How Good News Spreads

"I am 70 years old and travel most of the time," writes B. F. Tolson, of Elizabethtown, Ky. "Everywhere I go I recommend Electric Bitters, because I owe my excellent health and vitality to them. They effect a cure every time." They never fail to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. They work wonders for weak, run down men and women, restoring strength, vigor and health that's a daily joy. Try them, only 50c. Satisfaction is positively guaranteed by W. H. Justus and F. V. Hunter.

The Great Porcelain Tower.

In 1430 A. D. after nineteen years of ceaseless labor and an expenditure of about \$4,000,000, the Chinese government finished the wonderful porcelain tower at Nankin, which stood for nearly four and a quarter of centuries, until 1856, the most marvelous building ever erected by human hands. It was of octagonal form, 260 feet in height, with nine stories, each having a cornice and a gallery without.

Saved A Soldier's Life

Facing death from shot and shell in the civil war was more agreeable to J. A. Stone, of Kemp, Tex., than fasing it from what doctors said was consumption. "I contracted a stubborn cold" he writes "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weight 178 pounds." For Coughs, Colds, La Grippe, Asthma, Hemorrhage, Hoarseness, Croup, Whooping Cough and lung trouble, its supreme. 50c, 1.00. Trial bottle free. Guaranteed by W. H. Justus and F. V. Hunter.

A Famous Compliment.

Of famous compliments paid to the fair sex the supply is so large and dazzling that it is a matter of no small difficulty to pick out the brightest gems, but if the following was unlooked for it certainly deserves a place among the best: Fontenelle when ninety years old passed before Mme. Helvetius without noticing her. "Ah," said the lady. "that is your gallantry, then! To pass before me without ever looking at me!" "If I had looked at you, madam," replied the old bean. "I never could have passed you at all."

Stubborn As Mules

are liver and bowels sometimes; seem to balk without cause. Then there's trouble—Loss of Appetite—Indigestion, Nervousness, Despondency, Headache. But such troubles fly before Dr. King's New Life Pills, the world's best Stomach and Liver remedy. So easy, 25c at W. H. Justus and F. V. Hunter.

One Distinction.

"What was King Solomon renowned for above all things else?" asked the elderly visitor who was making a little talk to the children of the Sunday school. "He was related by marriage to more people than any other man that ever lived," promptly spoke up the fair-haired little girl in the front row of seats.—Chicago Tribune.

Republican Platform

We pledge our continued loyalty to William Howard Taft, President of the United States, and leader of our party. We heartily congratulate both him and the republican majorities in the Sixty-first Congress on the extraordinary number of wise measures which, in accordance with the promises of our national convention, have already been enacted into law. Our history hardly affords another instance in which the party in power has so promptly made good so many of its promises to the people.

We renew our allegiance to the Republican policy of protection. The southern states, and North Carolina in particular, have profited by that policy in the past, and have every reason to expect increased benefits from it in the future.

We heartily approve the plan of a tariff commission which, by investigating carefully the conditions and the cost of production of protected articles in this country and abroad, aims not merely to put that policy on a scientific basis, but to enable all men to judge for themselves of its fairness and justice. Firmly believing, as we do, that it is the best policy for this country, that that no country will adhere to it, we hold that it is plainly to the south's interest to send to Washington representatives and senators of the party that supports it. We hold that the south is shamed by the glaring insincerity of Democratic senators and representatives who, while posing as bitter opponents of this policy in their speeches and their party platforms, nevertheless show by their votes that they believe in it; who seek to secure its benefits for their constituents not by the manly avowal of their convictions, but by secret intrigues and bargains.

Out of the great number of wise and progressive acts which stand to the credit of this administration and this congress, we especially commend their treatment of the difficult subject of interstate commerce, and we heartily endorse the policy embodied in that legislation, to-wit: Regulation of commerce carriers by a commission of experts, subject to appeals to a court so organized that it will become a court of experts. We call attention to the contrast between this firm and definite and sound policy and the utter failure of the opposition to agree upon any policy whatever in this field.

We commend also the vigorous measures already taken to conserve our national resources for all the people.

We also cite, as another example of the efficiency of the republican party, the admirable work of the national monetary commission in preparing the way for the much needed reform of our system of currency and banking, to the end that the irresponsible control of credit by powerful and selfish private interests shall be stopped and that adequate provision shall be made to safeguard the business of the country against financial panics. We commend the work of that commission to business men, and ask them to contrast the republican attitude on this issue with that of the democratic party, which while loudly crying out against existing evils, offers no plan of its own for reform, but contents itself with opposing, like the proverbial dog in the manger, every specific suggestion that is made.

On all the great national issues our party has proved its competence to manage the government by adopting policies which all men can understand. Our opponents, by their failure to agree upon any clear program of action, have proved their unreadiness and unfitness for the trust. They are not even agreed on the tariff issue, on which they have chosen to make their campaign. Some are for moderate protection, some are free traders, some are high protectionists in disguise, some are for free raw materials, some against free raw materials. To put the affairs of this great country in their hands would be to turn from the tried to the untried, from experience to blind experiment, from order to chaos.

We favor the reclamation of swamp lands in the south by drainage as arid and semi-arid lands in the west have been reclaimed by irrigation.

Turning to the affairs of our own state, we have no need to juggle with words in order to conceal a lack of convictions, or to make use of fatuous platitudes, after the fashion of our opponents. On what may be called the permanent issues, we need hardly do more than repeat the plain language of our own platform of two years ago, on which we won so great an increase of support from the people.
