A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.- Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regalar until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when well saves a lot of days in bed."

Thedford's Black-Draught has been in the for many sears in the freshment of stomach, fiver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

WURK OR FIGHT ORDER
EXTENDED BY DRAFT PLANS

WASHINGTON.—In asking Congress to fix the new draft ages at 18 to 45 inclusive, the war department opens the way for a sweeping extension of General Crowder's "work or fight" order.

It is safe to predict that when the new draft law becomes operative many thousands of men must change their occupations. Industry is to be divided along essential and non-essential lines and the division is to be the sharper because of the millions of men affected by the draft changes.

Secretary Baker in confirming the report that the administration had finally decided upon the ages 18 to 45 emphasized the point that no conscription of labor is intended. He does admit, however, that the "work or fight" order will be applied under the new draft and this gives the war department virtual control over the activities of all eligibles between the two ages.

These men will be compelled to find places in essential industries or go to the front. While there is to be no "conscription of labor," the new law will make it possible for the war department to take the 40-year-old proprietor of a pool room and put him in a munitions factory or in the trenches, or to force a waiter or chauffeur who is 45 years old to go to work on a farm.

"When a man tells you to hough at trouble," said Uncle Eben, "he always means must troubles am not his."

Arabian literature, had it not suffered mutilation, would have remained a treasure house for the scholars of all lands. The disastrons fire at the Escurial, in 1671, probably inspired by bigotry, by which 3,000 volumes, mostly Arabian chronicles, were destroyed, was probably a greater loss than the burning of the Alexandrian library, caused by the Mohammedans.

NEW DRAFT AGE LIMIT BIGHTEEN, TO FORTY-FIVE.

Washington-Draft ages of from 18 to 45 years has been recommended to congress in the bill embodying the war department's new man power program which was introduced in both houses of congress Monday and expedited by committees with a view to prompt consideration when regular sessions of the senate and house are resumed late this month. After formally announcing the new draft ages, Secretary Baker said all the possible combinations of age limits were carefully studied and it was found that | in order to get the men into classes one for the the program proposed, 18 to 45 was necessary. He said, however, that the bill as recommended to congress will contain a provision au-Thorizing the president to call men out of class one by classes according to ages, so that if it is found possible the men between 18 and 19 will be called out later than the older men who are found eligible to class one.

In making up the list and classes, the same rule will be followed that was governed in the first draft, with the same exceptions from the first call of married men with dependents and those engaged in essential industries.

ALLIES RESUME DRIVE ON WESTERN FRONT.

Paris—Allied troops celebrated the fourth anniversary of the war by a victorious resumption of the offensive to the surprise of a great many who believed the battle had entered into one of its periodical lulis.

Incidentally the official statement on the toll of prisoners—more than 33,000—brings out forcibly the extraordinary change in the situation a phort month has effected.

Summer Complaint During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept at hand. Mrs. F. F. Scott, Scottsville, N. Y., states, "I first used Chamberlain's Colic Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One does relieve me. Other members of my family have since used it with like results.'
