No Increase in the Price of Firestone FULL-SIZE GUM-DIPPED BALLOONS

The extra quality built in by the extra process of Gum-Dipping, the economy of these wonderful tires and the added mileage obtained from them during the past two years, has created such a large demand that over 75% of Firestone's mammoth production is now Balloon Gum-Dipped Cords.

This has greatly increased the total sales volume and the huge Firestone factories are now working on a 24-hour schedule to supply the demand.

This large volume, produced under the most economical tire manufacturing methods, permits Firestone to sell these extra-process Full-Size Balloons at no extra cost to car owners. And this in the face of greatly advanced cost for crude rubber brought about by the operation of the British Rubber Restriction Act.

Gum-Dipping means longer mileage—greater economy—at no extra cost to you!

Enjoy the safety, economy and comfort of Balloon Gum-Dipped Cords this summer. Let us equip your car now at low cost—with liberal allowance for your old tires.
