

**MR. J. F. LIGON RECEIVED LETTER FROM SPARTANBURG**

The following letter from Dr. Gilmore, pastor of the First Presbyterian Church of Spartanburg, was received a few days ago by Dr. Ligon, pastor of the Presbyterian church of this city:

January 9, 1922.  
Hendersonville, N. C.  
My dear Brother Ligon:

The two weeks from January 22 through February 4 are going to be Delegation Weeks for our "Billy" Sunday meeting.

During these weeks we should like to have, if possible, delegations from our surrounding cities and communities, for which reserve seats in the Tabernacle will be kept when arranged for in advance.

I am wondering if you would not be good enough to take this matter up with the ministers of the other denominations of your community and arrange for a special delegation for this meeting?

Please communicate with the "Billy" Sunday Headquarters, Spartanburg, S. C., and find out if they can reserve a certain definite number of seats for you all on a certain definite date during these two weeks.

I will appreciate very much your doing anything you can in this connection.

With every good wish, I remain  
Most cordially,  
A. D. P. GILMORE

**EXTENSION WORKER IN DEMONSTRATION AT SALUDA JAN. 14**

A pruning demonstration near Saluda which was attended by a number of the leading fruit growers in this section was held Thursday Jan. 14 in the P. H. Bailey orchard where the state has been conducting experiments for the past three years. W. W. McGill, state extension worker, had charge of the demonstration. In the experimental patch there are 10 trees untouched, 10 sprayed but not pruned and 10 pruned but not sprayed. Comparison with the pruned and sprayed trees in the main orchard readily showed the value of care taken of the fruit trees. The experiments are to be continued over a period of two years longer.

**TWO LIQUOR RAIDS STAGED BY AGENTS**

In suppressing the liquor traffic on the line of North and South Carolina a system was devised last week whereby officers are making it hot for moonshiners. Thursday of last week officers at Saluda had a tip a big distillery was in operation just over the North Carolina line in South Carolina.

Near the point is located the lines of Greenville county, South Carolina, and Henderson and Polk counties of North Carolina. In this raid were Federal Prohibition Agents J. H. Painter and L. T. Queen, of Greenville, S. C., and W. L. Ballinger and E. S. Cochran, deputy sheriffs of Greenville county, S. C.; M. A. Case, North Carolina federal agent; V. E. Grant, sheriff of Henderson county, N. C., and Constable H. G. Laughter, of Polk county, N. C. Just as the officers came upon the still, four men hastily made their departure.

**FEW FOLKS HAVE GRAY HAIR NOW**

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

**USE SULPHUR TO HEAL YOUR SKIN**

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment. Seek a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had their skin troubles can know the power of this Mentho-Sulphur. Bring a bottle home. Having been tried and found to be just what you need, you will not regret buying any good medicine for your skin.

**SHE DECLARES IT IS SIMPLY GRAND**

Charlottesville Woman Says Her Strength And Energy Returned After Taking Tanlac.

"It used to leave me so exhausted to walk upstairs. I just had to lie down for an hour or two to rest and get my breath back; but since taking Tanlac I can climb the steps two or three times without having to stop to rest," said Mrs. Henry Elliott, 21 Earley Building, Charlottesville, Va.

"My stomach got out of order about four or five months ago, and at the time I got Tanlac I was in such an awful fix I could hardly do my housework. I gave up eating first one thing and then another because it hurt me so bad until finally I was hardly eating anything, but even then I suffered great pain in my stomach for hours after eating. I got so dizzy many times I couldn't stand up. Nights I just lay awake most of the time so nervous I couldn't close my eyes, and often the sound of running water upset me so I had to cut it off before it ran enough for me to wash the dishes.

"But the first three doses of Tanlac helped me so much I noticed I was better, and I just kept improving right on until now I'm so hungry about my meal I can hardly wait until I get it on the table. Everything agrees with me, too, and my strength and energy have come back to me. My nerves never bother me a bit, and I sleep right on all night without waking up. Tanlac is simply grand."

Tanlac is sold by leading druggists everywhere.

**LAST LINK MURPHY HIGHWAY TO BE LET**

Word that the last link of the Asheville-Murphy highway is to be let on February 7 will no doubt be received throughout all Western North Carolina with decided pleasure signaling as it does the anticipated completion of a road that will open up vast natural riches and will reclaim the "lost provinces" to which Governor Morrison refers when indicating the extreme western portion of the Old North State.

This link is 13 miles long, running from Sylva to the Swain county line, and is not regarded as particularly difficult by the engineers, in comparison, at least, with other links.

This announcement comes from J. G. Stikeleather, highway commissioner, who has just returned from a conference at Raleigh with the highway heads. Other contracts are to be let, he asserts, early in February.

The revised plan for the Asheville-Murphy highway construction upon the last link contemplates hard surfacing for a distance of two miles running through and connecting the towns of Sylva and Dillsboro. This hard surfacing will also be let to contract as soon as possible, says the commissioner.

**FIRST 'REAL' SNOW OF SEASON FALLS**

Asheville had her first snow fall last Friday evening. With a slight flurry from gray clouds at 3 o'clock, the snow began to fall in earnest at 5, and continued until nearly 9 o'clock.

Three and one-half inches was the average on the level surface of Haywood street.

It was reported as general in the western section of the state, and in adjacent parts of Tennessee and Georgia.

There was a slight flurry here about 5:30 o'clock, accompanied by a driving wind.

**LETTER FROM OHIO**

The Times received the following letter a few days ago from J. S. Cox, Toledo, Ohio, passenger agent of the Ann Arbor Railroad Company.

Toledo, Ohio, Jan. 10, 1922  
Western N. C. Times,  
Hendersonville, N. C.

Gentlemen:— Please find enclosed money order, \$1.50, covering subscription one year to The Western North Carolina Times.

If you have any folders or booklets describing your city, please mail one of them to me, attaching bill and I will remit by return mail.

Yours truly,  
J. S. COX.  
(The folders together with The Times went forward to Mr. Cox promptly.—Editor).

New aeroplanes have everything except a place to get out and crank when the engine stops.

**HE PASSED**

A Wall Street man was very keen on having proficient clerks in his employ. Before a clerk could enter his office he was required to pass a written examination on his knowledge of the business.

At an examination one of the questions was "who formed the fir company?"  
A certain bright youth was a lit-

**NOSE CLOGGED FROM A COLD OR CATARRH**

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffing, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been waiting for. It's not a medicine.

tle puzzled at this, but was not to be floored. He wrote:  
"Noah successfully floated a company while the rest of the world was in liquidation."  
He passed.

**THE SHOSHONE DAM**

AMONG the great irrigation dams erected under the supervision of the reclamation service of the Department of the Interior, the Shoshone has a distinct individuality. It is located nine miles west of Cody, Wyoming, on the road to Yellowstone park.

If you can conceive of a triangular-shaped wedge of concrete 328 feet high, 200 feet wide at the top, 108 feet thick at the base, tapering to 10 feet at the crest, placed between two mountains so as to close the canyon of a river, you can gain some idea of this mastodontic structure.

Now, imagine a lake of stored-up water, 10 miles long, with a maximum width of four miles and a maximum depth of 233 feet behind this dam; then, in front of it a spill-way bearing a strong resemblance to a section of Niagara falls, and stretching away in the distance hundreds of thousands of acres of land covered with an abundance of crops, peopled with happy inhabitants and here and there a bustling village. There you have a picture of one of Uncle Sam's great irrigation projects.

Remember that before the water was brought to this thirsting land, sage brush and prairie dogs were among the principal crops, then—presto "The desert blossomed as the rose," and you'll understand why your government expended \$1,354,000 on the dam alone.

**VALLEY FORGE**

IN THE picturesque valley of the Schuylkill river, twenty miles northwest of Philadelphia, there is a sacred spot at which every American should give himself the privilege of worshipping sometime during his or her lifetime.

It is the then unattractive site, lined with barren, frozen hillsides, where General George Washington and his little army of about 10,000 half-starved, poorly-clad patriots bivouaced, suffering unthinkable hardship, from December, 1777, to June, 1778, following the tragic battle of the Brandywine and the occupancy of Philadelphia by the British.

This circumstance of history bequeathed to this hallowed place a glory and a fame which will attach to it throughout the ages to come as will the more recent struggle to the region of the Argonne in France.

A tract of about 500 acres has been purchased by the state of Pennsylvania and the government, with patient determination and admirable completeness, is restoring ancient landmarks and transforming this historic camp-site of the Continental army into an everlasting National Shrine.

The Daughters of the American Revolution have erected a noble shaft to the unknown who sleep here and the Valley Forge Museum of American History contains many relics of the day. One fills with emotion as he enters the little cottage where General Washington had his simple headquarters and feels the odor of sanctity as he steps into the Washington Memorial Chapel, sometimes called "The Westminster of America."

**TAKE SALTS TO FLUSH KIDNEYS**

Eat less meat if you feel Backachy or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a deliciously effervescent lithia-water drink which millions of men and women take now and then, thus avoiding water drinking and bladder diseases.
