WESTERN CAROLINA DEMOCRAT AND FRENCH BROAD HUSTLER.

SUPPLEMENT.

COST OF LIVING INCREASED

Labor Agent Reports Increase By Reason Of Many Luxuries.

The cost of living in the region of Kansas City has increased 59 per cent in ten years, while the wages of skilled workers have been augmented a fraction more than 26 per cent, according to conclusions reached by George A.

labor. He said final reports on the result not live as we did several years ago. of investigations being made in 40 of What was luxury ten years ago now is the larger cities of the United States necessity. In my own state, Virginia, would be issued January 1.

"The Effect of Your Message Greatly Depends Upon the Style and Quality of You Stationery"

You are more often judged by the paper you use than by the though ts you express in writing. Pride, good taste, refinement-all demand that you use stationery that is distinctive, stylish, good. Shown here are two brands or stationery to be had in a wide varie ty of beautiful tints, modish shapes and correct sizes-each so rar ely good that its use will help estab lish you as a person of excellent good taste in the minds of those you write to.

Symphony Lawn Writing Paper

is made exclusively for The Rexall Stores in a big mill way up in the Massachusetts Hills, from the best and cleanest rag stock. Each sheet has an exquisite lawn surface made by pressing it between plates of zinc lined with sheets of specially-woven French cloth.

Symphony Lawn has a splendid writing surface, is beautiful to look upon, is in every respect correct, is stationery you will be proud to use.

Made in white and the follow ing tints:

Twilight Gray Surf G reen Shell Pink Old Lavender Boudoir Champagne Blue -with tinted edges and in four sizes: Regular Letter, Corres pondence, Note, Acceptance.

In one-quire boxes, with envelopes, 40 and 50 cents. In larger box es, \$1.00 to \$2.00. With gold or silver edges, 50 and 60 cents a quire

Symphony Lawn Correspondence Cards, now very fashionable for short messages; in any of the above tints and sizes, gold edge. Box of 25 cards and 25 enevelopes, 40 and 50 cents,

Illuminated Crest Stationery

-for those who prefer an initial stationery, has an artistic finish and high quality that makes it distinctive and different from most other initial stationery.

It suits best those who are hardest to please. Each sheet is die-stamped with a graceful initial in gold and sepia, as illustrated.

Any initial, with envelopes, 50 cents a guire.

These low prices are possible only because the more than 7,000 Rex all Druggists-one in each of the principal cities an drowns in the United States, Canada and Great Britain-bu ytogether in such immense quantities as to be able to get the lowest possible prices. It is an advantage to you to buy stationery at

COUNTRY EDUCATION.

Our farmers are not making the progress they ought to make. They are moving forward, but slowly. The landlord may be better off than he was twenty years ago, but, how about the tenants? Are they on a stand still, or improving? The land and well regulated industry are the great assests of the farmer. The best land ir the country, without wise management, will pay nothing.

In order that labor may be remunerative, there should be educated farmers. We do not mean that they should understand Greek . and the higher mathematics, but, they should know enough to read and understand best books and papers bearing on their special work. They should be wise enough to apply the knowledge thus gained. We do not mean by that in the primary schools, the small children should be taught the principles of agriculture, the analysis of soils and value of fertilizers. What your small children should learn up to the age of fifteen, is how to read and spell, well, and to express themselves clearly in writing. They should learn how to use the dictionary and maps. Let vocational training alone. There will be time enough for that later. Give them fairy tales, story books, books of trave' and even good novels. That is the sort of education needed by your clildren. That will lay the foundation for professional life or business of any sort. Some of our teachers get the idea of vocational training in their heads and there is no room for any thing else.

Your children in the rural homes need the same instructions given to town children, and they are generally ready to receive it. It is better to turn over to the girls some good niagazines and story books, than wise book on domestic science. Let the boys read the Arabian Nights, books of travel and adventure accounts of the great battles of

THOUGHTS IMPROVE HEALTH

Strong Positive Thoughts of Cheerfulfulness Conducive to Good Health.

In the November Woman's Home Companion, Ralph Waldo Trine, writes a most suggestive article entitled "Thought as a Force in Daily Living." Following is an extract:

"The type of thought we entertain has its effect upon our energies and to a great extent upon our bodily conditions and states. Strong, clear-cut. positive, hopeful thought has a stimalating and life-giving effect upon one's outlook, energies, and activities; and upon all bodily functions and powers. A falling state of the mind induces a ckronically gloomy outlook and produces inevitably a falling condition of the body. The mind grows, moreover, into the likeness of the thoughts one most habitually entertains and lives with. Every thought reproduces of its kind

"Says an authoritative writer in dealing more particularly with the effects of certain types of thoughts and emotions upon bodily conditions: 'Out of our own experience we know that anger, fear, worry, hate, revenge, avarice, grief, in fact all negative and low emotions produce weakness and disturbance not only in the mind but in the body as well. It has been proved that they actually generate poisons in the body, they depress the circulation; they change'the quality of the blood, making it less vital; they affect the great nerve centers and thus partially paralyze the very seat of the bodily activities. On the other hand, faith, hope, love fogiveness, joy and peace, all such emotions are positive and up-lifting, and so act on the body as to restore and maintain harmony and actually to stimulate the circulation and nutrition.'

"The one who does not allow himself to be influenced or controlled by fears or forebodings is the one who ordinarily does not yield to discourthe agements. He it is who is using the positive, success-bringing types

DOES MOUNTAINS INJUSTICE.

Macon County Publication Reflects ca North Carolina History.

Some one has sent us a copy of the Mountain School Herald, published by the Cowee Mountain School at Leatherman, Macon county, but bearing an imprint that shows that it is printed in Berrien Springs, Mich., says the News and Obcerver. Being printed in another State and probably edited by an individual who has never visited North Carolina and who is ignorant of its history, the magazine is like most others of its class in failing to reflect conditions in this State faithfully. In its original articles as well as the seloctions which it publishes and evidently approves the Mountain School Herald is as unjust to this State as might be expected of it in view of the circumstances under which it is published and in fact is much more so than would ordinarily be supposed possible.

Here is a specimen paragraph from an article by George Fitch in the Jackson Patriot, of Jackson, Mich., and quoted without comment in the Leatherman-Berrien periodical:

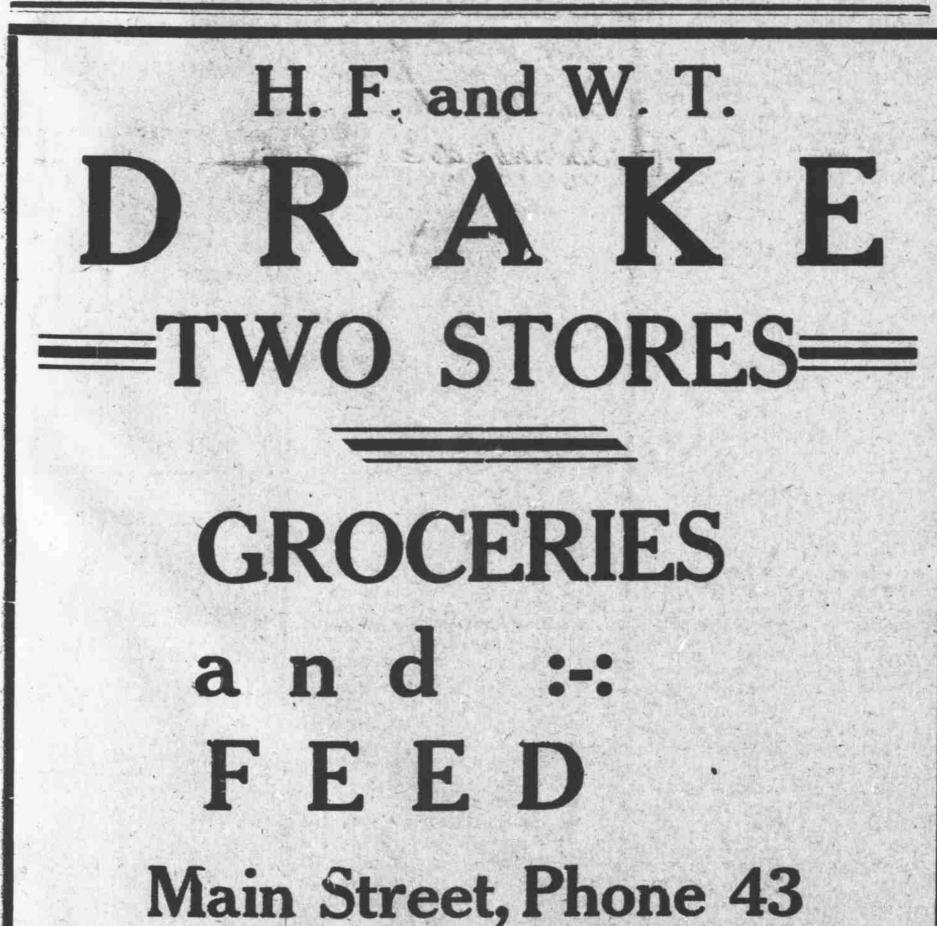

North Carolina was settled 250 years ago and has remained calm and placid ever since, not even getting into the Civil War to any extent. It took a prominent part in the production of eraly patriots, turning out Andrew Jackson, Andrew Johnson and James K. Polk. Its only feat in the last 100 years, however, has been the production of Uncle Joe Cannon. It is a peaceful hook-wormy State whose only diversion is to send a Republican to Congress every now and then and watch Cornelius Vanderbilt try to farm his little patch of ground at Biltmore with a gold-mounted plow and imported horseflies."

The curious thing to us is that the Northern people who interest themselves in the people whom they choose to designate "the mountain whites" should feel so plainly disposed to reflect on the people of the State generally. It would be a breach of good manners if they were to say the disagreeable things about the State that the tre (that there are some of these all candid Carolinians will admit). tive type of thought are continually But that these self-constituted mentors of the State should write and speak out of malice and ignorance 19 still more difficult to understand. Their ignorant and insolent comment reveals the existence of narrow and shrivelled souls such as we of the South are not accustomed to encounter and the existence of which we should find it hard to credit did we not come across the unmistakable evidence as found in such articles as those we have quoted from the Jackson (Mich.) Patriot by way of the Mountain School Herald.
