Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

Asheville's patriotism was short-lived. The news of the armistice brought forth great gobs of enthusiasm among her citizens, and the exempted males were regular "sob sisters" when the boys were returning home. This didn't take any money, any feort or inconvenience to any one. Now, when some real true-blue fellows, feel that they owe a debt to the boys that can never be paid, and wish to show their appreciation of the valor and sacrifices of these boys, by entertaining them during the re-union of the "Old Hickory" Regiment in Asheville this month, there's nothing doing. The'll with such patriotism!

Gladys Rice.

Miss Gladys Rice, the celebrated American Soprano, assisted by Miss Adeline Packard will be heard in an unique recital at Cliffside Auditorium, Thursday evening, Sept. 9th. Miss Rice is one of the most promising young sopranos now on the concert stage. She is the possessor of a brilliant soprano voice of very distinctive quality. She was born in New York City, and has accomplished her vocal artistic training entirely in America, of which fact she is very proud.

Miss Rice will present a program of some of the best known and most popular songs in the English tongue. The fact that she is assisted by such a charming artist as Miss Adeline Packard lends added interest to the affair.

The recital is to be complimentary in character, admittance being by card of introduction only which may be secured from Cliffside Mills Furniture Store so long as accommodations remain.

School Opening

The Forest City public schools will open Monday, September 20. I want to urge all parents to send in their children at the very beginning. It is very important to get started with the others. All children between the ages of eight and fourteen come under the Compulsory School Law and have to attend the entire eight months in the Forest City schools or any other place where the term is that long.

I believe we will have the best school in Forest City this year we have ever had. I expect to enroll seven to eight hundred children. The teachers are the best prepared we have had. Let everybody take full advantage of the opportunity offered. The school is at your service.

Any pupils living in the country who can enter the high school are invited to attend. We have had an increasing number of pupils coming in from year to year. Their influence has had a good effect on the work of the school. We need more of you. The school will have an additional teacher in the high school and can give better instruction. A course in Agriculture will be given under Mr. C. C. Profit. There are no tuition charges for any of the work. Make you plans to come.

Berj. L. Smith, Supt.

AMERICAN RED CROSS TO GIVE RURAL HELP

Program for Public Health and Community Welfare is Now Well Under Way.

... and towns of less than 1000 people benefit in a very real way from the work of the American Red Cross Rural Service. Almost all of the chapters have some kind of a program. Their purpose is to assist people to get out of life more health, wealth and happiness. In this purpose public health instruction and general educational progress of both children and adults play a big part.

Recreation is found to be one of the biggest needs in rural life. There is lack of sufficient play-life for the children and social life for the adults. Picnics, pageants, debating clubs, baseball leagues, community singing and other social events which bring the people of surrounding communities together have been organized and carried on under the guidance of Red Cross rural workers to great advantage. In many instances solving recreational problems and getting people together proves to be the awakening of the community to other conditions which may be improved by united action.

As a result of community organization, townships in which there had been neither plans nor interest in community progress have been organized to work together with the unified purpose of bringing their community up to the most enlightened standards. Lecture and musical entertainment courses have been started as a result of community meetings, as well as circulating libraries, Red Cross schools of instruction in Home Nursing, Care of the Sick and First Aid. In the larger towns the need for restrooms and public comfort stations is being met. Playgrounds for the children have been established and recreational activities worked out for the year.

In order that there may be concerted effort in carrying on the programs of the various welfare agencies in the rural districts, Red Cross Rural Service helps the organizations already on the ground. The main object of the service is to lend a hand everywhere and take the lead only where necessary.

Something like ten years ago, before he became a Vitagraph star, Harry T. Morey was described as a "robust" actor. His fine physique has stood him in good stead in the silent drama. He has been able to play all sorts of roles, and look the part.

WHAT THE ANTIS DON'T TELL YOU

Anti-suffragists tell you that between 1916 and 1918 the Socialist vote increased 22 per cent. So it did, but what the antis don't tell you is that the increase came in the year 1916-1917, when women were not voting. The Socialist state vote for governor in 1918 was 23,623 less than the city vote alone for mayor in 1917. City vote: 1916, for governor..... 33,578 1917, for mayor..... 145,328 1918, for governor..... 86,427 A decrease of 58,901 in the city Socialist vote in the year women voted. If you are going to disfranchise anybody for being a Socialist, disfranchise the men. They contribute the bulk of Socialist votes.
