

## We Lead, Others Follow

This is a very broad assertion, nevertheless it's so, and not only applies to Quality but to Prices also.

We have just received a small portion of our Spring Stock, if you want to see something pretty come in and let us show you what we mean when we say our store IS the "STORE OF QUALITY."

If you will give us ONE, just ONE trial, you will always be our customer.

## HAZLETT BROS. CO.,

"THE STORE OF QUALITY."

Warsaw, N. C.

## A Prosperous New Year

The Key to the Door of To-day's Opportunity is

## A Bank Account.

We thank our friends for their patronage and good will, and offer our services for the coming years.

M. McD. WILLIAMS,  
Cashier Bank of Faison.

## CALYPSO FLOUR and FEED MILLS,

AT CALYPSO, N. C.,

are now prepared to resume business, and to meet the demands of the trade for

GOOD HOME MADE FLOUR,  
GRAHAM FLOUR, and  
CORN MEAL.

Prompt attention will be given those who bring Wheat and Corn from a distance, so that but one trip will have to be made.

I WILL BUY WHEAT,  
MIDDINGS AND BRAN FOR SALE.

I hope to merit the patronage of all by giving the best attention to all.

W. PATTEN, Calypso, N. C.

## JUST RECEIVED ANOTHER CAR LOAD OF American Fence

Combine the Fence and the Hog and get the Dollars American Dollars

You, no doubt, are aware that this Fence is made of hard, stiff steel wire, with the best of galvanizing, has the tension curve and hinge joint, which, when pressure is brought against the Fence, it is possible to force the stay out of alignment, and without breaking it. Also notice, between bars stays are perfectly straight and when pressure is removed the entire stay, from top to bottom, springs back to its original position.

J. C. HORNE, - - Magnolia, N. C.

## Failed in Health

"My mother died six years ago," writes Miss Ruth Ward, of Jerseyville, Ill., "and left me to care for six children. I had never been strong; and this, with the shock of her death, was too much for me.

"I failed in health. I was tired all the time and did not want to go anywhere, nor care for company. I had the headache all the time and such bearing-down pains. A very dear friend advised me to take Cardui, as it had done her so much good, so I commenced to use it and now I am in good health."

## Take CARDUI

The Woman's Tonic

Women's pains are relieved or prevented and women's strength is quickly restored, by Cardui, the woman's tonic. You yourself know best if you need it, or not.

If you do need it, do not delay, but commence to use it at once. Every day of delay, only lets you slide further down the hill.

Don't wait, then, but begin to take Cardui today, for its use, no matter how prolonged, cannot harm you and will surely do you good.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn. For special instructions, and 64-page book, "Home Treatment for Women," sent free.

**Hains Resigns as Army Officer.**  
President Taft accepted the resignation from the army of Captain Peter C. Hains, Jr., Coast Artillery Corps, effective Jan. 28.

Captain Hains shot and killed Anis in the belief that the man had conducted himself improperly with Mrs. Hains. The shooting took place near the Bayside Yacht club as Anis was about to row out to his yacht.

The sentencing of Captain Hains did not affect his status as an army officer. He was until Monday on the records as "detained by civil authorities," but as he was not on duty did not receive pay.

**Great Earth Slide into Panama Canal.**  
Another great earth slide a mile long has started to move in the Culabra cut in the Panama canal.

The slide has already completely covered the thirty-five-foot bank of the canal opposite the towpath with 250,000 cubic yards of material.

The slide began, according to the canal record, Jan. 18, on the west bank of the canal, opposite the Culabra hotel.

Up to Jan. 25 the earth had not encroached on the railroad tracks in the lower part of the cut to any extent, and the regular operations there were not interfered with. Some hasty shifting of frame houses became necessary to save them from the earth slide.

**Aviator Drops into Ocean.**  
Within ten miles of the Cuban coast and only a short distance further from his goal, the Camp Columbia aviation field at Havana, Cuba, J. A. D. McCurdy, the Canadian aviator, ran out of fueling oil and was compelled to abandon a magnificent flight from Key West, Fla.

When he saw that he could not quite reach Havana, McCurdy alighted safely on the calm sea, and the pontoon with which it was equipped floated on the aeroplane until the United States torpedo boat destroyer Paulding, speeding along in its wake, had overtaken the aerial craft. McCurdy and his biplane were taken on board, neither the worse for the mishap.

**"Coffee Trust" Plans 4 Cent Advance.**  
An alleged coffee trust has been called to the attention of the department of justice. It is charged that the marketing of Brazilian coffee is entirely in the hands of a committee which controls the market and is now planning an advance of 4 cents a pound. The statement made to the department declares that the committee is preparing to market 78,000,000 pounds of beans at an additional profit of \$3,000,000.

**Sheriff is Slain; Police Chief Shot.**  
Deputy Sheriff George Mumford was killed and the chief of police, A. O. Glover, of Wilson, N. C., was probably fatally wounded by a colored desperado. The officers were attempting to arrest the man on charges from Dunn, where he was charged with breaking into a store.

**Eight Persons Fly in Monoplane.**  
M. Lemartin, the French aviator, broke the world's passenger carrying record at Pau, France. Piloting a monoplane, he carried up seven passengers for a five-minute flight.

**"Penny" Orders 1000 Cars.**  
The Pennsylvania Railroad company has given the car shops at Altoona, Pa., an order for 1000 donkey cars. The order will keep the car shops busy for several months.

## The Reason Why

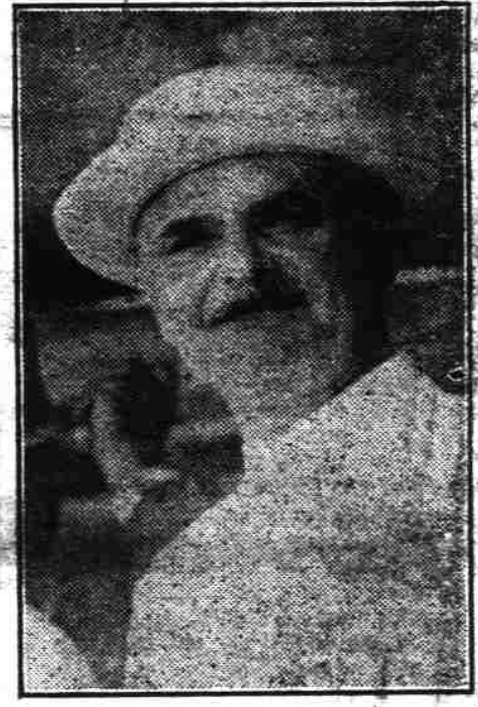

The reason why our Glasses give relief to the eyes is because we know where and how to place them. It's our business. Make it your business to see us. Spectacles and Eye Glasses correctly fitted to your eyes for \$1 and up. EYES EXAMINED FREE.

**DR. VINEBERG,**  
Masonic Temple,  
WILMINGTON, N. C.

## SHIPS CAN'T PROTECT CANAL; SAYS FORTIFY

Treaties of No Use in Time of War, Declares Goethals.

"The trouble is," said Lieutenant Colonel George W. Goethals, chief engineer of the Panama canal, speaking of the opposition to President Taft's policy of canal fortification, "that some people have forgotten the anxiety and apprehension that held the government and the country at large when the Oregon was making her long trip around the horn. That trip was the prime factor in bringing about the construction of

COLONEL GOETHALS.

an interoceanic canal at all. The canal was projected primarily as a military precaution and necessity."

The general plans for the fortification of the canal have been worked out by the board of fortifications, and there is no particular grounds for dispute or question as to the necessity of fortification.

Whether the canal shall be fortified is, in the opinion of Colonel Goethals, a question of national policy and therefore out of his province unless his opinion is sought.

Another thing Colonel Goethals has had time to observe with reference to matters of war is that treaties are all right until war comes and then are likely to be violated.

The idea that the canal could be protected by ships instead of by fortifications does not appeal much to the canal engineer.

"The navy, generally speaking," he said on this point, "is the arm of the service used for offensive measures for carrying the war into the enemy's country or for carrying its commerce to sea. It is not the arm of the service used against invading fleets, looking at it from a defensive point of view."

**TREATY MAY FAIL IN SENATE.**  
Administration is Counting on Public Sentiment to Force Canadian Reciprocity Agreement Through.

By the latter part of the week the Canadian reciprocity agreement will have passed the house of representatives and be transmitted to the senate for its consideration.

The indications are that the pact will fall of passage in the senate, although the administration is counting on public sentiment to force favorable action before adjournment.

President Taft and his advisers are favorable to the new treaty, and they are hopeful that such utterances will tend to crystallize public sentiment in such a way as to induce the senatorial opposition to permit the Canadian agreement to come to a vote.

Judging from the volume of correspondence received in Washington since President Taft forwarded his special message to congress on the subject, the agreement meets with popular approval. Furthermore, the great majority of the members of the house of representatives are favorable to it. In addition it is known that a majority of the senators would vote for the pact if given an opportunity. The opposition in the senate, however, is determined that the agreement shall not come to a vote this session.

## HUMAN LINK FAILS; TWO DIE.

Skaters Fall Through Ice and are Drowned—Rescuers Work in Vain.

A "link" in a chain formed of half a dozen young men snapped when two skaters who had broken through the ice on Alysca pond, Paterson, N. J., were being rescued and the two were drowned. A few hours before three other skaters almost met a like fate.

Ice on the north end of the pond was cut a few days ago and only about two inches of ice had formed. The south end was safe, and several hundred young men and women enjoyed themselves there in the afternoon until the tragedy put an end to the sport. Most of them knew that in the morning three lads had ventured to the north end, had broken through the thin covering and had been rescued almost at the last moment.

But John Geshturle, aged nineteen, Paterson, and his chum, Hubert Cleveland, twenty-two, of Fairlawn, apparently had not heard of the accident.

## FRIENDS ARE URGING LORIMER TO RESIGN

Senate Leaders Would Avoid Embarrassment in Bribe Case.

That Senator William Lorimer, charged with having won his seat by bribery in the Illinois legislature, is likely to resign and save his friends in that body, the embarrassment of having to vote for him in time of his declining testimony presented in the record of his case is generally reported on high authority in Washington.

The senator from Illinois is being urged by some of the older senate leaders who are personally friendly to him to resign in the course of the week. They have pointed out to him that unless he does resign his seat is certain to be declared vacant. They have told Mr. Lorimer that he can save some of his friends in the senate from the embarrassment they would feel to be governor and return him to his seat here his colleagues from the popular criticism that would be showered upon them if they voted to retain him in his seat.

**GENERAL NEWS**  
Fred D. Warren of Kansas, editor of the "Appeal to Reason," a socialist publication, will not have to spend the winter in the Leavenworth federal penitentiary and pay a fine of \$1,500 for alleged violation of the postal statutes. President Taft has made public a "brief" in the Warren case, in which he commutes the sentence of Warren. He was convicted of mailing matter in a covering upon which was stamped in red letters, "\$1,000 reward will be paid to any person who kidnaps ex-governor Warren and returns him to Kentucky authorities."

The interstate commerce commission at Washington has issued its first accident bulletin under the new law. It includes many accidents that were not included in previous bulletins bearing on the subject of the number of persons killed in train accidents during July, August and September was 321 and \$1,892 were injured. Accidents of other kinds, including those to employees while at work, by passengers getting on and off cars, and the like, were not included. While the total of casualties up to 22,323 (2,948 killed and 19,380 injured) on steam roads.

When Senator McCumber of North Dakota was forced to part with 25 cents for a red ripe tomato in the senate restaurant at Washington he uttered a cry of rage. He immediately proceeded to the senate chamber, where he delivered a speech on the high cost of living. He told the senators about the outrage that had been perpetrated on him. Senator McCumber expects to prove when he returns to his home that most of the profit goes to the commission men, the retailer and the railroad and not to the farmer.

At the end of March the war department will advertise for bids for twelve aeroplanes for the signal corps. This statement was made by the authority of Brigadier General James Allen, chief signal officer, who was before the senate committee on military affairs in advocacy of the item of \$125,000 for the new aeroplanes. General Allen said, "to establish a number of aerodromes or hangars. It is likely that we shall soon ask for more officers for aeroplane work."

Charles W. Dabney, head of the University of Cincinnati and former secretary of agriculture, is being considered seriously for the presidency of Princeton university. While the offer has not yet been made to him, it is expected momentarily. Benjamin Ide Wheeler, head of the University of California, and John Finley, president of the College of the City of New York, also are being considered, according to a member of the board of trustees of Princeton university, but President Dabney will receive the first offer.

That the present congress should adjourn sine die and make way for the new senate and house chosen at the November elections was the somewhat startling suggestion sprung in the senate by Senator Owen of Oklahoma while speaking in opposition to the ocean mail bill. "This congress has been reappointed by the American people," declared Senator Owen, "and yet it continues in session in an effort to put through legislation like the ship subsidy bill."

Having finished a week of examinations 500 Cornell students, anxious for recreation and a little fun, succeeded in breaking up a presentation of Eleanor Glynn's "Three Weeks" at a theater in Ithaca, N. Y., tried hard to rush a picture theater and wound up in a hot city, in which the police for the need club on a number of student heads. Two students were arrested. The police say a number of additional arrests will be made on the university campus.

Because he couldn't resist a longing to see his wife and his baby daughter a few days ago, Giuseppe Scerri, who the police say was the head and brains of the Italian kidnaping gang of New York and who has been positively identified by Michael Rizzo and Giuseppe Longo, the two little Brooklyn boys who were stolen on Nov. 19, is a prisoner in the Tombs following his arrest as he was entering his wife's home.

A plan for the solution of the water power problem on public lands has been submitted to President Taft by

## OLD SOLDIER TORTURED.

"For years I suffered unpeakable torture from indigestion, constipation and liver trouble," wrote A. K. Smith, a war veteran at Erie, Pa., "but Dr. King's New Life Pills fixed me all right. They're simply great." Try them for your stomach, liver or kidney trouble. Only 25c. at all druggists.

## DEATH IN ROARING FIRE

may not result from the work of firebugs, but often severe burns are caused that make a quick need for Bucklen's Arnica Salve, the quickest, surest cure for burns, scalds, bruises, boils, sores. It subdues inflammation. It kills pain. It soothes and heals. Drives off skin eruptions, ulcers or piles. Only 25c. at all druggists.

Boasting of saying what you think is often an excuse for not thinking what you say.

Progress in the human race depends less on getting ahead than on helping along.

experts in the departments of the interior and agriculture. The necessity for the plan, it is said, lays in the fact that power sites in the west are largely on public lands which at present can neither be taken up by companies nor occupied under a reversible permit. Because the people were attending their revival meetings instead of patronizing his bar, James Loetsch of Monticello, N. Y., did the Carrie Nation act by smashing up his saloon with an ax. Loetsch smashed the bar fixtures, mirror, chairs, stove and knocked in the head of several barrels of whisky, wine and beer. He then locked up the place and disappeared.

## CRIMES AND CASUALTIES

The body of Edward St. John, who for ten years has been assistant treasurer of the Westinghouse Electric company, was found floating in the surf off West Fifth street, Long Island, New York, last night after the body was taken to the Coney Island hospital it was learned from officers of the Westinghouse company that a hurried examination of Mr. St. John's accounts showed a shortage of several thousand dollars. Speculation, officers of the company said, was the cause of the shortage and subsequent suicide.

A fire burned out a tenement house in New York and cost the life of a man and perhaps of a woman and a girl. On the top floor lived the family of Charles O'Connor, a chemist. O'Connor marshaled his household on the fire escape and descended, but at the last minute his son discovered that his sister Florence was missing. Alcides Schimmel, a lodger, went to get her. Firemen found Schimmel's body later stretched across the bed in the room where he had hoped to find the little girl. Florence is still missing. The damage is \$20,000.

The Rev. Rufus Macurda, speaker of the First Association of Spiritualists of New York, was arrested charged with being a fortune teller. Mr. Macurda told the police that he was not only the head of the spiritualist congress but that he is also connected with the Church of Divine Inspiration of America. Along with Mr. Macurda the police took four other persons in various parts of the city who are alleged to be fortune tellers.

Despairing of regaining her health, lost as the result of an attack of typhoid fever a year ago, Miss Nellie Rutka, twenty-six years old, of New York, jumped to death from a sixth story window of an apartment house where she was living with her stepfather and a brother-in-law. She was sleeping Miss Rutka slipped from bed, went to a rear window and jumped out, screaming as she fell.

Ten men out of fourteen employed in excavating at the new Pennsylvania railroad bridge at Centre street, Newark, N. J., were drowned when a chain attached to a bucket weighing nearly a ton and filled with rock and mud broke, sending the bucket down into the excavation, breaking through the doors closed tight to keep in the compressed air and allowing the water to rush in under the works.

The receipt of new threatening letters by wealthy Chicago women has revealed the fact that Black Hand blackmailers, aided by a young and beautiful woman, have extorted \$10,000 from her within the last few months by threatening to kidnap her three small children. The blackmailers have no clew, and the mother lives in constant terror.

In a pistol duel between Ollie McNeill and a Mexican cowboy at the Ramble ranch, near Alice, Tex., both men were killed.

## SPORTING AFFAIRS

Ad Wolgast, the light-weight champion, will meet in a six round bout at Jack O'Brien's Philadelphia arena on Feb. 22, the anniversary of Wolgast's victory over Battling Nelson. Wolgast has agreed to let McFarland weigh 132 pounds three hours before ring time. McFarland and Wolgast some time ago were matched to box ten rounds on the above date at Milwaukee, the weight to be 133, but O'Brien has offered them a larger guarantee to meet in Philadelphia.

Phil McGovern, the Brooklyn bantam, outpointed Monte Attel, a brother of the featherweight champion, by a small margin in a ten round bout in New York. Attel used better ring science than McGovern, but the South Brooklyn boy's swings were too much for him to burn.

Abe Attel, featherweight champion of the world, who broke his arm in the fourth round of a scheduled ten round bout with Tommy Kilbane in Cleveland, O., has canceled all his fight engagements. He will not be able to return to the ring for several months.

Phil Knight, heralded as a Kansas City Cyclone, made a poor showing at the National Sporting club in New York when Johnny Marto, the Italian lightweight, outpointed him in a ten round bout.

## FOREIGN INTEREST

Records furnished by the police of Berlin to the French authorities show that "Dr. Harry Miller of New York," who alleged that he had been robbed and bound and gagged in Paris Jan. 17, is not only a suicide fakir, but an ex-convict. Miller was found tied to a tree and said that he had been robbed of \$1,000. The Berlin police have now identified "Miller" as Louis A. Fabricant, who was sent to jail three or four times. Fabricant, or Miller, was expelled from France and sent to the United States.

George Grey, brother of Sir Edward Grey, the British secretary of state for foreign affairs, who was mauled by a lion a week ago near the Athl river,

East Africa, died in London of his wounds. Mr. Grey, who was forty-four years old, was known as a big game hunter. He was stalking lions with Sir Alfred Pease and others when one of the beasts chased and seized him and mauled him. He was rescued with the greatest difficulty.

Sant ed Dowleh, Persian minister of finance, was shot dead in the streets of Teheran by two Armenians. The minister was returning home from a meeting of parliament when he was attacked. Death was almost instantaneous. As he fell the murderers turned and fled, but were quickly pursued by persons who had witnessed the killing. The assassins got a start on their pursuers, however, and have not yet been captured.

An entire fishing village of 253 men, which had been established on the ice outside of Bjorkoe sound, was carried out to sea in a gale. The disaster was not discovered until morning, when the village was already out of sight. Boats have been sent to the rescue, but have not yet returned.

La Martin, in a four seated Bleriot monoplane carried seven other persons over the Pau (France) aerodrome. The added weight on the monoplane was 1,112 pounds. This sets a new record for the number of passengers carried by a heavier than air flying machine.

A wild storm that swept the Spanish coast caused great loss of life. A score of fishing craft were dashed up on the rocks and many of their crews lost. Bodies of twenty-five sailors were picked up along the coast.

## DEATHS OF NOTED PEOPLE

Rear Admiral Charles S. Perry, U. S. N., retired, who commanded the United States battleship fleet on the greater part of the famous cruise around the world, is dead of pneumonia in the naval hospital in Washington. Admiral Perry was born in Brooklyn Sept. 3, 1847, and was graduated from the Naval academy at Annapolis in 1866. He was rapidly promoted from ensign to master and lieutenant commander and was made a rear admiral in 1896.

General Piet A. Cronje, the noted Boer general, died at Klerksdorp, Transvaal. General Cronje commanded the eastern army of the South African republic in the Boer war. After numerous reverses the British government sent out Lord Roberts and General Kitchener, with thousands of fresh troops at their command, to put down the Boers. General Cronje and his Boer forces were too greatly outnumbered to withstand the avalanche which fell upon them.

Miss Adele Rafter, a well known actress and opera singer, died following an operation for appendicitis at the Hahnemann hospital, New York. Miss Rafter had been ill for a week or two before it was thought necessary to operate upon her. Her parents were at her bedside when she died. The body was taken by them to her late home, Dunkirk, N. Y., for burial.

Calvin B. Orcutt, president of the Newport News Shipbuilding company and of the Baltimore and Ohio Canal, died at Johns Hopkins hospital, Baltimore, where he had gone for an operation. Mr. Orcutt had been in poor health for some time, having recently been confined in a New York institution.

Arthur Clarkson, formerly a professional baseball pitcher and a brother of John and Walter Clarkson, well known in the baseball world, died at a private hospital in Cambridge, Mass., aged forty-five. He pitched for Baltimore, Louisville and St. Louis during his diamond career.

Ottawa is experiencing the worst blizzard it has seen in ten years. The storm extends from Fernie, B. C., to Moncton, N. B., and passenger service on all roads is badly demoralized, while the freight service has come to a standstill all over Canada east of the Rocky mountains. Several thousand visiting horsemen, bookmakers and their followers and others who are in Ottawa to see the annual ice races are snowed in in their hotels.

Ratification of a contract between the Panama government and the Bahia and Pacific states, limited to London is expected at an early date in the Panama assembly. It will provide for a railroad from end to end of the republic. One day it will be an important link in the inevitable railroad linking North and South America. The United States is watching with anxious eye this English invasion. Ratification of the contract will give Great Britain a foothold on the Isthmus at the very brink of the canal and a right to assert a "sphere of influence."

A party of armed men who are alleged to be bandits robbed the store of Manuel Abascal, a wealthy merchant in the Santa Teresa district, near Torreon, Mexico, of its entire stock, valued at \$7,000. They loaded the booty into twenty wagons and drove off toward the mountains. Abascal started in pursuit and, meeting a man in the road whom he took for one of the bandits, shot and killed him. The father of the dead man killed Abascal when he learned of his son's death.

The eruption of Mount Taal, on the island of Luzon, Philippines, continues, but there has been a marked decrease in the seismic disturbances. The dead number about 1,000. The constabulary, under command of Colonel Rivera, is in charge of all the relief operations, including those of the Red Cross, in the lake district. There is comparatively little suffering by the people owing to the prompt measures of relief taken by the government.

## SOLVES A GOOD MYSTERY.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Louisville, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been the most helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. Every bottle is guaranteed to satisfy. Only 50c. at all druggists.

## Life Insurance.

The best business men and farmers carry life insurance because their money is safely invested and again their lives are protected in case of death. It makes young men save their earnings for after years, for the rainy days and for a large estate that in this way is created by a smaller cost than any other way. The Mutual Life, of New York, is the oldest and strongest in America. Get in the best possible company when you do insure. See Hines—the agent, at Kenansville, who represents the strongest Company of any kind in the world. Men and women should insure while they can and at a lower rate than will ever be offered again.

Keep the wolf from the door. Prepare for old age. Be independent in life. Save a part of your earnings. THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK, D. S. HINES.
