

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is quicksilver and acts like dynamite on your liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati authority tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain. A small bottle of freezezone cost very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

SAYS LEMON JUICE WILL REMOVE FRECKLES

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

LUTHERAN SERVICES.

Sunday School every Sunday at 10 a. m., preaching services at 11 a. m. All services at the Community Club, next to the Library Building.

IMPORTANT NEWS THE WORLD OVER

IMPORTANT HAPPENINGS OF THIS AND OTHER NATIONS FOR SEVEN DAYS GIVEN

THE NEWS OF THE SOUTH

What is Taking Place in The Southland Will Be Found in Brief Paragraphs

Domestic.

The assertion that the late Victoriano Huerta, president of the de facto Mexican government, came to the United States after he was ousted from the presidency in the interests of the German government and with the intent to cause war between this country and Mexico, was made on the witness stand in Chicago by Gaston B. Means, of North Carolina, recently tried and found not guilty of the charge of murder in that state, during his testimony regarding an alleged second will prepared by the late J. C. King, husband of the woman Means was alleged to have killed.

Between fifteen thousand and eighteen thousand machinists, tool makers and apprentices, the majority of them employed on government work, were on strike at Newark, N. J., to enforce demands for higher wages, according to a statement made by C. F. Gibson, national organizer of their union.

The detail of soldiers who have been engaged in DeKalb county, Tennessee, in rounding up deserters and slackers for some weeks, have captured ten men thus far. Besides these three have been killed. It is stated that there are still nineteen deserters and slackers hiding in the hills of the county.

Lieut. Quentin Roosevelt, youngest son of Colonel Roosevelt, has been killed in an airplane fight, it is announced by a semi-official Havre News Agency dispatch. His machine fell in the enemy lines. General Pershing has wired Colonel Roosevelt, however, that the young man's death has not been affirmed. He may be a prisoner in the camp of the enemy.

The United States government is about to assume control of the entire medical profession in the United States to obtain sufficient doctors for the fast growing army, and, at the same time, to distribute those remaining to the localities or services where they are most needed for civilian work.

Two trainmen and two passengers were killed and between thirty and thirty-five persons were injured when the Kansas City-Florida "special" on the St. Louis and San Francisco railroad was derailed near Pickinger, Ark.

Washington.

Austria now knows that a million Americans are in the war zone in France, and is beginning to realize what American intervention in the war means. "The Americans are transforming the situation against which the entente found itself in a perceptible manner every day, not only from a political, but also from a military standpoint," an Austrian newspaper says.

Announcement is made by the navy department that the United States armored cruiser San Diego was sunk off the Long Island coast. This indicates that German submarines may again be operating in American waters. The cause of the vessel's destruction and the casualties that resulted are as yet unknown.

A dispatch from Point-o-Woods, N. Y., says: Survivors of the United States cruiser San Diego, sunk ten miles off Fire Island shortly before midday, July 19, declare that many members of the engine room crew must have been killed by the explosion which wrecked the warship. They were uncertain whether the vessel was struck from a torpedo or by a mine. The cruiser remained afloat thirty-six minutes after she was struck.

A wireless to the navy department says that heavy explosions heard are believed to indicate that some of the patrol boats which dashed to the air of the sunken San Diego had met a German submarine and are giving battle.

The largest crops of beans, sugar beets and peanuts ever known in the United States are in prospect for this year's harvest. Forecasts of production by the department of agriculture shows large increases in these crops.

The British steamer Carpathia was torpedoed in the Atlantic July 17, it is announced at the navy department. The vessel was sunk off the Irish coast outward bound. Three torpedoes were fired and all scored hits. The survivors were in the water two hours.

The Haitian council of state, acting in accordance with the powers given it under the new Haitian constitution, has unanimously voted the declaration of war upon Germany demanded by the president of the republic. Haiti is the twenty-second nation to declare war on Germany. Seven other countries have broken diplomatic relations.

Four hundred and fifty American-built battleplanes have been sent abroad or delivered at ports for shipment on July 5, the date of the latest complete official report reaching the war department.

Government control of the fixing of the price of the 1918 cotton crop would not be feasible at this time, President Wilson was told by Representative Lever of South Carolina, chairman of the house committee on agriculture.

The Franco-American offensive between the Aisne and the Marne has yielded thus far 17,000 prisoners and more than 360 guns captured by the allies.

The United States government has extended Italy another credit of one hundred million dollars; Belgium gets another bunch of nine millions.

The total credits to the allies now totals \$6,380,040,000.

Resumption of "lightless nights" inaugurated last winter to save fuel will again become effective. All outdoor illumination excepting street lights, will be discontinued Monday, Tuesday, Wednesday and Thursday in the New England states, New York, Pennsylvania, New Jersey, Delaware, Maryland and the District of Columbia, and on Monday and Tuesday of each week in the remainder of the United States.

European.

Admission is made in the German official communication that the allied troops broke into the German front infantry and artillery lines at "isolated" points between the Aisne and the Marne and forced back the German line.

Drouth, early frosts and labor shortage in England threaten to reduce somewhat previous estimates of food production. However, the food situation is described as better than last year.

General Pershing and General Bliss of the American army have been knighted by the British government—the former getting the grand cross of the Order of Bath and the latter the grand cross of the order of Sts. Michael and George.

From the region west of Soissons to the northwest of Chateau Thierry American and French armies have begun a strong offensive against the Germans, which possibly may have a marked influence on the future of the world war. The movement has been rewarded with great success in its initial stage.

To the Americans alone in the region west of Soissons came 4,000 prisoners, 30 guns and much war material. Additional large numbers of captives and further greater stores of guns, ammunition and other war necessities were taken by the French.

Nowhere, according to last accounts from the front, has the enemy been able to stay the progress of the allies.

The Japanese government has reached a decision for joint American-Japanese intervention in Siberia. The American proposals differed from those made by Great Britain and France.

Notable work has been done by the allied aviator during the progress of the new German offensive.

The allied air forces took an effective part in the actual fighting with their machine guns and aerial torpedoes, and constantly harassed the attacking columns of the enemy, as well as supplying information to the general staff.

It is accepted now that the long days of purely defensive allied operations are ended and that General Foch has decided to begin aggressive tactics. This is due largely to the incoming American soldiers.

Southeast of Villers Bretonneux, to the south of the Somme, the British line has been advanced on a front of more than one mile.

The British positions to the east of Hebuterne have been greatly improved, and the enemy driven back.

German prisoners taken by the British refused to believe that the Germans had not captured Rheims and Chalons.

In the pocket which the Germans have created south of the Marne, their losses have reached not less than sixty thousand in two days' fighting.

French Premier Clemenceau, who has just returned from the front, where he has been witnessing the latest German drive, expresses the greatest satisfaction with the progress of the allies.

Sergeant J. F. Brown, with the American army in the Champagne sector, is the hero of all France. He captured 159 prisoners and walked into American headquarters, sorry that two of them died on the way.

Fighting in the fields and woods in the present battle of the Marne is most unusual. Companies, platoons and even groups of two or three men are waging their own warfare in clearing out the terrible Huns.

German air raiders bombed an American Red Cross hospital at Jouy, killing two men and injuring nine persons, including Miss Jane Jeffery.

The Japanese battleship Kawachi, of 21,420 tons displacement, blew up and sank in Tokoyama bay, 150 miles to the northeast of Nagasaki, on July 12, and five hundred members of the crew lost their lives.

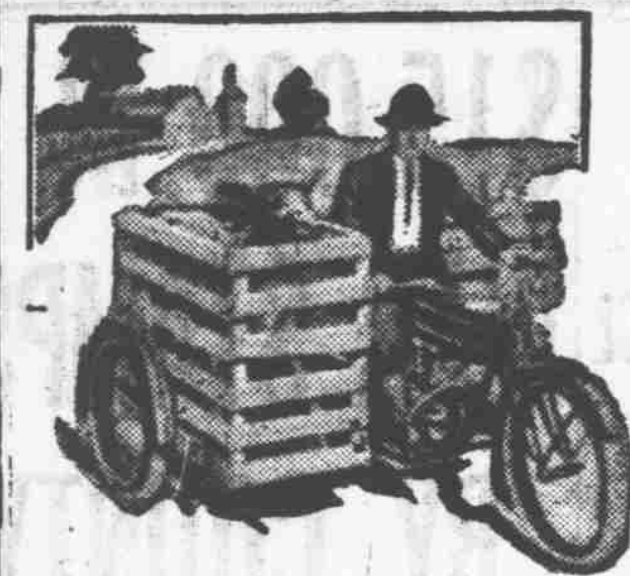

Comparatively large forces of Americans have been engaged, especially in the region of Descrievre, where they were brought up to support the attacking French. Within a short period the Americans were hotly engaged in the fighting.

West of Chateau Thierry, between Vaux and Hill 204, the enemy launched a small local attack against the American forces, but was speedily beaten off with losses. This operation subsided quickly and the enemy contented himself with the laying down of the heaviest bombardments over the positions, which availed nothing.

NOVEL USE FOR MOTORCYCLE

Missouri Farmer Converts Vehicle Into Quick-Delivery Machine for Marketing Products

Quite an unusual employment is made of a motorcycle and sidecar by a Missouri farmer and stockman who has converted the vehicle into a quick-delivery machine for carrying certain products to market. By securely fastening a crate over the rear wheel and

Rapid Transit to Market.

placing another on the chassis of the sidecar, he is able to transport a considerable load with dispatch and without particular difficulty. His country place is more than 30 miles from St. Joseph, but with this delivery van he recently carried a calf and a dozen chickens to market and returned within a few hours' time.—Popular Mechanics.

GOOD MATERIALS FOR MULCH

Ashes, Leaves, Straw, Evergreen Boughs and Clippings Mowed From Lawns Are Valuable

There are many materials which are valuable for mulching. Ashes, leaves, straw, evergreen boughs and clippings, grass mowed from the lawn, rotten manure, bark, half-rotten wooden chips raked up at the base of the out-of-door woodpile, pine needles from the woods, marsh hay, charred peat and stones are among the materials which can be used.

Stones are valuable laid above the rooting portion of layered slips. Evergreen boughs, coarse manure and dry litter suit hyacinths. Lilies receive a mulch of ashes with favor and well-rotted manure is a benefit to peonies, for it can be worked into the soil in the spring.

SUCCESS IN TURKEY RAISING

Proper Selection of Breeding Stock is of Great Importance—Some of Desired Qualities.

One of the most important steps toward success in turkey raising is the proper selection of breeding stock. Birds for breeding should be selected for vigor, size, shape, strong bone, early maturity, and color of plumage.

Cause of Despondency.

Despondency is often caused by indigestion and constipation, and quickly disappears when Chamberlain's Tablets are taken. These tablets strengthen the digestion and move the bowels.—Advertisement.

ADMINISTRATRIX'S NOTICE.

Having qualified as administratrix of the estate of Edward Posey, deceased, all persons having claims against said estate are hereby notified to present them to me on or before the 22nd day of June, 1918, or their recovery. And all persons indebted to the estate will please make prompt payment to me. This the 20th day of June, 1918. MRS. HATTIE POSEY, Administratrix.

Are You One of Them? There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach. Are you one of them? Mrs. M. R. Searl, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle honestly and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.—Advertisement.

How Tire Prices Battle War Costs

HERE is new light on tire prices, old and new. War has sent all prices higher.

But Goodrich Tires have responded least to the rise.

A glance at Goodrich tire prices for nine years reveals a pleasing surprise to tire users.

Goodrich tires are not costly for war times, or any other time.

This year's increase of Goodrich tire prices is far below general price increases.

You can buy Goodrich tires 35 per cent less than you paid for tires nine years ago.

And remember with Goodrich prices you get the sure, full value service of GOODRICH SERVICE VALUE TIRES.

That is, the maximum of easy riding comfort, gasoline economy, and prolonged mileage—in service on your car and on the road.

It is good war economy to buy GOODRICH SERVICE VALUE TIRES.
