50 Per Cent Better

"I have used less than one bottle of Cardui," writes Mrs. Gertrude Ward, of Rushville, Neb., "and am feeling fifty per cent better than when I began taking it. Before taking Cardui, I had suffered with female trouble, for eight years. My greatest trouble was irregularity. I also suffered with severe pains, every month, but now I am greatly improved and will recommend Cardui to all my suffering friends."

Take CARDUI

The Woman's Tonic

The rare medicinal herbs of Cardui are imported by the manufacturers direct from Europe and are not to be found in any other medicine. These ingredients are what give Cardui its superiority, as a female medicine and tonic, over any other medicine. For over 50 years Cardui has been the favorite woman's medicine. The ladies like it, because it is so easy to take, so gentle, so safe, so reliable in its results, and they have faith in its curative, tonic powers, because of the thousands of other ladies it has helped. Try it today.

Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free.

THE DESTROYED CAPITOL.

Library and Recording Room in \$25,000,000 Building.

Murderer Makes Light of Gallows. A remarkable display of nerve was made in the county jail yard in Pottsville, Pa., by Joseph Christock, who was hanged for the murder of Mrs. Ann Richards. Declining the assistance of a priest and deputy sheriff, he walked smilingly from his cell to the foot of the gallows and ran lightly up the steps. It was a public hanging, and before him stood 1500 persons, to whom he waved his hand. Then he reached up, grasped the noose and placed it around his neck, put his arms by his side to be strapped, and cheerfully said, "Goodbye, all."

Woman Suffrage in Wisconsin. Women suffrage in Wisconsin is assured for all offices excepting president. The senate without debate passed the measure giving women the ballot, the only condition being a referendum, which submits the proposition to the voters of the state for final decision. This will prevent the women voting for governor at the next state election in 1912, for the referendum will be held then.

Sings to Spare Mother. Fatally injured, but singing at the top of his voice to prevent his aged mother from being shocked by his terrible condition, John Grady, of Nanooke, Pa., was taken to his home to die. While repairing some wires a current of 4000 volts was accidentally turned into the wires. Grady had both arms burned off near the elbow and one leg burned to the bone. As he was being carried into his home he sang "Top o' the Mornin'," a favorite song of his aged mother, and called to her cheerily that he had been slightly burned. He died a few hours later.

To Open More Postal Banks. Postmaster General Hitchcock has designated forty-five additional post-offices as postal savings depositories in as many states and territories, mostly at industrial centers. Among the offices designated were: Havre de Grace, Md.; Burlington, N. J.; Berwick, Pa., and Alexandria, Va.

Boston Sewer Runs Red. The Hanover street sewer in Boston Tuesday ran red for an hour. No blood was shed, however. The scarlet flow came from 1500 gallons of tomato ketchup, emptied from twenty-nine large barrels into a manhole. The ketchup was seized by United States deputy marshals and condemned as unfit for food.

Peary Now a Rear Admiral. Commander Robert E. Peary was commissioned a civil engineer, with the rank of rear admiral, in accordance with the act of congress passed at the last session. The appointment is to date from April 6, 1909, the day he reached the North Pole.

Aviator Falls 2000 Feet to Death. M. Col, an aviator, was killed while he was attempting a flight over the Seine at Puteaux, near Paris. At a height of 2000 feet he lost control and the machine crashed down. The aviator died a few hours later.

Great Cement Demand. Two years ago there was an over-production of 100 per cent, starting cement manufacturers in the face, as the estimated capacity of the plants at that time was 100,000,000 barrels per year and the consumption only 50,000,000. Present conditions indicate a consumption of 75,000,000 barrels this year. This increased demand, coupled with the fact that large Eastern manufacturers for two years have sold large quantities South and West at unprofitable figures, has caused the advance.

N. Y. CAPITOL WRECKED BY FIRE

Blaze Causes \$7,000,000 Damage to Building.

ONE MAN LOST HIS LIFE

Combustion Starting From Fused Electric Wire Sweeps Through Structure and Ruins Many Departments—Was Hard to Subdue.

The granite walls of the New York capitol building in Albany, majestic and white twenty-four hours ago, and holding the machinery of the state government, are blackened from the flames that have been kissing them for eight hours. The entire western section of the capitol is almost completely destroyed, at a loss of at least \$7,000,000, and half of the state departments are crippled and homeless. Electricians say the fire was started by a fused electric push button becoming electrically shorted.

Franklin B. Ware, the state architect, placed the loss officially at \$5,000,000, but nobody would be surprised if it ultimately went a few millions more. Samuel J. Abbott, aged seventy-seven years, a Civil War veteran, who was employed as a night watchman in the state library, is supposed to have perished in the flames. His body has not been found.

Capitol Hill is a dismal spot. A battalion of national guardsmen are doing sentry duty around the whole building with a vigilance that would baffle a captured fort. This was the place where the legislators and the crowds had lingered until 1 o'clock in the morning for a possible outcome of the senatorial caucus. The whole legislature is further out of the capitol than politicians could ever put it, and both houses will be doing business for some days in the municipal chambers of Albany's city hall, a block below the capitol.

As a result of one of the most disastrous fires that ever ate up state property, the \$26,000,000 capitol, which took years to build, furnished such ready fuel for the flames that the fire burned eight hours before it was under control. With its origin somewhere in the rear of the assembly judiciary committee's room and assembly library on the third floor, the fire spread with alarming rapidity, wiping completely out of existence the entire state education department, with its state library of world-wide fame, and of a value that cannot be estimated in dollars, and destroyed other state offices with an ease which baffled the firemen and gave Albany one of the worst nights it ever spent.

Granite pillars were no barriers for the flames. They got a start in the assembly judiciary committee rooms and claimed the state library, with its hundreds of thousands of books and pretty wooden partitions of carved oak in one gulp. They swept over the entire third floor of the capitol at the western end, while the big plate glass windows crumbled and fell with crashes that tumbled the residents within ten blocks of the capitol out of bed, and then went merrily skyward 200 feet. Within a half hour after the fire started for fifty miles about was transformed into daylight. The heavens were illuminated with the kind of reflection Albany never saw before. The capitol building on the top of the hill, plain to the naked eye for at least fifty miles, was now the great beacon light, giving a display which was as spectacular as it was threatening.

Morse Must Stay Behind Bars. From sources close to the president it has learned that the pardon appeals of the bankers, Charles W. Morse, of New York, and John R. Walsh, of Chicago, undoubtedly will be denied. It is stated that the attorney general's recommendation in both cases is adverse and that the president will follow its findings. Various reports as to the recommendations of the attorney general have been current, and two weeks ago it was rumored that Morse was to be pardoned. This report was without foundation, for even friends of the banker had not expected anything better than a commutation. It is said that the president will even deny a commutation.

Reform Mayor Kills Himself. Mayor Shafter Sigel, of Hackettstown, N. J., committed suicide by hanging himself from a beam in his blacksmith shop. Sigel first cut his throat with a penknife, and when this method was unsuccessful he hanged himself. His wife found the body. Mr. Sigel, so far as known, had no financial troubles. He was elected mayor last November and tried to introduce a reform policy, but was unsuccessful. His friends believe this was responsible for his act.

SOMETHING NEW FOR WALLACE

AT THE HALL MERCANTILE CO., Inc.

Never before in the history of Wallace, or Duplin County, has such a large and select stock of Goods in everything to wear been placed on the market as you will find at this Store.

THE TEST WAY IS THE BEST WAY, the right way to prepare for a Clothes purchase is to compare values, that's what we do, that's what you should do.

Respectfully, THE HALL MERCANTILE COMPANY.

NEW YORK SENATORIAL DEADLOCK IS BROKEN

Justice O'Gorman Is Elected by United Democratic Factions.

The Hon. James A. O'Gorman, a supreme court justice for New York county, is the new Democratic United States senator from New York in place of Chauncey M. Depew, whose term expired March 4. Senator O'Gorman received 112 votes; Mr. Depew received 80 votes. Necessary to a choice, 97.

The nomination and election of Senator O'Gorman was brought about by the power of Charles F. Murphy and Francis Lynde Stetson. Senator O'Gorman died within the next few days, possibly in San Antonio, although it may be held in Mexico, he said. "I do not know yet who will be the representatives of the Mexican government."

Francisco Madero, Sr., Alfonso Madero and Cuervo Madero will be the representatives of the revolutionary party at this conference, it was said at the revolutionary junta.

This is a part of the program of conciliation that Francisco Madero outlined as the basis of the reconciliation between the revolutionists and the federal government.

Wife Murderer Gets 30 Years. William H. Strong was convicted of murder in the second degree by the verdict of the jury, after one hour's deliberation, and was sentenced by Justice Thomas W. Trenchard at Mays Landing, N. J., to a term of thirty years in the state prison at hard labor.

The old farmer, who was seventy years of age his last birthday, took his sentence calmly and was led away to a solitary cell, where he was placed under guard to prevent any attempt at suicide, though he assured the officers they need not worry about him, as he expected to get a new trial.

Counsel said an appeal would be taken and a motion made for a new trial.

DUVEENS FINED \$20,000.

New York Importers Deceived Government Out of Duty. Louis Duveen and his brother, Joseph S. Duveen, both members of the firm of Duveen Bros., art importers, of New York, both surrendered before Judge Martin in the criminal branch of the United States circuit court and pleaded guilty to indictments charging them with defrauding the government out of duties on importations.

Upon the plea of guilty, United States District Attorney Wise asked that the maximum fine be imposed on the two men, and Judge Martin fined them \$10,000 each. This is the maximum fine. Both men paid.

Benjamin S. Duveen and Henry J. Duveen, also members of the firm and jointly indicted, are at present on bail.

Ohio Political Boss Missing After Third Perjury Indictment. The sudden disappearance of George B. Cox after a third perjury indictment was returned against him has caused Prosecutor Hunt to ask the governor of Indiana to arrest the missing Republican boss.

Many rumors are current as to the whereabouts of Cox, and the prevailing opinion is that he has sought temporary seclusion at the Laughery club, about twenty-five miles from Cincinnati, this quiet place of Cox and his lieutenants and their most trusted followers being on an island in the Ohio river.

Communication is difficult with this island, and there is no direct connection by telegraph.

LAUNCH NEW DREADNOUGHT.

American Girl Christens Latest British Man-of-war. An American woman, Lady Louis Harcourt, wife of the colonial secretary, and who before her marriage was Miss Mary Ethel Burns, christened the superdreadnought Monarch, which was successfully launched at Elswick. Thousands cheered as the fifth of this type of British battleships took the water.

The Monarch is the largest battleship ever built on the Tyne and inaugurated a departure in ship construction, being launched with her boilers, funnels, bridge and other equipment already installed.

DEATH IN ROARING FIRE may not result from the work of firebugs, but often severe burns are caused that make a quick need for Bockell's Arnica Salve, the quickest, surest cure for burns, wounds, bruises, boils, sores.
