THOS. FERRETT, Notary Public.
My commission expires Nov. 19, 1912.

CARNEGIE TO TESTIFY IN STEEL TRUST PROBE

Stanley Committee Decides to Subpoena Ironmaster.

The Stanley committee, chosen by the house to investigate the United States Steel corporation, has decided to subpoena Andrew Carnegie as a witness.

Members of the committee decline to say anything about the men who will be summoned to testify, but it is understood that a deputy sergeant at arms of the house already has been sent to New York to serve Mr. Carnegie with a subpoena before he leaves this country on his usual summer trip to Scotland.

The house committee wants Mr. Carnegie's version of the steel organization.

The committee begins work at once. The department of justice gathered a large amount of data which will be

CONGRESSMAN STANLEY.

turned over to the special committee. The bureau of corporations also has at hand information which Commissioner Herbert Knox Smith will turn over to Chairman Stanley.

A discussion as to whether President Taft will sign the Flood statehood resolution in the event of it being concurred in by the senate took place in the house.

The resolution provides that the constitutions of Arizona and New Mexico shall be resubmitted to the people and that after the people have again voted on provisions that have been brought into controversy Arizona and New Mexico, whatever the result, shall be admitted to statehood.

Representative Mann, the minority leader, declared the president's opinion as to the recall of the judiciary was fully known "and that he had no idea that the president would sign the measure if it was submitted to him for approval."

REOPEN LORIMER PROBE.

La Follette Will Request Congress to Make Another Investigation.

Senator William Lorimer of Illinois must again defend himself against charges that his election was acquired by bribery and corruption. A situation has been automatically created which leaves no alternative but to reopen the investigation.

This was caused by the report of the Illinois legislative committee that corrupt practices were employed to secure the election of Mr. Lorimer. It was clinched when the Illinois legislature adopted a resolution requesting the United States senate to make another investigation.

Mr. La Follette will raise the question as soon as the senate convenes.

LONG DEBATE ON STATEHOOD

Fight on Bill to Admit Arizona and New Mexico to Union.

Debate in the house on the joint statehood resolution to admit Arizona and New Mexico continues, with the prospect that discussion would not be terminated before the end of the week. Democratic leaders, who had hoped to dispose of statehood in two days at most, are surprised that so many on both sides wish to speak. The amendment requiring the people of Arizona to vote again on the recall of the judiciary is the chief subject of discussion.

NEW WIRELESS INVENTION.

Harvard Man's Apparatus Will Double Sending Strength.

A new system of wireless telegraphy which, it is claimed, will revolutionize the science of the mysterious waves of the air and more than double its value, has been perfected in part and adapted to use of ocean liners by Robert Anderson Morton, Jr., of Brooklyn, N. Y., a Harvard senior.

This means that with the same power the apparatus will more than double the ordinary transmitting distance. Governors to Meet in Jersey. After long correspondence the date for the annual conference of governors has been set for Sept. 12. It will be held in the new Monmouth hotel at Spring Lake, N. J. This announcement was made by Charles L. Paek, acting chairman of the citizens' committee. Sessions of the conference will be held three times a day for three or four days.

WHY DO THEY

"The three saying, 'A question is never settled until it is settled right,' is more worthy of notice than is usually given it. The liquor men claim they are going to settle the liquor question by regulation, but hundreds of years of failure to regulate shows any mind whose gray matter has not been poisoned by alcohol that this is not the right settlement. If prohibition is such a failure why does every class of liquor men fight it so vigorously?—Alabama Citizen.

HAWAII SUBMITS A PLEA FOR STATEHOOD

Island Territory Asks Congress For Constitutional Convention.

A concurrent resolution of the senate and house of Hawaii asking congress to pass an act for a constitutional convention and to admit the territory to statehood was laid before the house of representatives by Speaker Clark. He also submitted resolutions of the Hawaiian legislature petitioning congress to amend the organic territorial act authorizing the territory to employ funds by taxation to prepay fares and encourage immigration of Caucasians, to authorize the appointment of a commission to manage the lease in the developed lands of the territory so that the income may be applied to educational improvement and extension and homesteading and to approve an act providing for the construction of a great irrigation ditch from Hilo to Kau.

The resolutions were referred to the committee on territories. The resolution containing the act of the Hawaii legislature providing for setting aside of land rentals for educational purposes cites to congress the fact that there are available for this purpose 40,000 acres of developed land, most of which is leased to corporations and owned, properly managed, would provide an income of \$400,000 a year for educational and homesteading purposes.

Governor Charles Osborn of Michigan told the president that his state would be for him in the 1912 convention, endorsed him personally, praised his progressiveness, placed the stamp of his authorship on a stock phrase of Theodore Roosevelt and calmed the fear of politicians here as to the attitude of Michigan toward Canadian reciprocity.

"Michigan will be for Taft in the 1912 convention, I think," said Governor Osborn as he left the White House. "Personally, I am for Taft because I believe in him, and also I don't think that we could afford to split the Republican party by standing for any one but Taft."

"I am a progressive Republican, but not a professional politician. I am of the sort of progressive that President Taft is."

FIGHT RECIPROcity DELAY.

Senator Stone Rebels at Slowness of Finance Committee.

The first evidence of revolt against the senate in consideration of reciprocity were manifested when Senator Stone of Missouri announced he would move daily hereafter that the committee proceed to vote on the question of reporting the bill.

"I may be voted down," said the senator, "but I will renew the motion each day until we get a vote on reporting the bill."

COX FREED OF CHARGES.

Two Perjury Indictments Against Republican Bosses Killed.

George B. Cox, the veteran Republican boss of Cincinnati and Hamilton county, has been freed by Judge William L. Dickson from charges of perjury through the quashing of the two indictments against him.

The first indictment was based on the fact that Cox had testified before a previous grand jury that he had never received graft, whereas a former county treasurer testified to having paid him \$4,500 a part of so called "gratuities" received from city banks favored with deposits of city and county funds.

A few days later a second indictment was reported against Cox for a similar transaction in which he had received \$17,500.

TO SELL PANAMA BONDS.

\$50,000,000 Worth Issued to Public at 3 Per Cent.

An issue of \$50,000,000 of the Panama canal bonds, part of an act passed in 1909 has been offered for public subscription by the secretary of the treasury.

The bonds will bear interest quarterly at the rate of 3 per cent per annum, will be dated June 1, 1911, and will be payable on June 1, 1961, at the option of the government.

WILSON WOULD NOT REFUSE.

"I could not have the audacity to seek the nomination, but no man is too big to refuse it," said Governor Wilson of New Jersey, when asked point blank on his arrival in Portland, Ore. if he was a candidate for the Democratic nomination for the presidency in 1912. Governor Wilson was accorded a tremendous ovation on his arrival. Sessions of the conference will be held three times a day for three or four days.

FRENCH WAR MINISTER KILLED BY AEROPLANE

And Premier Monis Is Dying After Fatal Accident.

Henry Maurice Berteaux, the French minister of war, was killed and Antoine Ernest Monis, premier and minister of the interior, was probably fatally injured as the result of an accident at the start of the Paris to Madrid aviation race at the drill ground at Issy les Moulineaux. Fifty thousand French people with the holiday spirit and in holiday attire awaited the start. The first away was Naval Lieutenant Conneau. He was followed shortly by the other starters. The crowd was cheering the men who had got away when Train, the new aviator, was to be seen approaching the drill ground in his machine. He was flying a steel monoplane built and patented by himself, and as he circled to try his motor it was seen that something was wrong. As Train arose the premier and minister of war and other notables, being unable to see from the stand of honor, moved nearer to the starting line. The crowd followed. The crash was tremendous, and it was necessary to call for another squad of aviators to ride over them and keep back the throngs. Train was shutting off his motor and preparing to alight directly over the horsemen as they rode upon the field. In order to avoid striking them Train shot into the air again. He was unable to see the group of notables just on the other side of the horsemen.

Having cleared the outriggers, Train slanted toward the earth again and dashed headlong into the crowd beyond.

Minister Berteaux was ahead of the machine. The propeller caught his right arm, which he had raised to fend off the blow, and in a second had torn the member from the body. M. Berteaux was killed instantly.

Premier Monis was buried beneath the machine and was unconscious when lifted from the ground. Both bones of his right leg and all of the bones of his neck were broken. His scalp was frightfully torn, and upon examination it was found that he was suffering from internal injuries. He was carried at once to his home.

THREE MORE ARRESTED.

Ohio Grand Jury Finds Members of Legislature Guilty of Soliciting Bribes.

The arrest of three more members of the Ohio legislature will probably be followed by others facing bribery charges when the grand jury reconvenes on May 31, the day the legislature adjourns.

Senator Edgar T. Craft, Republican, is accused of soliciting from W. H.

A. CLARK LOWRY.

Cook of Springfield, secretary of the Ohio Retail Butchers and Grocers' association, a bribe of \$200 while the Crawford bill to compel the redemption of trading stamps in cash was pending.

Representative A. Clark Lowry, Republican, is accused of soliciting from Opha Moore, secretary of the Ohio Manufacturers' association, a bribe of \$1,500 while the Green bill limiting the hours of employed women was pending.

SUMMER CAPITOL FOR WEST.

Boosting Lake Minnetonka as Residence For President Taft.

The proposition to establish a summer residence for the president on Lake Minnetonka, Minnesota, near Minneapolis, has been received with favor by President Taft.
