

## BLACK-DRAUGHT AS A PREVENTIVE

When You Begin Feeling Bad With Feverishness, Headache, Cold, or Constipation, Give Your Liver a Tonic—Take Black-Draught.

Candler, N. C.—"I don't believe there is a better medicine made than Black-Draught; I have used it and my mother's folks used it for colds, feverishness, headache and deranged liver." This statement recently was made by Mr. C. B. Trull, a well-known farmer on Route 3, this place.

"I have, before now, begun feeling dull, a headache would come on, and I would feel all full of cold, and take a few doses of Black-Draught and get all right," adds Mr. Trull.

"Last year my brother had measles, flu and pneumonia. They wired us; I went to Camp Jackson to look him up. Down there different ones were using preventatives. I stayed with him. The only thing I used was Black-Draught. It kept my system cleansed and I kept well and strong."

By keeping your liver and stomach in good order, you stand in little danger of catching serious ills that occasionally spread through town and country.

Get a package of Black-Draught and have it ready for the first symptom of a disordered liver.

## EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative issues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

## For more than Forty Years Cotton Growers have known that POTASH PAYS

More than 11,651,200 Tons of Potash Salts had been imported and used in the United States in the 20 years previous to January, 1915, when shipments ceased. Of this 6,460,700 Tons consisted of

## KAINIT

which the cotton grower knew was both a plant food and a preventive of blight and rust,—with it came also 1,312,400 Tons of

## 20 per cent MANURE SALT

which has the same effects on Cotton, but which was used mainly in mixed fertilizers.

Shipments of both Kainit and Manure Salt have been resumed but the shortage of coal and cars and high freight rates make it more desirable to ship Manure Salt, which contains 20 per cent of actual Potash, instead of Kainit, which contains less than 13 per cent actual Potash.

MANURE SALT can be used as a side dressing on Cotton in just the same way as Kainit and will give the same results. Where you used 100 pounds of Kainit, you need to use but 62 pounds of Manure Salt, or 100 pounds of Manure Salt go as far as 161 pounds of Kainit.

MANURE SALT has been coming forward in considerable amounts and cotton growers, who cannot secure Kainit, should make an effort to get Manure Salt for side dressing to aid in making a big Cotton Crop.

## Muriate of Potash

50 per cent actual Potash, has been coming forward also,—100 pounds of Muriate are equivalent to 400 pounds of Kainit or 250 pounds of Manure Salt.

These are the three Standard GERMAN Potash Salts that were always used in making cotton fertilizers and have been used for all these years with great profit and without any damage to the crop.

The supply is not at present as large as in former years, but there is enough to greatly increase the Cotton Crop if you insist on your dealer making the necessary effort to get it for you.
