## INDUSTRIAL DEVELOPMENT OF HENDERSON

A Gigantic Mass Meeting of All the People Called for July 20. M. V. Richards and Other Noted Speakers to be Present. The Stores Will Close; There Will be Music, and the Day Will Mark an Epoch in the County's History.

Tuesday, July 20th, will mark the turning point in the history of Henderson County!

On that date the people of Henderson County, the farmers, the mechanics, the bankers, the humblest laborers, will meet together in a gigantic mass meeting at the court house, to consider the all-important matter of the INDUSTRIAL development of this county.

Mr. M. V. Richards, land and industrial agent of the Southern Railway, will be present and relate the experience of other towns and how they, as a result of united effort, have benefited their condition and have taken a high-road to prosperity.

There will be other speakers of note. The stores will all close from 11 to 1 o'clock, there will be music, and the day will be one long to be remembered in the history of Henderson County.

All arrangements are in the hands of competent committees, and it is believed the outpouring of Henderson's citizens will be the greatest in her history.

### At The Auditorium.

### MAYOR'S COURT.

D. W. Rollins of Melrose was tried yesterday afternoon before a magistrate and was bound over to higher court under a heavy bond of \$300, which he managed to put up for his appearance at the next term of court in this city.

A short while later Rollins was tried in mayor's court for being drunk and disorderly on the fifth of July in this city and was fined \$7.50, which he paid over to the city treasurer.

A rather peculiar case came up in mayor's court yesterday afternoon. Mrs. M. A. Wilburn was the defendant charged with

retailing spirituous liquor. A number of witnesses were put on the stand. From the evidence given the court there is a great deal of liquor sold in the neighborhood of the defendant's place of business but nobody seemed to know just who was "coining" the money. Mrs. Wilburn is already indicted on a charge of selling liquor last year but the case has not been in court.

Mr. Sherman, one of the witnesses summoned by the court to testify in this case refused to talk on the subject and would not answer a single question put to him by the mayor. The mayor very much indignant over the affair fined Mr. Sherman twenty-five dollars for contempt of court.

Mayor Staton fined Mrs. Wilburn \$50 and bound the case over to the grand jury.

### Judge Justice Interviewed.

Rutherfordton Sun. The Sun having heard from various sources that Judge M. H. Justice's name was being used as a possible candidate for Congress, a Sun representative approached the judge himself on the subject. "No," he said, "I am not and shall not be a candidate for Congress. When I became judge, I gave up, of course, my law practice. My tastes and desires are both in the line of my profession. I am grateful to my friends for any mention of my name in connection with public office. But if I have deserved well of them and of all good people as I trust I have, I should be glad to continue in my present position as judge of the 14th judicial district and to that end, when the proper time comes, I shall announce myself a candidate for the nomination."

This is what the Sun expected Judge Justice to say, and we are glad we were not disappointed. It would be a pity to take a man of his fine experience and judicial temperament out of a position he fills so well. So we are glad to set this rumor at rest.

Mrs. Harry A. Bernhardt, of Salisbury, is expected in the city tomorrow, to visit her daughter, Mrs. Frank Morris, who was Miss Lucile Bernhardt before her marriage.

Mr. and Mrs. F. M. Thompson, of Salisbury, and Mrs. Claude Thompson, of Morrisville, are expected in the city tomorrow, on a visit to Mrs. Jack Morrison, at the Oakley Florida Home.

COUNT ZEPPELIN AND TYPE OF AIRSHIP IN WHICH HE WILL TRY TO REACH THE NORTH POLE.

Count Zeppelin, inventor of the Zeppelin airship which has performed such wonderful feats in Germany, has announced that he will try next year to reach the north pole in a similar air craft. The German emperor is enthusiastic over the idea and has accepted the protectorship of the undertaking. Count Zeppelin's idea is to first explore the polar regions thoroughly before attempting an actual flight to the pole. He will build a new and larger airship for the undertaking. When Emperor William heard the details of the plan he declared he believed Zeppelin could accomplish the task.

### THE FROG CHILD.

A good many people think, and say so, too, that such "attractions" as the "Frog Child" should be confined to the side streets. One gentleman, speaking of this exhibition yesterday, declared that it was a positive nuisance, especially during the celebration on Monday when much noise emanated from the promoters and crowds of negroes congregated on the sike walk in front of the place, to the detriment of public travel. Let the city authorities see if they cannot abate this objection under their code. A side street could be substituted for the present location.

### Teachers' Institute.

The examination of those wishing teachers' certificates will be held on the three last days of the week.

### Prohibition Contest in Bristol.

BRISTOL, VA.—Great excitement prevails over the local option election, which occurs Thursday. Both "wets" and "drys" are making claims of victory. As liquor sales amounted to nearly a million dollars last year, and much money is being used, King Alcohol will be hard to dethrone, but the prohibitionists are enthusiastic and hopeful.

### Explosion in Mine Kills Nine.

TRINIDAD, COL.—Nine men were killed by an explosion of gas in the mine of the Cedar Mill Coal and Coke Company at Tolerville. The men, all foreigners, were descending in the cage.
