While Monroe was selected for the meeting place next year, Greensboro served notice that it would make a bid for the 1919 conference. Bishop Atkins prefaced the reading of appointments with a short talk in which he stressed the importance of the work of a Methodist preacher, and told of his own work in the church.

TUBERCULOSIS WEEK.

December 2-9 Set Apart for Serious Consideration of a Serious Problem

The first week in December is Tuberculosis Week. These eight days, from the 2nd to the 9th, have been set apart for giving serious consideration to a serious problem. "How to Handle the Tuberculosis Problem in Connection with the War" will be the principal topic to be discussed and acted upon during the days of observance.

Instead of observing every day of Tuberculosis Week, it has been decided by the National Tuberculosis Association to concentrate all energies on three days. These will be Medical Examination Day, Thursday, December 6; Modern Health Crusade Day, Friday December 7; and Tuberculosis Sunday which will be observed in North Carolina, December 9.

The Bureau of Tuberculosis at the State Sanatorium is sending literature and letters to 3,200 preachers in the State urging upon them the importance of stressing from the pulpit this question that so vitally affects every phase of the nation's well-being. The press is being asked to publish on Tuberculosis Sunday Rauschenbush's Tuberculosis Prayer which soulfully expresses the will of the worker in regard to "this slow death that creeps from man to man."

ARTILLERY BATTALION GOING TO THE RANGE.

The first battalion of the 105th field artillery (the old 2d) will leave this morning for the artillery range near Glassy Rock, says the Spartanburg Herald to begin the installation of the targets to be used in the artillery practice. It is hoped to have the entire artillery brigade at long range practice within the next two weeks.

A battalion of the 105th infantry has been on the range for the past week digging the necessary rifle pits and trenches for small arms practice, and will have the work completed in a few days. The rifle practice will begin next week, it is thought.

When the target practice begins the population of Camp Wadsworth will be depleted for the time being. A regiment of infantry will be on the range at a time, and the entire brigade of artillery may be working out at the same time.

A supply depot will be established at Landrum station, which is about 3 miles from the range so there will be an ample supply of rations and ammunition on hand at all times.

The artillery firing is being looked forward to with a great deal of interest by everybody.

WAGING WAR ON GERMANS.

Major Pateman, in command of the first battalion of the 105th infantry, stationed at Glassy Rock for use, had an interview with one of the mountaineers of the vicinity.

"What are you folks doing up here, anyhow?" the mountaineer asked.

"Why, we are at war with Germany," replied the major.

"Well, you picked a fine day for it, at any rate," was the mountaineer's comment.—Spartanburg Herald.
