The following case is but one of many occurring daily in Hendersonville. It is an easy matter to verify it. You cannot ask for better proof. C. H. Edney, blacksmith, Houte No. 2, says: "Some time ago I had a lot of trouble with my back and kidneys. My kidneys acted irregularly and the secretions were highly colored and full of sediment and caused a scalding sensation in passage. My eyes would blur, I would get dizzy and my head ached a good deal and I felt tired and run down. Hearing of Doan's Kidney Pills, I got a supply and felt better right away. Continued use entirely cured me."

CLIP THIS AND PIN ON WIFE'S DRESSER

Cincinnati man tells how to shrivel up corns or calluses so they lift off with fingers.

Ouch ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezezone tell him to order a small bottle for you.

WOMAN'S LEAGUE DOES FINE WORK FOR SOLDIERS

The local chapter of the "Woman's National League for Service" is doing a great deal for the comfort of the boys in the hospitals.

Two large boxes, containing quilts, pillows, convalescent cushions, etc., have been sent recently to the Committee in Washington, and another shipment will be made soon.

WHAT THE BOND CAMPAIGN MEANS; PURPOSE OF BONDS; IMPORTANCE OF BUYING

The campaign for the Fourth Liberty Loan is going on vigorously. In many places, a flying start has been made. Patriotism and business sense combine to make the investment attractive. Every person who has, or can save, the money ought to buy Liberty Bonds; and our people are steadily learning to realize that this is true.

Throughout the country a very vigorous campaign will be carried on throughout the whole period, which is a short one. We have no doubt that the campaign will be successful. All that is necessary is to make people realize the facts, and when that is done there will be no further trouble. If every man and woman in the country realized the facts, no campaign would be necessary; the loan would be oversubscribed in 48 hours.

Some of the facts, of course, are known by almost everybody; but other facts are still unrecognized by many people.

Any person who thinks at all is bound to see that, with taxes what they are, (and especially with taxes what they are likely to be), 4 1/2 per cent interest, free of taxes, is a good proposition. Also, it is quite evident that, if the loan is easily subscribed the Germans will be discouraged and to that extent the war will be shortened; whereas, if there is any trouble in floating the loan, Germany will be encouraged and to that extent the war will be prolonged. Furthermore, it should be quite evident that the war is going to be financed somehow, and the Government will have to take by taxation enough to make up for any shortage in loans.

These facts are plain enough. But there are some people, who, while they recognize these facts, are willing to depend upon the other man to do the lending. Such people do not realize the magnitude of the task.

If the war is to be financed without disaster, everybody must help. The amounts needed are too great to be supplied by a few. This war is costing this country in one year very much more than the total expenses of our Government for the first century and a quarter of its existence. The whole energy of the whole nation is needed to support this great and important undertaking.

Then there is another point that is very frequently overlooked; and that is the purpose for which the Government needs this vast amount of money. That purpose is to buy certain things, such as food, clothing, arms, ammunition and transportation. These things may be summed up in two words—labor and material. If the Government had the labor and material, it wouldn't need the money; and the money is

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

entirely useless except in so far as it can purchase labor and material. The purpose of these Liberty Bond issues is not merely that we should lend money to the Government, but also that we should, as far as possible, lend this money out of savings, in order that there may be material available at reasonable prices. In that way we shall help to give a purchasing power to the money which we lend.

If by special effort we do without certain things which we would buy in ordinary times, we not only save money which we can lend to our Government, but we also turn loose a certain amount of labor and material. Thus, we render a double service. But if, for our own indulgence, we buy things that we can do without, we not only have that much less money to lend, but also we are practically bidding against the Government in the open market and making Uncle Sam pay extra prices for the labor and material which he needs to win the war.

If anybody buys gasoline for unnecessary joy-riding, or buys unnecessary clothing or furniture, or consumes food beyond what is needed to maintain health and strength, that person is using unnecessarily a part of the limited supply of labor and material and is thereby bidding against Uncle Sam and helping to cause ruinously high prices. Such conduct tends not only to prolong the war but also to bring about an era of very heavy taxation after the war.

Every Liberty Bond or Thrift Stamp that is bought out of money saved, by abstaining from luxuries, is rendering a double service to our country.

J. When You Fight--Fight

FIGHT as these American soldiers fought in the streets of Fismes. "They covered themselves with glory," the papers say. Of course they did—they are Americans.

They met the finest of the enemy's troops in a terrific hand-to-hand struggle. They used their guns—their bayonets—their bare fists. Every American soldier went after his man desperately, fearlessly, persistently, with one great driving purpose—to whip that Prussian Guard, to silence its machine guns—to win!

It's a pretty good way to fight—this American way. It wins battles over there, it will win a splendid victory over here—if we fight when we fight—if we buy Liberty Bonds to our utmost.

When you fight—fight! When you buy—buy!
