Match Scratcher.
 Save the strip of sandpaper that comes on the match boxes and tack on jamb of door with tiny Swede tacks; or strips of sandpaper may be cut five inches long and three-eighths inch wide. Place a tack at each end and one in the middle. This will not interfere with opening and closing of door, and will save steps in running back to get another match.

Antique Furniture.
 Those who possess pieces of antique furniture should devote personal attention to them, and especially to any of old oak, which should be kept in condition by periodical rubbings with flannel dipped in a mixture of beeswax, oil and spirits of turpentine. White painted French furniture is best cleaned with paraffin.
