### Goodrich's More Mileage Proclamation

Be it known to every automobile owner and driver in the United States—to Goodrich Dealers—that Goodrich Safety Treads stand ready to deliver 6,000 miles, and Silver-town Cords 8,000, under proper usage.

That is, every SAFETY TREAD in use, and in a Goodrich Dealer's store, is underwritten to be adjusted at 6,000 miles—and every SILVERTOWN CORD at 8,000 miles.

That new adjustment is based upon what Goodrich knows its tires will do, and Goodrich knows from miles and miles of road-testing that Goodrich Tires are the strongest, the best, the rubber industry has produced.

They are so good that Goodrich increases its adjustment mileage to show its patrons they cannot afford not to share in their matchless service and security.
