

HOW TO CURE RHEUMATISM.

It is An Internal Disease And Requires An Internal Remedy. The cause of Rheumatism and kindred diseases is an excess of uric acid in the blood.

William E. Ingles, writing in Harper's Weekly, says that Melville E. Stone's "breakfast is made up of a soft boiled egg, a bit of toast, a pot of tea and eight New York newspapers."

Cured Rheumatism.

Nearly everybody is susceptible to a twinge of rheumatism, sciatica, toothache, headache or neuralgia, and it's never safe to be without a good remedy for an emergency of this kind.

There may be women who are lame in imagination, but who ever heard of one that was crippled in the tongue.

Syrup of Figs and Elixir of Senna. Cleanses the System Effectually. Dispels colds and Headaches due to Constipation. Acts naturally, acts truly as a Laxative.

Breezy Items. Blest is the man whose wish and care is just to be happy anywhere. The man who tries to hide their light are few while those who seek to shine in the light of others are many.

Jottings of News. In Texas there is a man who carries on a regular trade in rattlesnakes. The proportion of gold and silver in circulation is one to fifteen.

ROSY AND PLUMP Good Health From Right Food. "It's not a new food to me," remarked a Va. man, in speaking of Grape-Nuts.

Southern Agricultural Topics.

Modern Methods That Are Helpful to Farmer, Fruit Grower and Stockman.

A Catechism on Poultry.

Let these who raise chickens answer these questions for themselves:

I. Why do you raise chickens?

II. Why don't you have comfortable roosting places for your chickens, and a shed open front to the south in which to raise winter chicks?

III. Have you learned that it is more profitable to feed hens for eggs than for merely fat?

IV. Why do you feed corn exclusively, when a variety of grain and an acre of rye or alfalfa for green food will fill your egg basket, even in winter?

V. Why do you market the bulk of your eggs in summer at ten to fifteen cents per dozen when you could with best pure bred poultry and a little care sell them in winter at twenty-five to thirty-five cents?

VI. Why do you sell your "spring fryers," from June to August, at ten to fifteen cents per pound, when you might sell them in March and April at thirty to forty cents per pound?

VII. Why do you sell your surplus hens and pullets at twenty-five to forty cents each, when you could just as readily sell pure bred birds at from \$1 to \$2, and get much more for very choice specimens?

VIII. Why do you sell your male breeders of past season for twenty-five cents, when you could sell pure bred ones for many times that amount?

IX. Why don't you sell all your mongrels this month, except about a dozen for mothers in spring, and invest that money in pure bred stock, or eggs for hatching at best season next spring?

X. Why don't you act at once, before price of market poultry declines and price of pure bred poultry advances?

XI. When you write to poultry breeders, why don't you state whether you want to buy good utility fowls or the very best exhibition fowls?

XII. Do you know that no breed produces a very large per cent. quite well up to the standard in every way, so why do you expect to secure these at prices good utility fowls are worth?

XIII. Do you know it is much more pleasant to care for a flock of beauties than one of mongrels?

XIV. Why don't you interest your boys and girls in poultry raising?

XV. Why don't you encourage them by giving them the poultry to care for, and give them something worth their care, have them keep strict account of all expenses and all profits, and give them a good poultry journal to read?

XVI. Don't you know this would be to them a business education, a profitable investment, and much more pleasure than toiling in fields all day long in summer's heat?

XVII. Do you know that encouraging some individual work for your boys and girls will help much to keep them contented on the farm, and away from the crowded city?

Is it worth while trying to do this?—Mrs. J. C. Deaton, in Progressive Farmer.

Poultry in the Orchard.

The chickens destroy insect enemies of fruit; with all of your trapping the insects do get past you. The hens may not get all that remain, but they and the little chicks will get many of them. Poultry like fruit, and chickens in an orchard will eat the immature fruit as it falls, and in doing so kill off the worms that caused the fruit to fall prematurely.

Just dig up the old sods a little under a fruit tree, scatter a little grain there to get the chickens started, and see how thoroughly and earnestly the hens will dig. And they do this, too, without damaging the roots, as you often do by a thorough cultivation. Many a fruit grower fails to cultivate his orchard as he should, let be peel the trunks of the trees, or unduly cut the roots. Just a few

Some girls are so anxious to make names for themselves, they misspell the front and then change the rear one.

Often the man who has the price of a good coat in his pocket doesn't care how shabby the pocket may be nor the coat it belongs to.

If the Standard Oil octopus were conversationally inclined it would be interesting to hear it discourse upon "Some Statesmen I Have Met."

Pardon the pardons, and exercise some maver on your own account.

Breed for a Definite Purpose.

The advice to breed to a beef sire for beef and to a dairy-bred sire for dairy cows, is perfectly right. All over the country we read of men advocating that mythical animal, the "dual purpose" cow, a jack-of-all-trades, and never the best at either.

If a man's interest is in dairy products, he should keep the breed that has been for many generations bred for dairy production, and avoid all the beef breeds, for the characteristics that make an animal the best for the dairy will always forbid its being a good beef animal.

You may fatten a dairy-bred steer, and he may gain in gross weight as fast as the best beef bred one, but when he is slaughtered you will find that instead of broad loins he will give you a big lot of internal tallow, for there is where he has been bred to put his fat, just as the cow of that breed has been bred to put her fat into her milk.

Some lay great stress on the fact that the "art-an-art" animal will bring good veal calves, but fail to understand that the veal has been more than paid for in the loss of dairy products.

On the other hand, if your interest lies in beef, avoid a dairy-bred animal, no matter if it is a big Holstein, for it is not mere size that makes the beef animal, but the capacity for making the most valuable beef in broad loins and heavy hind quarters, both of which the dairy animal must lack.

The dairy type and the beef type are totally distinct.—Professor Massey.

Vat For Scalding Hogs.

A very good vat for heating water for scalding hogs can be made in the following manner: Take two two by twelve planks and cut them so they are six feet on one edge and five feet two inches on the other edge.

These form the sides of the vat. For the ends take two pieces two by twelve, each plank three feet long. About three inches from each end of the two sides cut a groove across two inches wide and three-quarters of an inch deep for the end of the sides to fit.

Holes should be bored at top and bottom for half-inch bolts across the ends to hold the sides in position. The bottom of the vat is made of sheet iron nailed to the bottom and on to the vat. The vat should be long enough to come around both ends and fasten at top and, also, should be wide enough to come up the sides for two or three inches.

Three lions, one and one-half inches thick and one inch wide, are passed under the tank and used to support the bottom. They are shown at AAA. These should come up at least four inches at the side.

A trench eight feet long, twenty inches wide, fifteen inches deep, should be dug and the vat placed over it. The trench should be dug so that the wind has a straight draught under the vat. Fill the vat two-thirds full of water. The scraping bench should be set against the side of the vat.

Light chains, each about eight feet long, are used to lower and raise the hog into the water. These chains should be fastened at the edge of the scraping bench and should be placed about two feet six inches apart. By placing these chains above the vat, says Prairie Farmer, the hog can be lowered into the water, and when scalded, can be readily removed.

Ever remember that good feed is as important as good breeding. It takes the two for the production of the best animals.

Men who do not like animals are unlikely to make successful breeders. They do not get interested enough in their work or give it sufficient attention and study.

No matter what kind of females are used for breeders use pure bred sires always. A herd can be graded up quickly by the use of pure bred sires if they are good individually.

Pure air and pure water are two inexpensive things yet are invaluable to the live stock grower. Money cannot be spent to good purpose for any kind of feed or pasture as it can be to get pure air and pure water.

Live Stock Notes.

Charles Carroll, of Carrollton, the last survivor of the signers of the Declaration of Independence, died Nov. 14, 1832, in Baltimore. He was 95 years old. He signed "Charles Carroll, of Carrollton," to distinguish himself from another man of the same name.

DREADFUL DANDRUFF. Girl's Head Encrusted—Feared Loss of All Her Hair—Baby Had Milk-Crust—Miserable Wife Made Perfect Cures by Cuticura.

"For several years my husband was a missionary in the Southwest. Every one in that high and dry atmosphere has more or less trouble with dandruff and my daughter's scalp became so encrusted with it that I was alarmed for fear she would lose all her hair. After trying various remedies, in desperation I bought a cake of Cuticura Soap and a box of Cuticura Ointment. They left the scalp beautifully clean and free from dandruff, and I am happy to say that the Cuticura Remedies were a complete success. I have also used successfully the Cuticura Remedies for so-called 'milk-crust' on baby's head. Cuticura is a blessing." Mrs. J. A. Darling, 310 Fifth St., Carthage, Ohio, Jan. 20, 1908.

"Potter Drug & Chem. Corp., Sole Props. of Cuticura Remedies, Boston, Mass."

Nov. 14, 1820, James Monroe was re-elected President. Only one electoral vote was cast against him. A solitary elector from New Hampshire was the only one who did not participate in the "era of good feelings;" he gave his vote to Adams.

PATIENT SUFFERING. Many Women Think They Are Doomed to Backache.

It is not right for women to be always ailing with backache, urinary ills, headache and other symptoms of kidney disease. There is a way to end these troubles quickly. Mrs. John H. Wright, 606 East First St., Mitchell, S. D., says: "I suffered a ten years' backache with kidney complaint and a doctor told me I would never get more than temporary relief. A dragging pain and lameness in my back almost disabled me. Dizzy spells came and went and the kidney secretions were irregular. Doan's Kidney Pills rid me of these troubles and I feel better than for years past."

Sold by all dealers. 50c. a box. Foster-Milburn Co., Buffalo, N. Y.

Humor and Philosophy. Miglitoe was never meant for foolers. Kiss her on the kisser.

Good counsel is better than a thousand hands.—German.

Women don't have to swear to show how mad they are. There are other ways.

Every friend a man has represents some side of his composite nature, so if you want to size him up have a roundup.

It's hard for a lazy man to be truthful, for he is happiest when lying.

Corruption wins not more than honesty.—Shakespeare.

Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound:

Red Banks, Miss.—"Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound."—Mrs. Willie Edwards.

Hampstead, Maryland.—"Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women."—Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

For DISTEMPER. Pink Eye, Entropy, Shipping Fever, Catarrhal Fever. Here cure and positive preventive, no matter how long it has been infected or "exposed." Liquid, given on the tongue, acts on the blood and cleanses the system.

W.L. DOUGLAS \$3.00 SHOES \$3.50. The Reason I Make and Sell More Men's \$3.00 & \$3.50 Shoes Than Any Other Manufacturer is because I give the wearer the best shoe in the world.

We Buy FURS Hides and Wool. Feathers, Tallow, Bone, Wax, Glue, Golden Seal, Yellow Root, May Apple, Wild Ginger, etc.

Nothing New or Mysterious. "ASK YOUR GRAND-MOTHER." For many generations Goose Grease has been recognized as a wonderful remedial medium in treating and curing Pneumonia, Grippe, Rheumatism and Neuralgia.

JOHN WHITE & CO. LOUISVILLE, KY. Highest market price paid for FURS and HIDES. Wool on Commission.

Nothing New or Mysterious. "ASK YOUR GRAND-MOTHER." For many generations Goose Grease has been recognized as a wonderful remedial medium in treating and curing Pneumonia, Grippe, Rheumatism and Neuralgia.

XANTHINE FOR THE HAIR. Restores Gray Hair to Natural Color. Removes Dandruff and Recast. Irritates and prevents the Hair from falling out.

PRINTING OF EVERY DESCRIPTION. Formation with W. A. FOWLER, 24 Hurt Street, Atlanta, Ga.

HIGHEST CASH PRICES PAID FOR FURS, HIDES, SKINS, BEESWAX, TALLOW, WOOL.

OLD DOMINION HIDE & FUR CO. 1546 E. Cary St., RICHMOND, VA.

TYPEWRITERS ALL. Sold, rented, exchanged everywhere. Machines new, others equal to new sold at a saving of 20 to 30 percent.

A Good Tonic. For Sick Women. Of course, well people don't need a tonic. But sick people, and especially sick women, frequently do. That feeling of weakness, tiredness, or languidness, that seems to make every movement or thought an effort, is much more than merely disagreeable. It is a sign of dangerous weakness, and should be promptly treated with Wine of Cardui.

B.B.B. Pimples, Itching Humors, Rheumatism, Blood Poison, Eczema, Bone Pains. B. B. B. (Boric Acid Blood Balm) is the only food remedy that kills the poison in the blood and then purifies it—giving a flood of pure, rich blood direct to the skin surface.

PUTNAM FADELESS DYES. Color more garish brighter and faster colors than any other dye. One 10c. package colors all fibers. Dye in cold water better than any other dye.

Many a man who gives good advice away needs it himself. H. H. GREEN'S HOME, of Atlanta, Ga., are the only successful Dropsy Specialists in the world. See their liberal offer in advertisement in another column of this paper.

The Best Laxative—Gorfield Teal Compound of Herbs, it exerts a beneficial effect upon the entire system, regulating liver, kidneys, stomach and bowels. The average life of a dog is from ten to twelve years.

CAPUDINE CURES COLDS and GRIPPE. It Removes the Cause, Relieves the aches and feverishness. Contains No Acetanilide.

TRISO'S AN UNSURPASSED REMEDY! Triso's Cure is an unsurpassed remedy for coughs, colds, bronchitis, whooping cough, influenza, and all lung affections. It goes direct to the seat of the trouble and generally restores health to the sufferer.

Fertilizer MIXING MACHINERY, ANY CAPACITY, ATLANTA UTILITY WORKS, EAST POINT, GA.
