ly, because it puts the State's affairs on a business-like footing. Be it said to the credit of this Legislature that no time was lost even debating this proposition. The bill was passed as a matter of course.

8. Dogs and Sheep. A dog law was passed which will prove the salvation of the sheep industry of Western North Carolina. Under it dogs are taxed but the most important feature of the law is the provision requiring owners to keep dogs up at night.

9. Agriculture. The most important measure relating to the agricultural interests of the State was the bill appropriating \$250,000 for a new building for the State Department of Agriculture. Other minor laws were enacted tending to strengthen and increase the efficiency of this Department.

10. The Unfortunate Child. A bill to protect the rights of the illegitimate child means much to society. Its results will be far-reaching. Under this new law the father of such a child is required to support and educate it. The effect of the law is obvious.

11. League of Nations. Last but by no means least important was the action of the General Assembly endorsing the League of Nations and backing up President Wilson in his efforts to establish such a League. The Legislature even went so far in support of Mr. Wilson as to endorse the particular Constitution of the League of Nations which he brought back with him from Europe.

This is the record. It speaks for itself. It declares its own glory, taken as a whole, represents a magnificent achievement in line with the best thought of North Carolina. The highest compliment that can be paid to Governor Bickett just now is that every measure mentioned in the foregoing summary of important legislation was specifically recommended by him in his Biennial Message to the General Assembly of 1919. And he didn't go to sleep at the switch.—Winston Journal.

The KITCHEN CABINET

A knuckle of ham in soup gives a zest and flavor to the dish, but more than one serves only to spoil the potage.—Smollet.

LET US CAN WHAT WE CAN.

Olive Oil Pickles.—Take a hundred medium-sized cucumbers, sliced thin, leaving the peeling on, add two large onions sliced, place in layers and let stand over night in one cupful of salt. Drain and add one-fourth pound each of white mustard seed and black mustard seed, two tablespoonfuls of celery seed, a pint of olive oil and enough good vinegar to cover them well. Seal in fruit jars and keep in a cool place.

Beet Relish.—Chop one quart of cooked beets, add a quart of chopped cabbage, two cupfuls of sugar, a tablespoonful of salt, a teaspoonful of pepper, half a teaspoonful of cayenne and a cupful of grated horseradish; add enough vinegar to make it of the right consistency and can at once.

To Can Corn Without Cooking.—Take nine cupfuls of corn cut from the cob, fresh from the field, add one cupful of sugar, one-half cupful of salt and one cupful of water. Mix and stand until the salt and sugar are well dissolved. Then can in sterile cans. Freshen before using.

Mustard Pickles.—For those who like a cucumber pickle with a slight flavor of mustard, the following will be enjoyed: Take a gallon of good vinegar, add to it a cupful of dry mustard mixed with half a cupful of salt. Drop the cucumbers daily as they are picked into this mixture until the vinegar will not cover them. They will be ready to eat in a week.

Ripe Tomato Pickle.—Take three pints of ripe, peeled and chopped tomatoes, one cupful of chopped celery, four tablespoonfuls of chopped red pepper, four tablespoonfuls of chopped onion, four tablespoonfuls of salt, six tablespoonfuls of sugar, a half teaspoonful each of clove and cinnamon, one teaspoonful of grated nutmeg, and two cupfuls of vinegar. Mix well and keep covered. It will keep for a year, and is ready to use, after mixing, in a week.

Oldtime Fire Alarms. Fire alarms came into use in medieval times. It was the custom in many of the towns to have a watchman stationed on a high building whose duty it was to look for fires. As soon as he saw one he gave warning by blowing a horn, firing a gun or ringing a bell.

The parlor was beautifully decorated with growing plants, galax leaves, hemlock, bowls of yellow daffodils and lighted by candelabras.

Preceding the ceremony, "Waiting for You," was sung by Mrs. A. B. Drafts. This was followed by Lohengrin's Wedding March and during the ceremony "Traumerel," was softly rendered by Mrs. M. C. Toms at the piano.

The bride wore a handsome traveling suit of navy blue cloth with accessories to match and a corsage of white sweet peas. She entered the parlor with her father and was met at an improvised altar by the groom and his best man, W. H. Crews, of Spartanburg, S. C.
