STATE NEWS.

The first brick of the Masonic and Land In Star Home for Aged and In Eastern Star Home for Aged and Indigent Masons, their wives and daughters, was laid last week at Greensboro in the presence of a number of Masons who went out to see the work begin. The building occupies a lovely site of twenty-five acres just beyond Lindley Park and to the north of Pomona station.

The tobacco farmers of North Carolina, particularly in the old tobacco section in Stokes, Surry, Forsyth and adjacent counties who have seen their products taken for twenty years by the trust at about the cots of cultivation, have come to the conclusion that there is no hope of protection for them by the State or Federal Government so long as the American Tobacco Conmpany has the influence it now has and they are organizing in order to try to help themselves.

Governor Kitchin last week granted pardons to four prisoners in for various terms and crimes, and a commu-

tation of sentence to one. Robert Harrison, the young white man of Cary whom it was sought in the Wake court at Raleigh to convict of manslaughter for the shooting of Vessie Turner, a small negro boy, last New Year's night, has been acquitted by the jury, members of which took the view that the killing was entirely accidental. Harrison was trying an old revolver by shooting at the door of a shed and the boy came up unexpectedly, the ball glanced from

the door and took effect in his head. In a batch of twenty-three opinions delivered last week by the Supreme court, State vs. Sandlin from New Hanover was the most notable, this against L. M. Sandlin, under sentence to be electrocuted for the murder of his wife in Wilmington.

Fred Ritchie, a lineman in the employ of the Southern Power Company, was electrocuted at Lexington one dy in all cases of blood trouble, whether day last week while strapped to a eruptive, or proceeding from a lack of full, pole thirty feet from the ground. He free circulation. was one of a force that has been working around Lexington for several weeks and when the accident occurred he was helping to make some changes in the line at the Wenonah cotto nmill in the southern end of the

BODY PIERCED BY CROWBAR

Luther Simmons of Newbern Dies From Injuries Received in Peculiar Accident at Richmond. Richmond, Va., Oct. 29.-Luther

Simmons, 21 years old. of Newbern, N. C., whose body was pierced by a crowbar when he fell from a scaffold Monday afternoon while at work at the plant of the Richmond Guano Company, died early tonight at the Retreat for the Sick. The bar, which fell from scaffild at the same time, assumed an upright positon as it hit the ground the upper end penetrating Simmons' right thigh as he fell upon it. The bar then passed up through his body, coming out at the right shoulder.

Simmons was rushed to the hospital with the bar still in his body, it was removed as soon as possible after his arrival there. The surgeons regard it as miraculous that he lived as long

as he did. Simmons' body was shipped tonight to Newbern, where his father, T. A. Simmons, resides. He came to Richmond several months ago to work. He also has a sister Mrs. Minnie

Larkins of Dover, N. C. J. E. Yarboro of Nashville, N. C., who has been at a Richmond hospital for some weeks leaves for his home tomorrow. His hip was broken in a runaway accident, and it was not until the surgeons here mended the fracture with the aid of a ten-penny nail that it began to knit. The nail was removed last week.

Checked and in Early Stages, Cured by

the great Reconstructive tonic and blood. renovater

We do not set forth MILAM as a cure for consumption, but it has proven so beneficial to such patients that we believe, and are supported in our belief by a practicing physician, that MILAM will arrest incipient tuberculosis or consumption in its early stages. We know that it greatly benefits even those in the advanced stages.

Scrofulitic Consumption

City of Danville, State of Virginia-To-wit: . I, Edmund B. Meade, Notary Public in and for the City of Danville, State of Virginia, do hereby certify that Abram Word, of Danville, Va., to me well known, did appear before me, and being duly sworn, deposeth and says as follows:

"For ten years prior to August, 1909, I was under the care of a regular physician. Last spring this doctor told me he could do me no good, and I tried another for four months without receiving any benefit from

In August, 1909, I began taking Milam, and am now able to do my work without difficulty, my appetite is good, and I can eat and digest any food.

My trouble was said to be Scrofulitic Consumption, and I was wasted away to a shadow. I was so weak that I could hardly walk when I commenced on MILAM. I regard MILAM as a truly valuable reme-

I have recommended MILAM to about twenty of my friends, and so far as I have seen or heard from them, they all speak in the highest terms of it, and are recommending it to their friends.

It was particularly beneficial to me in aiding digestion and building up an appetite." ABRAM WORD.

Traction Engine and Disc Plow Lexington Dispatch

Messrs George F. Morefield and G. W. Crouse went out to Mr. James Bell's farm in Boone township to watch the workings of a big traction engine, hitched to a six disc plow last week. The plowing outfit is the property of a young man by the name of Fmerson. It is 14-horsepower and the six plows cut the hard earth to depth of ten inches with all ease. There were a number of farmers there to see it work and more than one declared that they were through plowing the old way, pulling their horses and mules to death.

HOLY ROLLERS SPREAD OUT New Religious Sect in Catawba Has Strong Hold on Converts-Large Number of People Ally Themselves With New Faith.

Trust Taxes Workingman's Shoes

Leather Trust Cuts Quality—Four Profits Force High Price

If there is any man in this country who-ought to get good, honest shoes at an honest price it is the workingman. Yet what happens when he buys the average shoe for himself or his family?

Instead of a shoe that protects his feet properly for the work he has to do—he gets a poor, weak thing that breaks down, cracks and leaks, loses its fit and comfort.

Adulterated Leather in Trust-Made Work-Shoes

The shoe goes back on him because the leather is weak—tanned by a cheap, hasty "process" by the Leather Trust-"weighted" with adulterants to swell the profits of the Trust.

For those low-grade shoes he pays an outrageously high price—because the Leather Trust fixes the price of the leather to suit itself-and because the shoes carry four needless profits-

Profits to the Hide Trust, the Leather Trust, the Leather Jobber and the Shoe Jobber.

The Only Work-Shoes Independent of the Leather Trust

Why doesn't the shoe manufacturer buy good leather?

Man alive, he can't! The Trust controls the tanning industry of America. The ordinary manufacturer has got to take Trusttanned leather or shut his factory down.

There is only one shoe factory in this country that is independent of the Leather Trust. That concern is Endicott, Johnson & Co., and they make the most dependable, sturdy work-shoes in the United States.

Shoes for the farmer, for the miner, for the bricklayer, for the teamster-for all heavy work and wet work outdoors and indoors.

They get good, old-fashioned leather because they tan it themselves in their own tanneries. They are the only shoemakers in the world who tan every pound of leather they put into their shoes.

Wonderful Endicott-Johnson Leather Endicott-Johnson Work-Shoes are made of leather tanned and finished expressly for work-shoe purposes-

Chrome-tanned upper leather, heavy, tough and strong, but pliable and soft—so that the shoe will wear a long time, be easy to the feet and give them ample protection.

"Kromelk" soles (chrome tanned), the most durable sole leather ever producedproof against weather and heat, and all but proof against wear.

Remember this "Kromelk" sole leather. It is the first and only perfect chrome-tanned sole leather in the world. Nobody but Endicott, Johnson & Co. can produce itthough the Leather Trust has tried.

Work-Shoes Honest All Through

Endicott-Johnson Work-Shoes are solid leather shoes-no "filler" or shoddy or the name of the makers-

pasteboard inside. Just good, honest Endicott-Johnson leather through and through.

They are handsome shoes-good lines and good style, because they are designed by the same men who design the Endicott-Johnson dress shoes that sell for twice the money.

And they are finished just as carefully, too, inside and out. Endicott-Johnson shoemakers do not know how to make a poor shoe.

Now you would naturally suppose that shoes made out of this extra-grade leather, with such style and finish, would cost you more than the ordinary Trust-made shoes.

As a matter of fact Endicott-Johnson shoes come to you cheaper than any shoe of the same general type you ever wore.

How Price Is Kept Down

Endicott, Johnson & Co. make good leather in their own tanneries at rock-bottom cost, remember.

Endicott-Johnson shoes pay no profits to Trusts or Middlemen. They carry no exorbitant retail profits. Endicott, Johnson & Co. sell direct to your local shoe dealer who is willing to make his money by a fair margin on many sales—rather than a big profit on a smaller volume of business.

Endicott-Johnson Work-Shoes are made in several grades, selling at \$2.00 to \$3.50 a pair. You can have your choice of numerous shapes and styles, and a full range of sizes.

Other Endicott-Johnson Shoes

You can get other Endicott-Johnson linesshoes for men and women, for boys and girls. The popular dress and business shoe is the ENDWELL (Goodyear Welt)-selling at \$3.00, \$3.50 and \$4.00.

Go to the Endicott-Johnson dealer in this town, and look over his stock. Remember

ENDICOTT-JOHNSON T. B. CARSON

* Shoe buyers who live outside the city where this paper is published can learn the names of their home dealers who carry ENDWELL shoes by writing to Endicott, Johnson & Co., Endicott, N. Y.
