ONE DOLLAR PER YEAR

HENDERSONVILLE, N. C., THURSDAY, SEPTEMBER 19, 1907

VOL. XVI, NO 87

THE SOUTH'S GREATEST FARM PAPER

The Southern Ruralist

One Year **FREE**
24 Numbers
WITH THIS PAPER

WE have just perfected arrangements with The Southern Ruralist by which we are able to offer it to our patrons together with our paper for only \$1.00 a year. This gives you two one dollar papers for the price of one.

We have selected The Southern Ruralist because we were satisfied, after careful examination that it was the best paper of its class, and that it would do you more good and be more appreciated by you than any other farm paper.

The Southern Ruralist and the Men Who Make It

This should be of greatest interest to every farmer and gardener of the South. The Ruralist is the only fully reliable, up-to-date, practical Southern farm paper published. It's a dollar-a-year paper, 24 to 40 pages, twice a month. It goes into 75,000 Southern farm homes twice each month, and is a power for good wherever it goes. If you don't read it you are missing a good thing.

MR. F. J. MERRIAM,
the publisher and managing editor, is a Georgia farmer, a successful one who puts money in the bank every year, profits from his 200-acre farm, now known as the "Ruralist Farm." Hundreds of experiments are tried out every year on that farm. Yet see them in the Ruralist.

DR. H. E. STOCKBRIDGE
needs no introduction to tens of thousands of farmers in the Southeastern States. He is agricultural editor of the Ruralist; is owner of a large plantation near Americus, Ga., but is more widely known through his work with the Florida Experiment Station, the organization of the North Dakota Experiment Station and in the

Japanese Agricultural Department. He has addressed tens of thousands of farmers' institutes, and among farmers who know him there is no one so popular. He is a man of both national and international reputation. Dr. Stockbridge writes just as he talks, short and straight to the point, presenting the great scientific truths that are the basis of profitable farming in language so simple and plain that all understand fully what he means.

PROF. C. L. WILLOUGHBY
and **P. N. FLINT**
of the Georgia Experiment Station conduct a splendid Dairy and Live Stock Department in each issue full of valuable information to every one interested in live stock and dairying.

MRS. F. J. MERRIAM
will continue to edit the Home and Children's Department and write more of her interesting stories that have pleased so many thousands of readers during the last few years.

F. J. MARSHALL,
a noted poultry man and judge, has full charge of the best Poultry Department ever printed in an agricultural paper. It's interesting to every one who keeps and raises poultry.

DR. C. A. CARY,
Veterinarian of the Alabama Experiment Station, answers all questions of Ruralist readers, telling them how to handle sick and diseased live stock and gives the remedies.

SPECIAL PRIZE ARTICLES—Every month a number of the Ruralist is issued covering a special subject. Cash prizes amounting to \$20 are paid on each subject. These articles are written by farmers themselves. The subjects for 1907 are as follows: January, "Labor-Saving Tools and Devices"; February, "Garden and Truck Growing"; March, "Increasing Yields of Cotton and Corn"; April, "The Dairy"; May, "Forage Crops"; June, "Live Stock"; July, "Home Building"; August, "Special Crops That Pay"; September, "Small Grains"; October, "Fruit"; November, "Farm Labor and Immigration"; December, "Poultry." Mr. Merriam says: "I am going to make every issue of the Ruralist in 1907 worth a dollar to the reader, and the paper will be still further improved in 1908."

The Greatest Southern Novel ever written, "The Bishop of Cottontown" is now running in the Ruralist. You ought to read it.

From this you can see that The Southern Ruralist is a first-class paper in every way for the country home and from which you can not fail to derive much pleasure and information.

We offer it to you **FREE with the** The French Broad Hustler
BOTH PAPERS ONE YEAR FOR ONLY 95 cts.

Fruitland Institute.

Fruitland Institute is now open, with every prospect for a most successful year.

There are already 15 more students enrolled than last year, and several more are coming. They are getting down to hard work, now, under the able guidance of the following experienced teachers, Miss Elizabeth Wharton, Miss Miriam L. Schell, Miss Gusie Dotson, Miss Carrie B. Morgan, Miss Clyda Hart and Mr. W. S. Shible.

The new dormitory for the boys is practically completed, and will be in use for this term. It will have cost \$3500 when finished, will contain 30 rooms, and will be heated by steam, at a cost of \$600.

The cost of installing the heating apparatus would have been over \$1200, but the firm is doing the work at actual cost. It is for this purpose that the Institution is endeavoring to raise the sum of \$600, towards which the following subscriptions have already been received:

- | | |
|----------------------------|----------|
| Rev. G. S. Jones..... | \$100.00 |
| Rev. George Wharton..... | 25.00 |
| Prof. W. S. Shible..... | 10.00 |
| Mrs. S. C. Freeman..... | 10.00 |
| Miss Miriam S. Schell..... | 10.00 |
| S. J. Posey..... | 5.00 |
| W. G. Mayfield..... | 5.00 |
| John Jackson..... | 5.00 |
| French Broad Hustler..... | 5.00 |
| A. M. Maxwell..... | 3.00 |
| A. J. McMinn..... | 1.00 |
| G. L. Norman..... | 1.00 |
| Miss Gusie Hutcheson..... | 1.00 |
| Dr. W. G. Hutcheson..... | 1.00 |
| Will Hutcheson..... | 1.00 |
| Jerry Beddingfield..... | 1.00 |
| John Lanning..... | 1.00 |
| A. R. Wright..... | 1.00 |
| Mrs. T. Pittillo..... | .50 |
| Mrs. Sam Stepp..... | .50 |

The trustees held a meeting last Wednesday and instructed Financial Agent Posey to use every endeavor to raise the sum necessary to pay for the heating apparatus.

It is confidently believed there are hundreds of friends of education in this county who will contribute a dollar each for this purpose.

All subscriptions should be sent direct to Prof. Posey, and a list will later be published in the Hustler of the contributors. Any gift will be thankfully received.

The Institute is now out of debt and it is desired to keep it out. The trustees wish to pay cash for everything in the future, and they believe they can do so.

Fruitland Institute is doing a grand work and should receive the support of the community.

Every friend of education in the county should send in some contribution, however small, to Prof. Posey. It should reach him not later than Sept. 25th, when a full list of the contributors to this most worthy cause will be published.

North Carolina Negro Exhibit.

North Carolina has contributed to the Jamestown exposition a most interesting negro exhibit, housed in the Negro building at the Tercentennial. Under the charge of the Rev. C. H. Williamson, commissioner general of the North Carolina negro exhibit, this display represents the work of every educational, industrial and religious institution in the state.

Most wonderful of all is the work done by the school for the colored deaf, dumb and blind, located at Raleigh. The needle and fancy work and the woodcarving and other handwork of the unfortunate students of this institution have attracted the attention of the entire country.

The colleges and schools represented in the negro exhibit of North Carolina are as follows: School For the Colored Deaf, Dumb and Blind, Raleigh; Asheville graded school, Asheville; High Point Normal school, High Point; State Normal school, Elizabeth City; Roanoke Institute, Elizabeth City; Whitted graded school, Durham; St. Augustine's school, Raleigh; A. and M. college, Greensboro; Joseph K. Bride school, Enfield; Henderson Normal Institute and Shaw university, Raleigh.

Among the most interesting exhibits in the general display of North Carolina negro development is a collection of negro publications. The exhibit of African curios is also most interesting and unique.

Kantbebeat CLOTHING

FALL SUITS ARE IN

STATE GEOLOGIST'S EXHIBIT.

North Carolina Mineral Display in the Mines Building at Jamestown.

One of the most attractive exhibits in the Mines and Metallurgy building at the Jamestown exposition is that of North Carolina. The display is of interest to the scientist in that it contains many rare minerals and gems and some of rare crystallization. The collection and installation of this exhibit have been under the direct charge of Dr. Joseph Hyde Pratt, state geologist of North Carolina. The exhibit consists in the main of building stones, such as granite, marble and sandstone; mica, monazite and talc, for which North Carolina is especially noted; barytes, copper ores, kaolin, tin, chromite, specimens of abrasives, such as millstones or buhrstones, corundum and garnet, and quite an elaborate display of gems and precious stones, cut and uncut.

Mica has also a prominent place among the North Carolina minerals, and the North Carolina mica is regarded as standard.

North Carolina is well supplied with mineral waters of various medicinal qualities, and these are well represented in bottled form by the many owners.

Other economic minerals, as copper, gold, silver, barytes, graphite, coal, iron, chromite, etc., are displayed prominently, and many minerals of interest to the scientist, as feldspar, flexible sandstone or itacolumite, the ores of uranium, etc., are included in this exhibit.

The portion of the exhibit that has appealed most strongly to all who enter the Mines building is the splendid array of gems and precious stones. These collections have been furnished by Dr. Joseph Hyde Pratt, state geologist; American Gem and Pearl company of New York, and the state museum. The two gems found exclusively in North Carolina, rhodolite and hiddenite, are eagerly sought, and the splendid array of rubies, garnets, amethysts, emeralds, emerald matrix, beryls, including the golden blue and aquamarine, corundum gems, rutilated rose and opalescent quartz, oligoclase, carnelians, calcinorms, sunstones, etc., has excited keen interest. About twenty diamonds have been found in the state, one of which is shown in this collection.
