Agricultural Department

OF THE FARMERS BANK & TRUST CO

Conducted By C. C. Proffitt

What to Do For Alfalfa When it Turns Yellow

If your alfalfa is looking sickly clip off and leave it on the land. It will come stronger next time. The success of the alfalfa that is growing in this county depends to a great extent on its being clipped early the first time.

Will you as a farmer, help to make Rutherford the banner alfalfa county in North Carolina?

One acre of alfalfa on each and every farm will break the estate record and will be worth thousands of dollars to this county. You can't possibly lose by starting one acre. If you should fail to make any success with alfalfa the first year you really haven't lost, because you will have increased the fertility of that soil enough to pay all expenses.

The amount of cash that is leaving out of Rutherford county each year for hay, is enormous. Selling high priced cotton to buy high priced hay is not good farming. We are in distressing need of more and better live stock in this section, but we can't have it until we begin to grow something for such stock to eat. Just one acre of alfalfa on every farm will relieve this situation to a very great extent.

A fine bunch of farmers have already decided to join this movement and are planning now to seed this fall. Think it over and fall in line.

C. C. Proffitt, Manager Farm Dept. Farmers Bank & Trust Co. Forest City, N. C.

Celebration for Forest City

Why not have a Celebration on the occasion of the flashing of the "White Way"? What's to hinder a band concert and a good speech from some celebrity interested in civil improvement that will bring a crowd to Forest City from far and near? Business of course. Civic pride? To be sure. Lets get together, clear the debris, advertise, secure the necessaries, invite the folks, put in the extra clerks, entertain our friends, and receive the up lift.

What do you say Chamber of Commerce? What do you say Civic League? Ann what say you, E. G. Abernathy? B. L. Smith.

The Courier job printing office is equipped with new material and prepared to turn out as good printing as anybody. We will appreciate your business, give you good work and get it out on time.

KOREAN TAXI IS A WOMAN

When an American wants to travel, he telephones for a taxicab. But in Korea the taxis are "jiggis,"—baskets of wood and bamboo. The front view of the "jiggi" gives the impression of a spreading fan, but in the rear is a platform on which the trunks or other baggage are placed. The children are piled on top of the boxes and the strange moving van bobs away.

Perhaps a boy only fifteen or sixteen years old will play the part of beast of burden, but it is generally a Korean woman who tests her strength to the breaking point as she carries a steamer trunk down the street.

The condition of women and children in foreign lands is a problem to which the new Interchurch World Movement, in which America's Protestant bodies are cooperating, has been asked to give special attention. To this end, schools and social centers are to be established at various points throughout Korea, while a central union college also is to be staffed and equipped at the expense of the churches of America.

CLEAN UP!

Now let us give the war a rest, The rout, the siege, the sally And gayly shed our coat and vest. And go and clean the alley!

Let's gather up the dogs and cats Which have this life departed, And let tincans and bricks and hats Off to the dump be carted.

In winter you may voice your views Which you believe important, And base long sermons on the news But in the spring you'd ortn't.

Then every able-bodied man Should whoop the "Clean Up" slogan, And chase the tomato can, The cast-off hat and brogan.

So let us clear our bulging brows Of trifling thoughts and narrow And gather up the old dead cows, And work the rake and harrow.

The rubbish left by careless men, And lazy human cheeses, Will bring a host of germs again, And they'll bring punk diseases.

And forty billion flies will come, As many microbes bearing, And round our weary heads they'll hum, And keep us busy swearing.

Clean up! Clean up! On every block Let all the workers rally! No man should stand around and talk Until he's cleaned his alley!

—Walt Mason.

Proffitt will have charge of the delegation and are planning for the trip to be made at nominal expense.
