BAT CAVE.—J. H. Slaughter, representative of the Newport Metal Culvert company, was the guest of friends here recently. Mr. and Mrs. Frank Hudgins visited their relatives, Mr. and Mrs. Joe Williams, and family, near Hendersonville on Sunday. Bat Cave was well represented at the lecture delivered at Fruitland on Sunday morning by John D. Beveridge, who is on a lecture tour in the interest of the Red Cross and War Savings Stamps. Among those in attendance were Mr. and Mrs. A. E. Hudgins, Messrs. Wythe Peyton, Harry Peoples, Wyman Wilson and B. F. Freeman, Jr.

John Sumner, Jr., is suffering with a badly bruised arm. W. J. Huntly is seriously ill at his home at Bear Wallow. Glenn Freeman was in Hendersonville Tuesday. Jim Sumner was in Asheville for a couple of days last week. Ned Finley has decided on a site for the studio he will build upon his return from New York. It will be located on a most picturesque spot across the river from Esmeralda Inn, and will command a view of Chimney Rock, Little Pisgah, Pilot Knob and Bald mountains. Mrs. B. F. Freeman, Sr., spent Sunday with her daughter, Mrs. Volleie Barnwell, in Edneyville. Misses Lotha and Parilee Dalton spent the week-end with their brother, T. Dalton of Dome. Alf Terriel Williams, the little son of Mr. and Mrs. Sam Williams of Gerton, is spending a few days with his grandmother, Mrs. J. Terriel Freeman.

A most enjoyable affair of last week was the Washington birthday party at which Misses Ruth Duvall and Carrie and Pauline Freeman were joint hostesses entertaining at the latter's home. The living room presented a most attractive appearance with its colonial furnishings and draperies, the soft glow of candles adding a pleasing effect. Old fashioned games were played and merriment held sway until the wee sma' hours. The costumes worn by the girls were typically colonial, and had George Washington stepped out of his portrait on the wall he would have felt that surely he had gone back to the good old colonial days. Among those enjoying the evening besides the hostesses were: Misses Blanche Hudgins, Martha Wilson, Lara Gillard, Gaunold, Lenal and Eva Dodson and Lee Gully, Allbright Birch, Claude

Freeman, Gaston Rhymer, Glenn Freeman, Harry Peoples, Wythe Peyton, Charles Ledbetter, Herbert Smyth, Cicero Wheeling, Grady Sumner and Wyman Wilson. Several cars were out from Hendersonville Sunday and every one seemed to be enjoying the balmy spring weather. Miss Carrie Freeman entertained a small party of friends at supper on Sunday evening. Wythe M. Peyton had the misfortune of having his right hand badly bruised a few days ago.

An enjoyable "negro minstrel" was held at Isola, the home of Scott Freeman, on Saturday evening. All those on the program acquitted themselves most creditably, and the guests thoroughly enjoyed their efforts. With the idea of "Safety First" uppermost in mind, Wythe Peyton is having rustic railings placed along the steeper banks on the Asheville-Charlotte highway. This will lessen the danger of cars going over the bank and will render automobilizing far safer and more pleasant than heretofore.

Mr. and Mrs. DeWitt Freeman entertained at a birthday dinner on Sunday. Their guests were: Misses Ruth Duvall, Belle, Pauline and Carrie Freeman and L. A. Enloe.

The latest movement in our village is the organization of a league for civil improvement to be known as "The Civic League." The first work that the league will do will be to help in beautifying the highway. They will plant vines and several varieties of flower seeds along-side the railings and by summer we expect to see a mass of bloom all along the way. The vines will not only be ornamental but useful as well inasmuch as they will keep the banks from washing away and thus keep the road in prime condition. There will be a called meeting of the Guild on next Saturday, at the home of Mrs. B. F. Freeman, Jr.

## FRUITLAND

Red Cross Workers Organize at Fruitland With Strong Branch; Annual Exercise of Literary Societies a Marked Success.

HENDERSONVILLE, R. 2.—The anniversary program rendered by the Phi and the Chi literary societies of Fruitland Institute in the school auditorium, Friday evening, February 22, was a great success. It was one of the best performances ever given by students here. Everett L. Hinds was president and Chas. W. Cohoon was secretary. Orations were delivered by J. E. Ridings and M. E. Lance. The following question was debated, Resolved: "That capital and labor should be compelled to settle their disputes in legally established courts of arbitration." The affirmative was upheld by Boyce Moore and Dare A. Wells while the negative was defended by A. G. Miller and H. H. Lance. The decision of judges, Rev. Benjamin Searge, Rev. A. I. Justice and Prof. W. S. Shiltie, was two to one in favor of the affirmative. The twenty-second of February is always an occasion for the return of former students and many were here this time. Among these were three who are now in the service of the nation, Oscar Bidby and Curtis Robin-

Sacked hulls mean convenience and economy

PUTTING Buckeye Hulls in sacks is just one of the important little things that have been done to make this roughage an improvement over the old style. This makes

easier to handle when putting them in the barn and easier to measure out when mixing feed. It keeps them clean and makes you help think of them as forage—not as bedding. Even though sacked, Buckeye Hulls sell for much less than loose old style hulls. It costs you money to sack them but we believe that anything that will help you use this product to best advantage is worth the expense.

### Other Advantages

Buckeye Hulls are free of lint which has no food value. 2000 pounds of real roughage to the ton—not 1500. Buckeye Hulls allow better assimilation of food. No trash or dust. They mix well with other food. They take less space in the barn. Every pound goes farther.

Kimbraugh Bros., Indianola, Miss., say: "We are using Buckeye Hulls and are very much pleased with them. We think they are superior to old style hulls."

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

### Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.
