This remarkable action photograph of Le Roy Brown, of Dartmouth College, winner of the high jump at the inter-collegiate athletic meet in the Harvard stadium on May 27, shows the Dartmouth lads are not "cake eaters," "tea hounds," or "spineless molly coddles."

### BIG CELEBRATION AT RUTHERFORDTON TO BE HELD ON JULY 4

Our Neighbors Plan For Happy Occasion, With Community Singing, Athletics, Flying Machine and Good Music.

Plans are under way for a big Fourth of July celebration at Rutherfordton and the occasion promises to be a happy one. The festivities are to be inaugurated with a parade at 10 a. m., in which some splendid floats are to be seen.

The Logan brass band has been secured and negotiations are under way for other bands if the funds will allow the expense of securing them. Practice has already begun on the community singing, which will be led by Mr. C. W. Keeter. It is hoped to have at least 500 voices in the community singing, which should prove one of the most enjoyable events of the day.

Lieut. L. E. Shealy, of Charlotte, one of the most daring pilots, will have his flying machine on the grounds and will probably bring along a woman, who will make leaps from the machine in a parachute. This should prove a thriller. Lieut. Shealy will carry passengers on his flights.

Baseball, races and other athletic stunts will be on the program. Senator Pat Harrison, of Mississippi, has been invited to deliver an address, and among the pleasure features will be a merry-go-round and Ferris wheel.

The various committees are working hard on the program and want to make the event county wide. A large crowd will most likely be present. The American Legion post and the U. D. C. will be recipients of the proceeds.

### FORD TURNS OUT 6,000,000TH MOTOR

Next One Comes Through 5 1-3 Seconds Later.

Ford Motor Number 6,000,000 was lifted from the assembly line in the Ford plant May 18. Just 5 1-2 seconds later Number 6,000,001 was finished.

The unusually heavy demand for Ford cars and trucks at the present time has necessitated the building of 5,400 motors daily. These are shipped in carload lots to the various Ford assembling plants throughout the United States.

The first Model "T" Ford motor was completed on October 1st, 1908; number 1,000,000 left the assembly line December 10th, 1915; and number 5,000,000 came through May 28th, 1921.

Although the Ford Motor Company turned out a number of different models prior to 1908, the present numbering system began with the first Model "T."

### A NEGRO MINSTREL

Union Mills, June 19.—There will be a negro minstrel given at Union Mills Wednesday night at 8:30 by the Summer School students. The program will consist of humorous selections, music and jokes; also a negro wedding. If you want to laugh until your sides ache, be sure to be present.

### Fordson Often Does More In a Day Than Six Horses

The Fordson substitutes motors for muscles.

The Fordson substitutes tractor wheels for the legs of man and horse.

The Fordson takes the burden off flesh and blood and puts it on steel.

It allows the farmer's energy to be devoted to management, and not merely to operation. It gives him time. It cuts his producing costs.

There's a big story of savings made possible by the Fordson. Let us tell you. Write, phone or call.
