We Lead, Others Follow

This is a very broad assertion, nevertheless it's so, and not only applies to Quality but to Prices also.

We have just received a small portion of our Spring Stock, if you want to see something pretty come in and let us show you what we mean when we say our store IS the "STORE OF QUALITY."

If you will give us ONE, just ONE trial, you will always be our customer.

HAZLETT BROS. CO.,

"THE STORE OF QUALITY."

A Prosperous New Year

The Reason Why

The Key to the Door of To-day's Opportunity is

A Bank Account.

We thank our friends for their patronage and good will, and offer our services for the coming years.

M. McD. WILLIAMS, Cashier Bank of Faison.

JUST RECEIVED ANOTHER CAR LOAD OF

American Fence

Combine the Fence and the Hog and you have the Dollars

You, no doubt, are aware that this Fence is made of hard, stiff steel wire, with the best of galvanizing, has the tension curve and hinge joint, which, when pressure is brought against the Fence, it is possible to force the stay out of alignment, and without breaking it. Also notice, between bars stays are perfectly straight and when pressure is removed the entire stay, from top to bottom, springs back to its original position.

J. C. HORNE, - - Magnolia, N. C.

Plant Wood's Seeds

For Superior Crops

Wood's 30th Annual Seed Book is one of the most useful and complete seed catalogues issued. It gives practical information about the best and most profitable seeds to plant for

The Market Grower The Private Gardener The Farmer

Wood's Seeds are grown and selected with special reference to the soils and climate of the South, and every southern planter should have Wood's Seed Book so as to be fully posted as to the best seeds for southern growing. Mailed free on request. Write for it.

T. W. WOOD & SONS, Seedsmen, - Richmond, Va.

We are headquarters for Grass and Clover Seeds, Seed Potatoes, Seed Oats, Corn, Beans, and all Farm and Garden Seeds.

ALARMED AT A PLOT TO DESTROY COTTON

Speculators Are Aroused Over Discovery by an Official.

What one man might do to a southern cotton state with a pickle jar full of boll weevils was the subject of speculative interest among several cotton operators in New York and produced marked divergence of opinion. The debate was aroused by the report printed in a dispatch from Atlanta, Ga., that Governor Elect Hoke Smith had received definite warning of a plot to scatter boll weevils all over the state of Georgia and into South Carolina to ruin the cotton crop.

A group of cotton operators were found chatting together in the lobby of a hotel. All had read the dispatch from Atlanta about Governor Elect Smith's discovery of a plot. "Now, I have no opinion as to whether this story from Georgia is true or not," one of them said. "I am not competent to pass upon that. I am only able to say that I am surprised that the trick has not been tried already. Why should a man do it? Well, let me ask you why does a man commit murder—for revenge or for profit? There's your answer. "A man who would plant boll weevils in a territory free of them would murder his own mother."

MISS GOULD NOW LADY DECIES

Vivien, Second Daughter of George Gould, Weds English Lord—Thousands See the Ceremony.

Vivien Gould, second daughter of Mr. and Mrs. George Gould and a granddaughter of the late Jay Gould, is now Lady Decies. The ceremony which united her with Colonel John Graham Hope Horsley-Beresford, D. S. O., fifth Baron Decies, was performed by Bishop David H. Greer of the diocese of New York. The thousands that gathered in the snow in front of the church had been

© 1911, by American Press Association.

LORD AND LADY DECIES, anticipated, and three hours before the ceremony a hundred policemen were stationed there. Besides providing a heavy guard, the traffic along Madison avenue was stopped. The couple will spend two months on or about the Nile before going to London for the opening of the season that is to be made by the coronation festivities.

THE REASON WHY

The reason why our Glasses give relief to the eyes is because we know where and how to place them. It's our business. Make it your business to see us. Spectacles and Eye Glasses correctly fitted to your eyes for \$1 and up.

DR. VINEBERG,

Masonic Temple, WILMINGTON, N. C.

NEXT CONGRESS LARGER.

Crumpacker's Bill Increasing House by Forty-two Members Passed. There will be 433 members of the house of representatives in the Sixty-third congress as compared with 391 in the present house.

The bill reported by Representative Crumpacker of Indiana from the census committee providing for reappointment on this 433 basis was passed by the house.

There was no record vote on the passage of the Crumpacker bill, but just previously a substitute offered by Representative Campbell of Kansas proposing to retain the membership at its present total was defeated, 151 to 171.

Count Apponyi, Peace Agent, Here. Count Apponyi, who is one of the most beloved as well as the most honored man in the kingdom of Hungary and one of the strongest apostles for world peace, stepped off the North German Lloyd steamship Kronprinz Wilhelm at its Hoboken berth and was warmly welcomed. This historic welcome prefaces the tour which Count Apponyi is to make of the large cities of this country as a preacher of the new doctrine of universal peace.

DEATH IN ROARING FIRE

may not result from the work of firebugs, but often severe burns are caused that make a quick need for Bucklen's Arnica Salve, the quickest, surest cure for burns, wounds, bruises, boils, sores. It soothes and heals. Drives off skin eruptions, ulcers or piles. Only 25c. at all druggists.

TWO CHILDREN DIE IN PARENTS' SUICIDE PACT

Ill and Out of Work, Man and Wife Turn on Gas.

Joseph Barrett, on his way up the stairs of the apartment house at 750 Fulton street, Brooklyn, stumbled against a man. It was Frank Bernard, who lived in the flat above him. Barrett told his wife that he had met Frank Bernard in the hallway and that he seemed depressed.

Several hours later Barrett smelled gas. The odor was hard to locate. He went up a flight of stairs and made sure it came from the Bernard flat. He tried the door, but it was locked. He went to his own apartment and used the fire escape to the apartment above. In the bedroom Barrett found Frank Bernard, his wife and two small children dead on the bed. Gas was rushing from a pipe in the chandelier. Barrett notified the police.

Bernard and his wife probably had agreed to die together and take their children with them. Frank Bernard was a well known athlete, trainer and was known all over the country as a amateur athlete. He became a professional some years ago and contested in the Caledonian and Irish-American games and in contests in all parts of the country. Last week Bernard was ill with the grippe, but he kept his head for a job. He could not find anything to do, and this, the police believe, is responsible for the death of himself and his wife and children.

GENERAL NEWS

The city police and the Yale faculty are investigating a snowball fight which occurred in the home of Yale freshmen in New Haven, Conn., which resulted in the arrest of four students. Three were taken on a charge of snowballing, which is forbidden by ordinance, and another, Frederick W. Ball, of New Haven, Conn., on a charge of resisting an officer. The other students arrested were Clarence Clark Prentice of Buffalo, John Lewis Hoffman of Radnor, Pa., and Ralph Wells, wife of Corcoran Manor, Mount Vernon, N. Y.

Colonel George W. Goethals, chief engineer of the Panama canal, who is in Washington, has made the flat declaration that the isthmian canal will be completed by September, 1913, at a cost of \$300,000,000, including all appurtenances, and will put the Tehuantepec route, its only transoceanic competitor, out of business. The machine shops at Balboa, the Pacific terminal, the coaling stations at both the Atlantic and Pacific terminals and other supply stations are all included in Colonel Goethals' estimate.

A bank on wheels is the latest in Paterson, N. J. The bank is fireproof and bullet proof and can travel fifty miles an hour if chased-by would be looters. This auto bank is expected to revolutionize the banking business, especially in the outlying districts. The portable bank is the property of a trust company in the city. The car is fitted up with a desk and office equipment, including compartments for books, checks and papers. A solid steel safe is built in one corner of the machine.

Sarah Bernhardt expects to come to America in 1915 to help celebrate the opening of the Panama canal. Mme. Bernhardt made this announcement in a little speech at a reception given in her honor at the National Press club in Washington. The fact that she was with Count de Spretter, her companion, when the first sod was turned at Panama had led to the conclusion that she must come back to this country once more when the canal is opened.

Representative Mann of Illinois has essayed a new role, that of promoter of a national pleasure show, to be held in the hall of representatives, at which Colonel George W. Goethals of the Panama canal commission will be the lecturer. Mr. Mann introduced a resolution and obtained the unanimous consent of the house for the performance. The scenes will illustrate work on the canal.

Andrew Carnegie has offered to give the Plainfield (N. J.) Public library \$50,000 for a new library building. The details of the proposition will be made public in a few days. The present Public library building was at one time the home of the mayor of the city. Through his will the dwelling was left to the city for library and reading room purposes.

Dr. Richard P. Strong, a scientist of the bureau of science of the Philippine government, has been directed to go to China to investigate the plague situation at the request of the Chinese government. Dr. Strong is chief of the bacteriological laboratory at Manila and also is professor of tropical medicine of the University of the Philippines.

A special from Wheeling says that John O. Schenk, millionaire packer, has filed the petition in his suit for divorce against Mrs. Laura Farnsworth Schenk, recent defendant in the famous poison trial. He names Daniel Z. Phillips of Wheeling, piano salesman, as a correspondent.

President Taft arrived in Columbus, O., on his way to Springfield, Ill., where he will attend the celebration of the birthday of Abraham Lincoln. But before he gets back to Washington the president will also have fired some important shots in behalf of reciprocity with Canada.

OLD SOLDIER TORTURED.

"For years I suffered unpeakable torture from indigestion, constipation and liver trouble," wrote A. K. Smith, a war veteran at Erie, Pa., "but Dr. King's New Life Pills fixed me all right. They're simply great!" Try them for any stomach, liver or kidney trouble. Only 25c. at all druggists.

A good many who are saying "cheer up" ought to cash up.

When the church acts like a circus the side shows always swallow the main tent.

CRIMES AND CASUALTIES.

A family of seven, including the father, mother and five children, was killed by illuminating gas in the little home in Peaslee place, Philadelphia. The family was killed by the accidental loosening of a rubber gas tube from a pipe running across the main living room. Minnie was to have been married within a few days.

Erwin J. Wider, the clerk of the Russo-Chinese bank of New York, who managed to steal \$280,000 from the bank, the bulk of which he lost in stock gambling in Wall street, was sentenced to serve fourteen years in Sing Sing. Since Wider was arrested last July he has been in the Tombs, and following his confession, which came shortly afterward, his sentencing has been postponed from time to time in the hope that he would tell what became of \$240,000 that has not been satisfactorily accounted for.

The same people who crowded Lederman's three rooms on the third floor of the decrepit tenement at 13 Orchard street, in New York, met there again a few hours later. Saturday was the birthday of both Tillie and Annie Gerchowicz, Lederman's two boarders. Tillie was nineteen years old and Annie, her cousin, was seventeen. The last gathering was different, for the two girls were found dead in bed, with gas escaping from the single jet in their room. It was probably an accident.

Peter Putnick, who was arrested in Vallhalla, N. Y., as a fugitive from justice from Cumberland, Md., is in jail at White Plains. Putnick emptied his revolver at Inspector Burke and officers before he was arrested. He is awaiting extradition. It is alleged that Putnick made away with \$14,000 while in Maryland. Taking another officer with him, Inspector Burke went after him, but when Putnick saw them coming he fired at the officers. None of the bullets took effect.

Samuel Latina of Pittston, near Wilkesbarre, Pa., who was one of the witnesses at the recent trial of a gang of Italian counterfeiters in New York, was shot down near his home and fatally wounded, the attempted murder being the fate that he had dreaded because he gave evidence against the gang. Since his return home he had gone about armed and had been watching for his friends and family that the gang had threatened to kill him in revenge.

Because she spurned his love and refused to marry him James Vlasos, who lived in Seattle, Wash., shot and killed Miss Garm Gillette, a New York show girl sister of Miss Viola Gillette, leading woman with Jefferson De Angelis, who is appearing in "The Beauty Spot" at the Moore theater, and then shot himself. Miss Gillette was dead when her body was found in the apartment of Vlasos. He died in the City Hospital.

After saving three of her five children from a fire which destroyed her home, Mrs. Peter Ecklund of South Newcastle, Pa., was forced to leap from a second story window and received injuries which may prove fatal. The woman, who is unconscious at the home of a neighbor, does not yet know that the bodies of her four-year-old son Arthur and her three-months-old daughter are in the ruins.

Sheriff Noel Hendley of Cumberland, Md., and John Switzer, an aged German, probably will die as a result of a gun battle when officers attempted to serve a writ of ejectment on Switzer at his home. Both men are in hospital. Switzer was twice wounded. The sheriff, Switzer was in turn shot below the right shoulder by another sheriff.

Suffocated by smoke from a burning feather bed, Charles Fisher, a baker, met death in his room in a boarding house at Bradley Beach, N. J. He was found at the door of the room, evidently having made an effort to escape. There was no mark of fire on the body, and it is quite certain that he died of suffocation.

George Spraker, a farmer, was found frozen to death in a snowbank a short distance from Yosts, Montgomery county, N. Y. Men were about to cut a tree when they noticed a foot protruding from the snow in an adjoining field. When the body was drawn from the snow it was found to be that of Spraker.

Ten shop employees of the Missouri, Kansas and Texas railroad were torn to fragments and seven others were injured when an engine under repair exploded in the Smithville (Tex.) yards. Besides the loss of life railroad property valued at \$20,000 was destroyed.

DEATHS OF NOTED PEOPLE.

Melville W. De Wolf, a vice president of the Erie Railroad company, died at the Hotel Marcelline in New York from heart disease brought on by an attack of pneumonia from which he had suffered for years. Mr. De Wolf entered railroad life in 1873 as agent of the Erie and Pacific Dispatch company. In May, 1893, he was appointed general eastern freight agent of the Erie, and then back to Nevada, where he was rector of St. Paul's at Virginia City. Upon the death of Bishop Stevens in 1887 he was made bishop of Pennsylvania.

George L. Peabody, the Boston banker and clubman, who had been a patient in Johns Hopkins hospital, in Great Cement Demand. Two years ago there was an overproduction of 100 per cent. starting cement manufacturers in the face, as the estimated capacity of the plants at that time was 100,000,000 barrels per year and the consumption only 50,000,000. Present conditions indicate a consumption of 75,000,000 barrels this year. This increased demand, coupled with the fact that large Eastern manufacturers for two years have sold large quantities South and West at unprofitable figures, has caused the advance.

Life Insurance.

The best business men and farmers carry life insurance because their money is safely invested and again their lives are protected in case of death. It makes young men save their earnings for after years, for the rainy days and for a large estate that in this way is created by a smaller cost than any other way. The Mutual Life of New York, is the oldest and strongest in America. Get in the best possible company when you do insure. See Hines—the agent, at Kenansville, who represents the strongest Company of any kind in the world. Men and women should insure while they can and at a lower rate than will ever be offered again.

Keep the wolf from the door. Prepare for old age. Be independent in life. Save a part of your earnings. THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK. D. S. HINES.
