"The Standard by which all other makes are measured"

## PORTLAND CEMENT

PROBABLY the first place you ever noticed concrete was in concrete sidewalks. This was only about twenty-five years ago. Today hardly any other kind is built.

Concrete has proved its economy, its suitability, its permanence. Even though most of those first walks were built before concrete construction was properly understood, some of them are still giving good service.

Today your dealer is able to give you the same cement that has stood the test of over twenty-five years' use on all types of work. For more than a quarter century Atlas Portland Cement has been "the Standard by which all other makes are measured."

## WORKING HARD TO COMPLETE HIGHWAY

Interesting Figures on What is To Be Done For Good Roads in This County.

Tourist travel over the Charlotte-Asheville highway should be heavy this summer, as this road, with the exception of two gaps, is practically completed. According to the Asheville Times a hard surfaced road was contracted for from Fairview to the Rutherford county line, about four miles above Chimney Rock. Good work is being done to have the gap from there to Rutherfordton put in proper shape. Hard surface road from Rutherfordton to Forest City is practically assured. Then if the gap between this city and Shelby could be closed, the highway would be practically completed.

The benefits of travel over the highway is fully recognized by every one in this section, and a strong hard pull for the realization of the project should be made.

Messrs. W. G. Harris and G. W. Rollins, members of the Board of County Commissioners went to Raleigh recently to appear before that body in behalf of Rutherford county and to urge more road work in this county. They went for the interest of the entire county and on their own accord. Most of the counties are represented in Raleigh at the road lettings on the 25th of each month. The commissioners are to be commended for going before the Highway Commission in the interest of the county.

Chairman Frank Page assured Messrs. Harris and Rollins that the contract for a hard surface road between Forest City and Rutherfordton would be let at the July letting and that \$100,000 had been set aside for this road. He also assured them that the road to the S. C. line, Polk and McDowell counties would be let soon as possible.

The Chamber of Commerce of Forest City has received the following letter from Mr. H. O. Joslin, Assistant to Chairman Page which was a reply to a questionnaire sent them previous: "The total amount allotted to the Eighth District of the \$50,000,000 is \$3,686,475. The names of the counties which will participate in this allotment, together with the mileage in each county and the amount already expended in each county, is tabulated herewith: (The first is the name of the county, second is the road mileage and the third is the amount under contract) Avery, 50.9, \$22,390; Burke, 62.1, \$186,270; Cleveland, 64.6, \$81,230; Henderson, 66.1, \$34,950; McDowell, 101.3, \$381,390; Mitchell, 55.7, \$573,050; Polk, 30.9, \$139,130; Rutherford, 27.3, \$148,860 and Yancey, 48.4 with \$43,130.

There are two projects in Rutherford county which have been authorized which will doubtless be placed under contract this year; namely, from Forest City to the South Carolina line, estimated to cost about \$120,000; and a paved road from Forest City to Rutherfordton estimated to cost \$210,000.

The law did not provide any special allotment to each county, as it was realized that it would be impossible to build a state system of roads if any hard and fast lines were strictly adhered to in reference to the money to be spent in each and every county. This is a matter which is handled by the District Commissioner of each District."

The four questions asked by the Forest City Chamber of Commerce were:

1. Give the amount allotted to this district of the \$50,000,000 expenditure.
  2. The number of counties which will participate in this allotment.
  3. The amount allotted to each county and the number of miles in each county adopted for construction and maintenance?
  4. The amount already expended together with the amount now under contract for each county?
- We have secured from Attorney J. F. Spainhour, of Morganton, the amount apportioned each county of the \$50,000,000 bond issue. He secured these figures from the office of the Highway Commission in Raleigh.
- Avery, \$281,775; Burke, \$492,862; Cleveland, \$557,213; Henderson, \$412,912; McDowell, \$526,013; Mitchell, \$292,500; Polk, \$222,000; Rutherford \$575,250 and Yancey, \$325,163. These figures do not include the Federal fund this district is entitled to.
