Garren's Blood Purifier

Garren Medicine Co., Hendersonville, N. C. Gentlemen:-

At the time I began taking your tonic I could not eat anything, but what hurt me, I did not average sleeping more than an hour at night and immediately after I began taking your tonic my appetite returned and I could eat all kinds of vegetables, or most anything I wanted without any bad after effect, and at the time I began taking your tonic everything I ate would bloat me after meals, but before I had finished taking one sample bottle I could eat three square meals a day lay down and sleep like a baby at night. I gained fifteen pounds in weight and twice that much in strength. I had not been able to work a day in three months, but in side of ten days I could work in the field, could hoe corn or plow. In a months time I could plow a half day alright, and after I got through taking your medicine I felt stronger and in better health than I have been in ten years.

I could plow an oxen in the roots and stumps for half a day without cursing a word. And I owe the return of health to the Garren Medicine Company.

Hoping you all kinds of success I remain,

Yours,

Zirconia, R. F. D. No. 1

MANILA TO HOLD WORLD CARNIVAL

Philippine Capital Expects Thousands In February, 1911.

PRESS AGENT PROMISES MUCH

Exposition of Insular Industries to Be Spiced by All Sorts of Amusements, From Confetti Battles to Field Sports, During Month in Which Many Americans Are Shoveling Snow.

After three years of experiment in carnival making the inhabitants of Manila, in the faraway Philippine Islands, are making preparations for a festival in February, 1911, which will surpass, they say, anything of the kind ever before attempted in any city of the world.

Although it is to be presumed that this oriental capital is far away from the influence of the Yankee circus proprietor and his press agent, the language used in the preliminary announcements of the carnival is not unlike that with which the American pleasure seeking public is familiar, for the world is assured that the week of festivities, Feb. 21 to 28, will "not only far outclass and eclipse anything of the sort ever given in the far east, but it is proposed to make it the largest, most gorgeous, most spectacular affair of the sort ever held anywhere."

Press Agent is Alert.

Something of the smallness of the world as it exists in these days of swift steamship and railroad travel is indicated in the statement that the 1910 carnival attracted "hundreds and hundreds of people from many foreign lands," while the transpacific steamship companies arranged their schedules so that their big passenger carriers could be in Manila bay during the carnival to accommodate excursionists.

Manila proposes to demonstrate that it is both oriental and occidental. It claims to be "one of the most up to date, bustling cities to be found anywhere on earth," in addition to being "full of the remains of a civilization centuries old."

To pleasure seeking people no claim could be more attractive, doubtless, than that in spite of the business and the bustle of Manila life out there is delightfully easy. "Everybody seems to be happy and prosperous," says the official announcement of the carnival, "and bent on securing the maximum of pleasure and satisfaction from life in the tropics, and this somewhat easy going and luxurious style of living has not produced in Manila the undesirable conditions which usually accompany it in other parts of the world."

In spite of Manila's being in the tropics all are assured that "the climate is ideal" and the month of February, when people dwelling in the northern part of the United States are shoveling snow or chopping ice from their sidewalks, "is the most delightful part of the year." Rarely does the temperature go above 85 degrees during the morning hours. You will require blankets every night of your stay.

Real Carnival is Planned.

For the 1911 carnival the city will be given up to pleasure. There will be parades of gorgeous floats, accompanied by mounted heralds, with the king and queen of the carnival seated in their imperial cars, parades of gayly decorated automobiles, battles between confetti throwers and international sporting contests as the main features. Among the athletic sports will be international polo, cricket, football, trap shooting and tennis matches.

Music will be everywhere, for it is said that the Filipinos are the most musically inclined people on earth. The carnival costumes will be rich and varied, and many of them made to order in Europe will cost, it is said, each a small fortune.

The famous hippodrome, which seats 22,000 people, will be given over to special carnival features and military spectacles. The stage of the hippodrome holds more than 5,000 people and is for big balls. All the performances will be given in the open air.

On its industrial side the carnival will give visitors a chance to learn about the resources of the Philippines through extensive exhibits. But the keynote of carnival week will be pleasure, and Manila claims that by reason of its cosmopolitan character, its climate and its great development since "Dewey did it" in 1898 it can provide more pleasure than any other city in the world.

RUSSIAN POPULATION GROWS

Five Millions Added to 150,000,000 in Two Years.

The recent census of the Russian empire adds another 5,000,000 to the population as enumerated in 1908. The czar's subjects now number 160,000,000, an increase, every year of 2,500,000 despite wars, epidemics and internal disturbances.

As there is no lack of cultivated soil in Russia there seems no reason why this big annual increase should not continue.

Chileans Are Wine Growers. Chilean vineyards yielded 254,048,959 gallons of wine in 1909.

Teachers Meeting

Editor Times: The teachers regular meeting will convene in Hendersonville Saturday, November 26, 11 a. m.

All teachers in the county and the public generally, who are interested in the eradication of hookworm disease, are especially urged to be present.

Rev. K. W. Cawthon will conduct the devotional service. Dr. W. Redin Kirk will open the discussion and will be followed by John Ferrell, M. D., from Raleigh. Dr. Ferrell is one of the secretaries of the North Carolina Board of Health and is a convincing speaker.

I trust everyone who can come and hear the discussion of this important subject.

W. S. Shittle.

An Ideal Husband

is patient, even with a nagging wife, for he knows she needs help. She may be so nervous and run down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells. She needs Electric Bitters, the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used them and become healthy and happy. Try them. Only Electric Bitters guaranteed by W. J. Justus and F. V. Hunter.

NOTICE

There will be a call meeting of the Board of Road Supervisors of Hendersonville township to meet at the court house on the first Monday in December being the 5th day at 11 a. m. as we did not have a meeting the first Monday in November. This Nov. 11, 1910.

J. P. Patton, Chairman

J. D. Dermid, Sec.

NOTICE OF SALE

All persons will take notice that under and by virtue of a decree of the Superior court in the case of B. Capps et al. versus Willis B. Capps et al., appointing the undersigned commissioner, I will sell at the court house door of Hendersonville county on

the 12th day of December 1910 at 12 o'clock in, for cash, all the lands of which the late Amos Capps died, seized in Henderson county fully referred to in the petition for partition in said proceedings, fully described in survey maps in the papers in the case, and maps made by order of the court filed in said papers, said land containing 151 acres more or less.

The said lands will be sold as a whole.

This the 9th day of Nov. 1910 Charles French Tomlinson, Commissioner
