Luxury of the Rich" By Charles Johnston

OR any one who has imagination, there is a curious and wonderful story behind a "luxurious" bill of fare. Let us begin with the wines; and let us assume that they are genuine, for one can usually have the authentic thing by paying the price for it. The wines on a richly decked table really represent the work of hundreds of French peasants, with their wives and children, who, in the midst of a lovely country, rise early and toil late, with loving and tender care watching over the growth and ripening of the fruit of what is

one of the most beautiful and decorative plants in the world. Millions of lows: these thrifty, simple people depend for their well-being and comfort on the constant demand for wines, and for the best and purest, and therefore the most extensive wines. The rich do not compel these people to work; nature compels them to work. What the rich do is to influence the direction in which they shall work, and to bring within their reach all kinds of commodities in exchange for their work.

So other things on the same table represent the well-being, the family comfort, of shepherds in the hills, perhaps, of our west, or of Wales or Scotland; or the wealth of fishermen on the rivers of Maine or along our New England coasts; or down south, in the Gulf, or in the oyster beds at the mouths of our rivers; or, again, the earnings of the hunters along the fringes of the sea marshes, or among the woods and hills, or on the prairies; vigorous, adventurous men, with a warm love of every changing aspect of natural beauty, who are thus able to lead half-wild lives under the fair dome of heaven. It is just this putting in motion of a huge army of folk, scattered over widespread regions, carrying out exacting tasks, that makes the cost of an expensive banquet; and the rich man is simply the factor determining in which of a score of directions a constant stream of resources shall flow, bringing the power to work, and recompense for work, to a varied army of

good people all over the world. . . The basis of the whole thing is that the richest man in the world cannot spend a penny except by paying some one for something.-Harper's

Unpleasant Qualities on the Surface, Admirable Ones Below.

By Robert Haven Schauffler

HEN I speak of the Berliner I do not mean the highest stratum of Berlin society; for the gentleman and the gentlewoman are fairly constant types the world over. I mean the person whom the young clerk, fresh from the provinces, sets about imitating; the person whose origin is recognized the moment he enters any European cafe; the person with whom the stranger to Berlin has exclusive dealings.

The Berliner inclines to military standards in appearance and character, very much as official Berlin does. A smooth, determined chin, a daunting glance, a right noble pose, a rapid stride, tiary, where he served two years for are all the mode. An upturned mustache has recently been de rigueur, and one conspiracy to defraud the governnotices with joy that even the bronze mermen on the Heydt bridge possess

One of the Berliner's most trying characteristics is his superiority. He has known the latest joke at least 10 years. Do not try to tell him anything or to strike from him the least spark of enthusiasm, for news is no news to him; he was born blase. His eleventh commandment is, "Let not thyself be bluffed," his life motto, "Nil admirari." In conversation he instinctively interrupts each fresh subject to deliver the last word upon it, and to argue with him is to insult him. There is something cutting in his speech. Perhaps Voltaire's influence on the great Frederick, the critic king, started this dreadful habit, which seems to grow with indulgence. It is a curious coincidence that the first performance of Goethe's "Faust" should have been given in Schloss Monbijou, the home of the Hohenzollern museum, for it would almost seem as though the Berliners had modelled their daily speech after the caustic, sneering, telling style of the engaging villain in that drama. They have little humor, but much wit of the barbed, barracks variety. And

Because their unpleasant qualities are on the surface and their admirable ones are below, the Berliners do a grave injustice to the rest of Germany. Many foreigners go first to the capital, are repelled by the people they first meet, and hasten on to France or Italy with the idea that all Germans have corrosive tongues and manners of a drill sergeant. Whereas there is no wider difference in temperament between the people of Naples and those of Warsaw than between the citizens of Munich and the citizens of

CENSUS BUREAU REPORT A CHILD KIDNAPPED

Willie Whitla, Aged 8, Taken From School at Sharon, Pa

NO CLUE TO THE PERPETRATORS

Willie Whitla, 8 Years Old, Taken From His School at Sharon, Pa-Held For \$10,000 Ransom-Terms Complied With, But Plan Fails.

On last Friday Willie Whitla, years old, was kidnapped from school at Sharon, Pennsylvania. A well dressed man drove up to the school and told the janitor that Willie's father had sent him to bring Willie to his office. Not suspecting any panies, 518,479; other holders, 255,- thing wrong the teacher fixed Willie up and sent him on, in light pleasantry saying she hoped he was not being kidnapped.

All too soon she found that it was stern reality. A letter was received Friday in Willie's own hand which

Two bad men have me, and if you don't send \$10,000 they will kill me in 10 days. Willie Whitla. There was nothing on the envelope to denote where the letter had been

Frank H. Buhl, a millionaire uncle of Willie's took a decided interest in the case and will freely pay the \$10,

It was reported from that city that two men and a boy answering the description of the kidnappers and their victim have been seen there, consequently the supposition is that Mr. Buhl has received word which made him believe his nephew was in Cleveland or that vicinity. The buggy in which the child was taken from school was located at Warren Ohio, and as the Cleveland papers were among those specified, in whick the demand of the kidnappers for a \$10,000 ransom should be answered by a personal advertisement, all evidence seemed to indicate that developments in the mysterious case was allowed to go unheralded, and no atcentered about the Lake City.

A clue was secured Sunday, in which little credence is placed, however. On March 1 the local postoffice department received a circular announcing a reward for a man described as Samuel C. Leavanson, of Canton, O., said to be wanted there for the theft of \$400. Janitor Wes- end. With him he carried the \$10,ley C. Sloss, of the school from which Willie was taken, when shown the circular bearing a portrait of the man wanted, declared it bore a strong resemblance to the abductor.

A Cleveland, O., special on Sunday says: Whitla was instructed in a letter from the kidnappers to leave \$10,000 in Flat Iron Park Saturday night. If no detectives were about the kidnappers promised they would deliver the boy safely to the father in a hotel at Ashtabula at 3 o'clock Sunday morning. Whitla deposited the money as requested, but the Ashtabula police learned of the plans to pay the ransom and went to the park. The kidnapers are supposed to have seen them, for at 3 o'clock the money was intact and not a man had approached the spot.

Whitla believes that the failure to effect a settlement with him will frighten the kidnapers and they will not communicate with him again.

The police of Ashtabula are unwilling to believe that the kidnapers have left that section of the country. The letter from the captors of Willie Whitla came to the boy's parents in Sharon Friday afternoon.

Upon receipt of the letter Whitla called in private dectives and asked their advice. They were anxious to capture the kidnapers and pleaded with him to permit them to place a decoy package of bills at the designated spot and let officers lie in wait told me to. and capture the men who came after the money.

Whitla would not agree to this. He finally consented to permit the detectives to acompany him to this city and await his summons to start a search for the kidnapers.

Promptly at 10 o'clock Whitla left the package of bills in the park. He went tto the designated spot alone feeling certain that his compliance with the request of the kidnapers would prove the means of delivering his boy back to him.

Three policemen who had been sent out from the Ashtabula central station saw Whitla leave the money in the park. They appraised Chief Laskey of their discovery and received instructions to remain on duty and capture the kidnapers should they

In the meantime Whitla returned to the city and communicated with his detectives in Cleveland. They advised him not to go to the hotel for his boy a minute before the time set After five hours of anxious waiting, was on his way, a policeman informed him that three officers had been on a license tax of 1 1-10 of 1 per cent guard in the immediate vicinity of the park and that no one had called for the money.

Willie is in perfect health. He says that he has been well treated and ever since his capture has been constantly indoors. He believes he was taken from Sharon to Warren and thence to Newcastle, Pa. It is his opinion, expressed in a happy school-boy way, that he was in Ashtabula on Saturday night at the time his father was to leave his \$10,000 in Flat Iron Park.

Whitla, senior, refused to state whether he had paid the ransom or not. He said that he received a letter Monday from the kidnapers at his home in Sharon, saying that if he called at a confectionary store in the east end of Cleveland he would be told how to secure his boy "unharm- sign the bond. In Mortal Terror of Kidnapers. Shortly after noon he left Sharon for Celveland. He was unaccompanied. His immediate family and the private detectives he had in his employ he apprised of the proposed secre meeting, but insisted that he make the trip alone. Every one of them was warned that he must be tempt at the capture of the kidnapers now be made. Whitla was certain that if he spoiled the plans of his son's captors he would never see the lad again. His experience at Ashtabula served as a warning.

About 2 o'clock in the afternoon he went to a candy store in the east 000, expecting that it would be demanded of him there. He was met by a woman who detailed to him the terms of the kidnapers. With all the eagerness of a distracted parent

Whitla agreed to them immediately. Willie Unconscious of His Danger. In the meantime little Willie was being treated kindly and even at this time does not realize what danger he was in. The woman at the candy store had done her duty. She communicated with the captors of the boy and told them that the father had made no attempt to trap them. The boy was brought from his unknown hiding place to a car line in the east end of the city.
