## Prove Your Faith in Your Home Town

### Experts Say Build Now!

The best authorities advise building now. They say that those who wait for lower prices will likely meet DISAPPOINTMENT!

Labor is cheaper and needs the employment to keep business conditions good.

Materials are now plentiful at reasonable prices but building activity the country over will likely boost prices and make materials difficult to get.

Delay should not stand in the way of Forest City's growth.

Now is the time to show your faith in Forest City.

Figure on that building immediately.
