ill because I was not fed right, that is, I did not properly digest white bread and some other

food I tried to live on. "I have never been without Grape-Nuts food since and eat it every day. You may publish this letter if you like, so it will help some one else." Name given by Postum Co., Battle Creek, Mich. Get the little book, "The Road to Wellville," in pkgs.
