### APPLES IN CLUSTERS

Writing from Lattimore, Mr.

C. B. Hamrick says: "I can tell you of one thing which you don't see every day. I have an apple tree of the rusty coat variety which grows apples in clusters. They range from one to seven in a cluster. Most clusters have two to four apples. They grow close enough to touch each other."

# The Lowest Priced FULLY EQUIPPED Roadster

Price subject to change without advance notice

The Chevrolet Roadster is a car that can be used purely for business, purely for personal service, or in an ideal combination of both.

It is intensely practical as a business car. For salesmen it will serve splendidly to multiply earning power, making possible the covering of a much larger territory and more calls in a given time:

It has the fine appearance that carries prestige, which is another point in its favor as a business car. And then it is the cheapest in price of any car in America, quality and equipment considered.

And because it is the car of lowest operating cost, it becomes the cheapest in cost per year of service of any car in the world.

Happily not many persons today actually hoard money with the belief that it is safe from theft or accident.

Money need not be buried in old walls or cellars to be hoarded. It is hoarded money if it is idle money, useless money.

The safest way to make your money work for you and the community is to deposit it in the bank, where it is safe, draws interest, and helps build up the local community, thus enhancing the value of your property.

Our officials are business executives and can help to make your money work more profitably for you. Consult them without obligation.
