

People and Events

The Hustler would appreciate items of news for this or any other department of the paper when mailed, brought in person or telephoned.

R. H. Mastus of Virginia is visiting his wife in Hendersonville.

Leon Trice of Spartanburg visited his people in the city last week.

Miss Juno Israel is visiting in Ruthersford.

S. Creasman, manager of the Spartanburg branch of the local laundry, was in the city Sunday.

Cari Jackson has returned from Spartanburg, where he has been employed by the local laundry plant.

Mrs. Waddell will entertain the U. D. C. on the first Wednesday in February at her apartments at the residence of Mrs. W. J. Davis.

C. E. Brooks, vice president of the Citizens National bank, returned from Raleigh on Wednesday after attending a meeting of the executive committee of the North Carolina Bankers association.

Miss Leona Allen of the firm of W. H. Hawkins & Son, attended the meeting of the North Carolina Optometric society in Greensboro this week and press dispatches stated that "Dr. Leona Allen" constituted the membership committee in the committee appointments.

Dr. L. B. Morse has been advised that his nephew, Morse Shreve, former resident of Hendersonville, won first place among fifteen men in an examination for pilot in the aviation corps, which department he will enter for training. Mr. Shreve is in Michigan.

Noted Pianist Coming to Fassifern.

Frances Nash, the celebrated young American pianist who plays at Fassifern school on January 29 at 4 o'clock, attained a most enviable position in the artistic world in two brief seasons.

Miss Nash has appeared with the Poston Symphony Orchestra, the Min-Y. Philharmonic Orchestra, the Minneapolis Symphony Orchestra, the Kansas City Symphony Orchestra, the St. Louis Symphony Orchestra, the

Tri-City Symphony Orchestra, the Detroit Symphony Orchestra, the Milwaukee Symphony Orchestra. Bookings for the current season mark her return to several of the foregoing. The admission will be 50 cents.

Fassifern students had an unusual opportunity for musical enjoyment in the piano recital of Stojowski's talented artist-pupil, Phillida Ashley Smeringham. The program, beginning with the Sonata Appassionata of Beethoven, called for all the qualities of genius, temperament, sympathy, understanding, musicianship, technique in its broadest sense, and, with a generous endowment of these gifts, the young pianist triumphed. The Chopin group was in fine contrast and admirably given. Perhaps the Maszowski Etude was the most brilliant of the last group of modern pieces, of the theme and variations in A by Paderewski was the most delightful.

Jackson-McAllister. Miss Bernice Jackson was married on Wednesday afternoon at the home of her father, Brownlow Jackson, to A. P. McAllister of Lumberton, N. C.

The wedding was simple and impressive. Only immediate friends of the family were present. Dr. W. F. Powell of Asheville performed the ceremony and Mrs. C. J. Valley played Mendelssohn's wedding march.

The bride wore a going away gown of taupe broadcloth.

The home was tastefully decorated in white and green for the occasion.

The bride has been with her father since coming home at Christmas from Richmond, Va., where she was superintendent of the Hygiene hospital.

Mr. McAllister is secretary-treasurer of the National Cotton Mill company of Lumberton.

Mr. and Mrs. McAllister left shortly after ceremony and will make their home in Lumberton.

CLASSIFICATIONS MADE BUT NO EXAMINATIONS

Although the local examination board has finished making classifications the registrants have not been summoned to appear for physical examination but they will soon undergo the physical tests.

14 ELEMENTS OF WORLD PEACE OUTLINED BY PRESIDENT WILSON TO CONGRESS LAST WEEK

Washington, Jan. 22.—President Wilson, addressing congress, delivered a restatement of war aims in agreement with the recent declaration of the British premier, David Lloyd-George.

The president presented a definite program for world peace containing 14 specific considerations.

Why We Entered the War.

"We entered this war because violations of right had occurred which touched us to the quick and made the life of our own people impossible unless they were corrected and the world secured once for all against their recurrence. What we demanded in this war, therefore, is nothing peculiar to ourselves. It is that the world be made fit and safe to live in; and particularly that it be made safe for every peace-loving nation which, like our own, wishes to live its own life, determine its own institutions, be assured of justice and fair dealing by the other peoples of the world as against force and selfish aggression. All the peoples of the world are in effect partners in this interest, and for our own part we see very clearly that unless justice be done to others it will not be done to us. The program of the world's peace, therefore, is our program; and that program, the only possible program as we see it is this:

Program of World Peace.

"I—Open covenants of peace, openly arrived at, after which there shall be no private international understandings of any kind but diplomacy shall proceed always frankly and in the public view.

"II—Absolute freedom of navigation upon the seas outside territorial waters, alike in peace and in war, except as the seas may be closed in whole or in part by international action for the enforcement of international covenants.

"III—the removal, so far as possible of all economic barriers and the establishment of an equality of trade conditions among all the nations consenting to the peace and associating themselves for its maintenance.

"IV—Adequate guarantees given and taken that national armaments will be rendered to the lowest point consistent with domestic safety.

"V—A free, open-minded, and absolutely impartial adjustment of all colonial claims based upon a strict observance of the principle that in determining all such questions of sovereignty the interests of the populations concerned must have equal weight with the equitable claims of the government whose title is to be determined.

"VI—The evacuation of all Russian territory and such a settlement of all questions affecting Russia as will secure the best and freest co-operation of the other nations of the world in obtaining for her an unhampered and unembarrassed opportunity for the independent determination of her own political development and national policy and assures her of a sincere welcome into the society of her own choosing; and, more than a welcome, assistance also of every kind that she may need and may herself desire. The treatment accorded Russia by her sister of the acid test of their good will, of their comprehension of her needs as distinguished from their own interests, and of their own intelligent and unselfish sympathy.

"VII—Belgium, the whole world will agree, must be evacuated and restored, without any attempt to limit the sovereignty which she enjoys in common with all other free nations. No other single act will serve as this will serve to restore confidence among the nations in the laws which they have themselves set and determined for the government of their relations with one another. Without this healing act the whole structure and validity of international law is forever impaired.

"VIII—All French territory should be freed and the invaded portions restored, and the wrong done to France by Prussia in 1871 in the matter of Alsace-Lorraine, which has unsettled the peace of the world for nearly fifty years, should be righted, in order that peace may once more be made secure in the interest of all.

"IX—A readjustment of the frontiers of Italy should be effected along clearly recognizable lines of nationality.

"X—The peoples of Austria-Hungary, whose place among the nations we wish to see safeguarded and assured, should be entered into.

"XI—The Turkish portions of the present Ottoman empire should be assured a secure sovereignty, but the other nationalities which are now under Turkish rule should be assured an undoubted security of life and an absolutely unmolested opportunity of autonomous development, and the Dardanelles should be permanently opened as a free passage to the ships and commerce of all nations under international guarantees.

"XIII—An independent Polish state should be erected include the territories inhabited by indisputably Polish populations, which should be assured a free and secure access to the sea, and whose political and economical independence and territorial integrity should be guaranteed by international covenant.

"XIV—A general association of nations must be formed under specific covenants for the purpose of affording mutual guarantees of political independence and territorial integrity to great and small states alike.

"We Stand Together."

"In regard to these essential rectifications of wrong and assertions of right we feel ourselves to be intimate partners of all the governments and peoples associated together against the imperialist. We cannot be separated in interest or divided in purpose. We stand together until the end."

FARMERS SUFFER

Washington, Jan. 22.—Measures to check competition for labor between the war industries and government agencies have been taken by the department of labor. This was announced today after a delegation of Virginia truck growers, headed by Representative Holland, had called on Assistant Secretary Post with a protest that the farmers would lose a million bushels of potatoes this year, if the enticement of farm laborers by industrial concerns were permitted to continue.

SOLDIERS LEAD CLEAN LIFE

Washington, Jan. 22.—There has never been a stiffer body of men to lead as clean lives as the American soldiers in France. General Pershing said in a cablegram today to Secretary Baker in reply to inquiries as to the truth of reports of immoderate drinking among the men.

Big Bank Deposits.

Washington, Jan. 16.—The deposits of the eighty national banks in North Carolina have more than doubled within five years, according to an exclusive statement obtained today from Comptroller of the Currency John Skyles Williams. The deposits on November 30, 1912, were \$49,190,000, while the deposits for November 30, 1917, showed a total of \$99,070,000. The comparative statement of the principal items of deposits and liabilities for the five years ended indicates that national banks in North Carolina have realized a phenomenal growth.

Want Railroad Control Limited.

New York, Jan. 13.—Railroad executives representing 177 roads and ninety per cent of the mileage in the United States, at a conference held here today to consider plans for safeguarding the interests they represent while under federal management, decided to ask congress to limit government control to the period of the war.

Change War Ministry.

Washington, Jan. 17.—Framing of legislation contemplating drastic changes in the government's war ministry, including creation of an American war council similar to those of England and France, and a director of munitions, was begun today by the Senate Military committee.

Coal to War Transports First.

Washington, Jan. 14.—Ships transporting supplies to Europe were added by Fuel Administrator Garfield tonight to the list of essentials that must be supplied with coal. They were put ahead even of war industries, after reports came to the fuel administration that a million tons of shipping is held at New York for lack of bunkers.

Speech Pleased Canada.

Washington, Jan. 11.—The war aims of Canada, as well as of the United States, were given to the world in President Wilson's recent address to congress, the Duke of Devonshire, governor-general of the dominion, declared in a speech tonight before the National Press club.

Enlarged Cabinet Not Wanted.

Washington, Jan. 11.—Congressional plans for creating a separate department of munitions with a new cabinet officer at its head meet no favor at the white house.

Neutrals Exempted.

Washington, Jan. 11.—Citizens or subjects of European neutral countries, regardless of whether they have taken out first papers for American citizenship, will be freed from liability to military service in the United States if they appeal through their diplomatic representatives here.

Carranza Busy.

Washington, Jan. 11.—Increased international interest in Mexico's affairs has followed the receipt here of unofficial information that President Carranza again is considering a plan to drive Manuel Palaez from the control of the Tampico oil fields. Private reports forecast an early resumption of military against Palaez, but there also is information indicating that the Mexican government is attempting to deal with the situation through political changes.

Buy a \$100 Typewriter for \$49.00!

We are agents for the celebrated, Oliver No. 9 Typewriter and can sell you the regular standard machine right from the factory at a saving over the old prices of \$51.00. The new machine fully equipped is now offered at the price of \$49.00. Let us order you one now.

Plenty of Coal.
Indianapolis, Ind., Jan. 16.—Leaders among the fifteen hundred delegates attending the biennial convention of the United Mine Workers of America expressed sympathy today for people and business interests suffering from fuel shortage. As serious as the situation is the miners say that they feel they have done all that is possible under present conditions to relieve the situation.

"The trouble is with the railroads," said John P. White, former president of the Miners Union, who is now associated with National Fuel Administrator Garfield as labor adviser. Mr. White, who is a delegate, said: "It is not a question of production. There is plenty of production, but the railroads cannot move the coal that is mined."

CALENDAR AT THE EAST HEN-DEPSONVILLE BAPTIST CHURCH
Sunday school at 9:45 a. m., includes Baraca, Philathea and Junior Philathea classes.
Preaching each Sunday at 11 a. m. and 7:30 p. m., by the pastor, C. S. Blackburn.
