# DO YOU WANT TO VOTE?

If So, You Should See, at Once, that Your Name Is on the Registration Book

## TO THE VOTERS OF HENDERSON COUNTY:

The registration books for the coming election were opened on Friday of last week, and under the election law, they will be closed at sunset on October 29th. The registrars are required by law to be at the voting place in each precinct, for the purpose of registering voters, on the following days, to-wit:

- SATURDAY, OCTOBER 15th, 1910,
- SATURDAY, OCTOBER 22nd, 1910,
- SATURDAY, OCTOBER 29th, 1910.

Any person wishing to register and prepare himself to vote, can attend at the voting place in his precinct on either of the above mentioned days. And any other time during the period of registration, he can, if he desires, visit the home or place of business of the registrar, and register. The books are required to be kept open from nine o'clock in the morning until sunset in the evening.

On Saturday, November 5th, next, the registrar of each precinct is required to attend at the voting place, with the registration book, so that any voter may have the privilege of inspecting same, and challenge any person who may be illegally registered, or who, for any lawful reason, may not be entitled to vote. On this date the books are required to be kept open only from nine o'clock in the morning until three o'clock in the afternoon. This is known as "challenge day."

If any voter in the county has moved from another precinct since the last election, and who will have to vote at the time of election, where he now resides for four months, it is necessary for him to register in the precinct where his home now is. If he has not been residing, at the time of election, where he now lives for four months he will have to go back to the precinct from which he moved and vote, which the law provides he may do. All voters who have moved here from another county, and will have lived here six months at the time of election, are entitled to register and vote. All young men who have become twenty-one since the last election must register before they can vote.

This matter of getting every voter properly registered is important. No man can vote unless his name is on the registration books. Every man should, therefore, go at once to the registrar and see that his name is properly recorded on the registration books. Don't wait another day, but go at once and register.

It is the duty of every man to avail himself of the great privilege of voting. He has that right under the law, if fairly and honestly construed, and he owes it to himself and his country to avail himself of this privilege. He cannot do so, however, unless he qualifies himself by registering. Therefore, don't put off the important matter of registering until the last day, but go at once to the registrar of your precinct and get your name put on the registration book. When you have done this remember that the 8th day of November is election day, and every man in the county who believes in the principles of the republican party as enunciated in the platform adopted at Greensboro a few weeks ago, and who appreciates the fact that republican principles and policies, as contained in the national platforms of our party, and as they have been written upon the statute books by Republican Congresses, have made this country the greatest and most prosperous on the face of the earth, should not fail to go to the election and vote the republican ticket from top to bottom, and see that his neighbors and friends do likewise. If every republican will do his full duty from now until the polls close on election day another great victory for our party will be recorded on November 8.

Yours for victory,  
W. C. RECTOR.

# Graded School

At a meeting of the board of trustees of the Hendersonville graded school, held Friday, October 7, the following regulations were unanimously adopted:

"1.—That all teachers in the Hendersonville graded schools who have not yet obtained a first-class state or county certificate be directed to obtain such certificate not later than the first Tuesday in January, 1911.

"2.—That all teachers in the primary and grammar school grades in the Hendersonville graded schools be directed to attend the county institute.

"3.—That hereafter all appointments to positions in the Hendersonville graded schools shall be made by the Board of Trustees in the following manner: A meeting of the Board of Trustees shall be held for that purpose after notice published once a week for at least three weeks in one or more of the local newspapers, which notice shall state the object of the meeting and call for applications; applications shall be in writing and shall be accompanied by such credentials and testimonials as the applicant may wish to submit; and every appointment made shall be conditioned upon the appointee's obtaining a first-class certificate from either the state or the county superintendent."

# Ray Writes

Editor Times:

Having accomplished my purpose to have our democratic platform published so that the voters of the county might know the principles therein declared for and my further purpose of calling attention to the attempted fraud on the democratic party by the Hustler, that "unintentional mix-up" paper of unknown political faith published in Hendersonville, edited by a republican and doing valiant service to the republican party in season and out, —I should have troubled you no further for space in your paper, but for the insinuated statement in the Hustler that I was about to join the republican party.

The writer of that squib, the assistant editor, who is a republican and does not deny it, had no other reason for writing and publishing it than a malicious desire to do me an injury. From a man's soul his mouth speaketh and his pen writeth and if this man wishes thus to display himself, I can only say that for him I have the profoundest pity.

I live no false pretenses either in my private or public life and should the time ever come when I thought the enforcement of the principles advocated by the republican party better for the country than those advocated by the democratic party, I should have the manhood to say so and not only to say so but to go over to that party openly and help with my vote and such influence as I might have to enforce the application of those principles in our government. One of the many things that I am not is a coward and another is a republican—though I do not mean hereby to compare the two. When I feel that I can embrace the principles necessary to become one, both or either of these I shall announce the same to the public and apply to the Hustler corporation for a position on that paper.

# Why!

If your paper is late this week, we are very sorry, but it is NOT our fault.

We did our very best to get the paper out EARLIER than usual; but the company from which we get power to run our machinery had another breakdown and delayed us greatly. We have no doubt that the delay is annoying to you; but it is a heap more annoying to us.

# New Ordinance

A meeting of the town council was held Tuesday night. Bids for the construction of a bridge over Wash creek were opened. On motion of W. C. Rector all bids were rejected and it was ordered that the town construct the bridge.

The following ordinance was unanimously adopted:

"Be it ordained by the Board of Commissioners of the town of Hendersonville, that any person or persons to ride, pull, push or drive any express wagon or other wheeled vehicle whatever, except baby carriages, or to skate or walk with stilts, on any of the sidewalks of the town of Hendersonville, is declared a nuisance, and any person or persons violating this ordinance shall, upon conviction thereof by the mayor, forfeit and pay a fine of \$10."

A large amount of routine business was transacted. The expected discussion of the so-called "Blue Laws" did not take place.

Portsmouth, Va., Oct. 12.—Fire destroyed the oil department of the Portsmouth Refining Company early this morning. Loss about \$75,000, fully insured. Fire was one of the most spectacular in the history of this section. So far as known, no lives were lost.

London, Oct. 12.—The British royal yacht Victoria and Albert left today for Gibraltar to bring Manuel of Portugal and his mother to England to make their future home. The royal yacht was sent at the personal direction of King George. The warship will probably accompany the yacht from Gibraltar back here.

# Watch Found

The following, from Tuesday's Spartanburg, (S. C.) Journal, is of interest:

"Hyman Ougust was arrested this morning on a warrant sworn out by Sergeant Alex Fleming of the police department and issued by Magistrate Wetmore, charging him with being a fugitive from justice. There is also a warrant, it is understood for him in North Carolina charging him with grand larceny.

"Ougust is proprietor of a pawnshop, at 134 East Main street and a watch which has been identified as being a part of a jewelry robbery which occurred in Hendersonville, N. C., on August 1, was recovered from him. The defendant claims that he obtained the watch from a shop in New York city. The warrant in Hendersonville was issued by the clerk of court in that county."

The watch mentioned above, is part of the stock stolen from W. H. Hawkins & Son who hope to recover a large part of the stolen goods.

# New York

New York, Oct. 10.—With four weeks remaining before election day, politics today began to promise activity at the various political headquarters. Both republicans and democrats were getting ready for an active canvass. The republicans announced that their nominee for governor, Henry L. Stimson, would speak in every county, with Col. Theodore Roosevelt as chief backer, and that Vice President Sherman might be expected to talk as well as a Taft spokesman from the cabinet. This is the city's first day of registration, and the returns indicated that the voters were qualifying in normal numbers, and that there was no lack of interest in the issues of 1910.

Mr. Stimson will start on October 17 on one of the most extended and lively tours ever scheduled for a candidate for governor. He will be on the go steadily until October 20, and will visit practically every county in the state. In some he will make three or four speeches.

For two hours this morning Mr. Stimson met up-state county chairmen at state headquarters and talked over the situation with them. He declared afterward that they brought optimistic reports to him of up-state.
