

M. ALLARD CASE CHARGE OF ROADS

Mr. Case Has Been Sheriff of County For Two Terms And An Efficient Prohibition Officer.

M. Allard Case has been appointed by the county commissioners as county road supervisor, to succeed Sam Bryson, who was asked to resign. Mr. Case was confirmed in the office as soon as he could secure his resignation as District Prohibition Officer. This took place Tuesday.

The immediate cause of the call for Mr. Bryson's resignation, it is alleged, was a conflict of opinion between him and Mr. Bane over the discharge of an employee under Mr. Bryson's supervision—Bryson is said to have "fired" him and Bane is said to have demanded his retention in the road service.

Mr. Case, as a prohibition officer, proved himself capable and efficient. Only last week a 70-gallon still with 2,000 gallons of wine was captured by Mr. Case near Hoopers Creek township.

As sheriff of Henderson county for two terms, Mr. Case made the arm of the law felt in the county and performed his duties ably and well.

Mr. Case numbers a great many friends in Henderson county who wish him success in his new field.

"FAIR TO ALL"

The Board of Trade's agricultural committee, in conducting a questionnaire respecting the operation in different cities of public markets, is in receipt of the following letter from Miss Maggie M. Garlington, secretary of the Woman's Bureau, Chamber of Commerce, Greenville, S. C., having to do with the operation of Greenville's so-called "curb market":

"I am glad to tell you about our curb market.

"The Woman's Bureau took charge of it the first of March. We had an understanding that the farmer could not sell at the retail price, but five cents less. This caused much comment through the press, 'The People's Voice,' and gave us much publicity. They are now adhering to this rule as they should, and our committee will have to regulate it soon.

"The market hours are from 7 to 12 o'clock. The city furnishes a policeman, who wears a badge 'Market Master.' This master sees that the cars are parked correctly, and keeps every thing in order.

"We have a board on which the prices are written—the market prices.

"Come to see our market—on Tuesdays, Thursdays and Saturdays."

No building is required for this market. It is conducted on a small parking space in the rear of the Greenville Chamber of Commerce which is in the center of the city.

Other replies will be given publicly as soon as they are received. In this manner the Board of Trade hopes to work out an equitable marketing plan, one that will be fair to the Hendersonville merchant, the Hendersonville consumer and so fair to the Henderson county farmer that he will take a greater interest in the plan to market his wares in Hendersonville.

VISIT OTEEN

A party composed of Mrs. J. S. Brown, Mrs. Lila Barnwell, Miss Katherine Carson and Mrs. McManaway, representing the U. D. C.'s and D. A. R.'s, went to Oteen Saturday to visit ward E-5. They carried with them yellow cake, sandwiches wrapped in yellow tissue, and bananas. Tiny cakes, baked in the form of hats, each decorated in colored icings to resemble trimmings, were taken to the boys. They afforded much amusement to the recipients. That the boys there were abundantly remembered Easter was evidenced by the number of flowers, bunnies, chicks and cards which were to be seen everywhere. They seemed to appreciate the Hendersonville visitors.

DEMOCRATS ARE GETTING READY

Five Women Named as Delegates to State Convention to Be Held at Raleigh.

The Henderson County Democratic precinct committees met at the courthouse Saturday, April 15 at 12 o'clock.

E. W. Ewbank, county chairman, in opening the meeting, explained its purpose and made a strong talk concerning the democratic prospects in the coming election. He stated that the county is thoroughly tired of the methods that have caused so much trouble and made taxes so high.

"We need competent, capable and trained business men," he said. "To win in the forthcoming election, we will have to look around us and pick out men who are far superior to any the opposing party may bring forth." Throughout his speech, he stressed the point of selecting "competent, capable and trained business men" to handle the affairs of the county.

The roll was then called, and it was found that those of the precincts which had elected their committees had all chosen men. It was decided to hold these elections again, and to place half as many women on each committee. It was also moved and carried that the chair be given time to appoint five women who were willing to attend the state convention. Mrs. V. C. V. Shepherd, Mrs. Broadus Estes, Mrs. M. A. Brown and Mr. Frank Siler were appointed. C. E. Brooks, A. Cannon and C. P. Rogers were appointed also to attend.

On a suggestion from the chair, another meeting of the committees, at which time the women will be represented, will be held at the courthouse about two weeks from the date of the last meeting. At this meeting the democratic organization will be perfected, a speaker of state-wide reputation will address the gathering and the congressional candidate preferred will be designated. The delegates to the state convention will also be announced. The chairman urged a large attendance at this meeting, as its importance is obvious.

The Western North Carolina League has been organized for the coming season and consists of the same teams which were members last year, which are: Brevard, Canton, Asheville and Hendersonville.

"BLOCK SYSTEM" INAUGURATED

C. F. Bland States Board's Income Should be \$5,000.

The membership committee of the Board of Trade this week is appointing a representative in each business block of the city.

The representative will be known as the block committeeman. His duties will be to know every Board of Trade member in his block, and to induce the non-members to participate in this form of community building. In short, the block committeeman will endeavor at all times to increase the memberships held in this block.

C. F. Bland is chairman of the membership committee. At a Board meeting last week Mr. Bland declared that the Board's income should be much in excess of \$5,000. At the present time the pledged income is a bit less than \$3,000.

The Board's governors are very anxious to determine upon a program of definite work. They cannot do this until the Board's income is increased. Meantime many important matters the Board should be doing are temporarily held in abeyance.

It is believed that with a membership representative in every business block the Board of Trade's income will be materially increased.

LIKES THE TIMES.

Horse Shoe, N. C., April 19, 1922. Editor The Times:

I like your paper very much and find it growing in popularity among us country people.

I think if we could get a few more men like W. C. Rector to champion the cause of the working people we farmers would have a better showing.

I like The Times better than ever for more reasons than one. It is a paper that is not afraid to take its stand for the right and advocate what it believes to be for the good of the greatest number of people.

With the best of wishes for The Rector Publishing Co., I am,
Yours truly,
MRS. T. V. CARLAND.

M. M. Peebles, of Arden, received slight injuries while coupling cars in the Asheville yards of the Southern railway, late Saturday night. We are taking care of everything as rapidly as our space will allow.

Allen Hawkins, of Horse Shoe, a patient at Oteen, is in town on a five-day leave of absence from the hospital.

NEW LUTHERAN CHURCH PLANNED

Committee Appointed to Have Charge of Contributions.

Hendersonville has a chance to secure a Lutheran Church edifice.

Pastor Mauney of our city has made a number of visits to the descendants of the late David and Fannie Mauney of Gaston and Cleveland counties in the interest of a church building here.

The parents were noble citizens and devoted Christians. Their four children are now beyond the three score and ten year mark and their families richly blessed with health and the joys of home life. The suggestion is that now as an expression of gratitude to God the descendants erect a memorial church here for the benefit of the Lutherans of this community as soon as the church lot is free from debt. The debt upon the church lot at present is around \$4,500. Every member of the Lutheran church and public spirited citizen friendly to the cause of the church, who would like to see a substantial church edifice on the corner of Church Street and Seventh Avenue, is given the opportunity to help the cause by a contribution to liquidate the debt on the lot. It is the hope of Pastor Mauney and the congregation that a way will be opened for a speedy lifting of the debt in order that work may begin upon the church building without much delay.

At a church meeting last Sunday O. A. Meyer, L. E. Thompson and the Pastor were appointed a committee to receive contributions toward the debt.

TO HAVE CHARGE OF CHIMNEY ROCK

New Club and Dining Room For Guests at Chimney Rock.

Mrs. A. M. Gover, assisted by Mrs. Adelaide M. Jones, will have the entire supervision during the coming summer, not only of the entire restaurant feature up at Chimney Rock, but likewise of the Cliff Dwellers' Cottages. The management feels that it is indeed most fortunate to again have Mrs. Gover looking after man's inner needs at the "Chimney." Her ability has long since been well established.

The new Club and Dining Room, adjoining the Cottages, is nearing completion, and will serve a real need in the better caring for the needs of guests, where their every comfort will be anticipated. This new building is quite unique—not only in its rock construction, but in the fact that the massive cliff actually forms a corresponding wall in the large room itself, in the centre of which is a great fire place made from the native granite, of sufficient size to accommodate logs five feet in length.

John T. Arnett, assistant manager of Chimney Rock states that during the past week a distinct increase in travel through the Gorge has been noticed. Many of these visitors coming to see the Broad River Gorge and the mountain sides covered with spring flowers.

The Broad River Gorge and sides of Chimney Rock mountain are white with the flowering dog-wood mingling with the gorgeous blossoms of other trees and shrubs, is the information brought by parties who have recently been to Chimney Rock and Esmeralda.

DEMOCRATIC CONVENTION

At the meeting of the Democratic Executive at the Court House on April 15th it was decided that a Democratic Convention be held at 12 o'clock M., on Saturday the 29th of April for the purpose of considering the endorsement of candidates to run in the primaries in June. The committee also passed a resolution calling for five ladies as members of each precinct committee as well as five men and the several precinct chairmen were requested to name five ladies on their respective committees and report to the convention the ladies appointed.

At this convention a new county chairman and executive committee will be elected. A large attendance is expected from every section of the county. Invitations to address the convention have been sent out to speakers of State-wide prominence. It is the anxious wish of the executive committee that a particularly large representation from the county out of town be on hand at this convention. The government of this county is a matter of extreme importance to them as well as town residents and if we are to have better and more efficient, money-saving and burden-reducing county government everybody in the county must "sit up and take notice."

ORGANIZE FOR BETTER GOLF

Will Improve Grounds, Erect Club House, Set Par on Course and Engage Professional Golfer.

Realizing that what Hendersonville needs more than anything else is a good golf course with efficient supervision, the members of the local club met Tuesday night to perfect an organization which will have charge of the Stoney Mountain links, making the necessary improvements which will give visitors and residents a first class course.

The officers elected are: Wiltshire Griffith, president; Frank Edwards, vice-president; A. R. Hanson, secretary-treasurer. The board of governors consists of the above named officers and the following: Dr. R. C. Sample, R. M. Oates, C. F. Bland.

At present there is no club house on the links. Before the first of June, however, the erection of a handsome club house will have been completed, according to members of the club. A man will be in charge to supervise the caddies, to collect the fees, to see that the greens are rolled and that everything is in shape and running smoothly. A man to keep the grass down will also be employed.

Monday afternoon C. F. Bland, A. R. Hanson and Harry Sample called on the Asheville Club for the purpose of getting information concerning rules and other matters. It was arranged that Mr. Clark, an Asheville professional, is to come over to lay out the ground rules, put a par on the course and advise as to the manner in which the club will be conducted.

Negotiations are in progress with several prominent professional golfers with a view to engaging one to come here and have charge of the course.

The fees decided upon are, for residents, \$50 a year. For non-residents the following schedule of fees is given: One day, \$1.00; one week, \$5.00; one month, \$15.00; four months, \$30.00.

Money Loaned to Farmers Will Be at Six Percent; Amount Borrowed Payable in 33 Years.

For the benefit of the farmers of Henderson county, A. O. Jones gives out the following information which will be of interest to them regarding Federal farm loans:

At a meeting of the officers of the Federal Land Bank, of Columbia, S. C., and the National Farm Loan association at Salisbury on February 15th the officials explained a new system which they were ready to put into operation some time about May 1st.

Each association will get an allotment every three months, and can accept applications for the amount of the allotment, and will be able to inform the applicant when he can get the loan.

The officials of the bank reported that up to May, 1921, they had closed loans in this district to the amount of \$20,000,000. This district is composed of North Carolina, South Carolina, Georgia and Florida, and since May, 1921, they had closed about \$16,000,000, loaned almost in nine months as much as the four years previous. R. H. Welch, general counsel and register, stated that they had now passed the hard times period and a bright future was just ahead.

It was stated at the meeting in Salisbury that the affairs of the Associations in Western North Carolina were in better shape than any section in the district, and that the payments are paid more promptly.

In order to receive a loan from the Federal Land Banks, the applicant must be a farmer or financially engaged in farming. The farm must be of sufficient size or state of cultivation to support the family and pay the interest on the loan. Farmers who rent their lands can secure loans if their share of the crops grown on the farm amounts to one-half of the total.

Money can be borrowed for the following purposes:

To pay existing debts and mortgages contracted for the purpose of improving the farm. To purchase land for farm purposes. To purchase stock for the necessary operation of the farm. To purchase tools and machinery. To provide buildings. To improve the land generally, such as ditching, fencing. To purchase fertilizer.

These loans are made for 33 years, at six percent interest plus one percent to pay principal, but may be paid at any time.

Based on a loan of \$1,000, the expenses of obtaining a loan are \$10 to cover expense of appraising farm; \$7.50 to Federal Land Bank (to be deducted from loan); \$1.50 for recording fees. A sum agreed upon between borrower and attorney will be charged for making the abstract.

The amount loaned on a farm is 50 percent of the value of the farm and 20 percent of the value of the buildings.

All borrowers are required to join the association and take \$5.00 stock on every \$100. This stock is worth face value and pays over six percent dividends.

Based on a loan of \$1,000, the payments are \$35.00 payable on the amortization plan every six months. At the end of 33 years, the borrower will have paid \$2,310.00 and the loan and interest will be paid in full. If the borrower secures the money elsewhere, eight percent would be charged, (this is the lowest rate at which money can be had.) And should he keep the loan 33 years, the interest would amount to \$2,640.00 and \$1,000 will still be owing.

A. O. Jones will accept applications from farmers, provided they are conducting their farms according to the farm loan act. Deeds should be brought when applying.
